“Fitness Club Patrons Beware”

The Florissant Police Department wants to alert fitness club patrons from the metropolitan area to be aware there have been recent rash of vehicles being broken into on fitness club parking lots. It appears there may be a group of individuals specifically targeting these parking lots. Thieves know that many patrons prefer to leave their wallets, cell phones and other valuables locked in their vehicles instead of securing them in a locker inside the club.

Florissant and surrounding areas have experienced multiple autos being broken into while parked on fitness club lots. It's a prime location to quickly strike several cars and the thieves know that the patrons will in all likelihood be inside for an extended period of time. The individuals responsible have struck in the early morning hours as well as the afternoon and evening.

Patrons who are going to be working out at a fitness club are strongly encouraged to remove all valuables from their autos and secure/lock them in a club locker.
