

Related Projects/Programs:

- The City Engineer assisted the Director of Public Works and the Parks Director in 2008 with the design and construction administration of a nature lodge at Sunset Park. The total budgeted cost of this project, in which the majority of the labor and materials have been graciously donated by the Florissant Parks Foundation and local business representatives, will well exceed **\$1,200,000.00** by completion. The completion of the nature lodge was in May 2009.

Construction Completed May 2009 of the Nature Lodge at Sunset Park.

- The City has contracted with Munie Outdoor Services, for the maintenance of the North Lindbergh Boulevard Corridor Enhancement Project, Phase I. In conjunction with improving both vehicle and pedestrian traffic safety the City has implemented decorative street lighting, banners, street furniture, and landscaping to enhance the look of the main thoroughfare. The total budgeted cost of the landscaping maintenance in 2009 was **\$50,000.00**.

- **FY'2009 Sidewalk Replacement Program:**

- PCC 4" Sidewalk Replacement	(36,097 SF)	\$279,031.32
- PCC 6" Driveway Walks and/or Approaches	(720 SF)	\$ 6,789.60
- Sidewalk Shaving	(20 SF)	\$ 653.60
	Total:	<u>\$286,474.52</u>

Sidewalk Replacement Program Completed November 2009.

- Completed updates to the written administrative procedures for the City's Floodplain Management Regulations.
- Coordination with the Community Development/Housing Center Department on various Census and mapping updates.
- Investigated and helped assist all of the Traffic Commission's new cases.
- Coordination with St. Louis County Mapping Division to review and revise all new GIS information for City base maps to include all new annexation areas.
- Coordination with the City Clerk's office to update street guide, including address ranges in each ward; revised wards to resulting from the new census figures and annexation areas.
- Coordination with representatives of St. Louis County in creating new street light maps, in addition, to locator books and maps of the new annexation areas.
- Originally funded in FY'02 for the inception of the City's **Geographic Information System (GIS)**, the City originally contracted with St. Louis University, with the assistance of the Mayor and through the University's GIS Department, to begin creating a digitized web base map which serves as a building block for future geomeia additions. In 2009 The City contracted with Fraternal Software Systems to continue the ever

growing website with additional utility, aerial photography, parcel, floodplain, park, bridge, creek, and zoning information.
