

- **State & County Highway Department Projects Reviewed and/or Coordinated**

Completed: This Division worked with the Missouri Department of Transportation (MoDOT) on various North County transportation issues. Most importantly, this Division coordinated with MoDOT officials in order to continue the efforts to improve the level of service for the major intersections along North Highway 67. The City Engineer submitted an application to State Farm Insurance Company in 2002 as part of their Most Dangerous Intersections Study campaign in the St. Louis Metropolitan area. A **\$20,000.00** grant was awarded to the City for research purposes to better enhance the level of service at the intersection of Patterson Road, Lindsay Lane, and North Highway 67. Through these efforts MoDOT completed the construction for this project in August 2009 with a total construction cost of over \$3 million.

In Progress: This Division is working closely with MoDOT representatives to bring new infrastructure projects into the City. Such projects that will be forthcoming include the following:

- ▶ Resurfacing of North Highway 67 from New Halls Ferry Road to 367. Estimated for construction in 2010.
- ▶ I-270 over New Florissant Road Bridge Replacement. Estimated for construction in 2011.
- ▶ Resurfacing of New Halls Ferry Road from North Highway 67 to Parker Road. Estimated for construction in 2012.
- ▶ Working with MoDOT officials on various other projects to enhance state right-of-ways within the City.

This Division is working closely with St. Louis County Department of highways & Traffic representatives to bring new infrastructure projects into the City. Such projects that will be forthcoming include the following:

- ▶ Widening of Charbonier Road from North Highway 67 to Shackelford Road. Estimated for construction in 2012.
