City of Florissant, Missouri
2026 Budget Message

Honorable members of the City Council and Citizens of the City of Florissant:

As Mayor of the City of Florissant, it is my responsibility to submit a proposed budget for the upcoming 2026 fiscal year. The 2026 fiscal year runs from December 1, 2025, through November 30, 2026. The proposed budget is in compliance with section 6.6 of the City Charter and section 67.010 of the Missouri Revised Statutes.

This budget contains the framework to continue to operate the City professionally while providing the high level of programs and services our residents expect. One of my goals with this proposed budget, as with past budget proposals, is to anticipate expenditures for the next fiscal year to reduce the need for supplemental appropriations, recognizing that it is impossible to eliminate them entirely.

As we prepare the upcoming budget for the 2026 fiscal year, our strategic priorities are centered on ensuring long-term impact, operational excellence, and alignment with the community's vision. A key focus is the development and implementation of a comprehensive five-year Capital Improvement Plan that prioritizes critical infrastructure and facility investments, ensuring that taxpayer dollars are directed toward the most essential and impactful projects. Additionally, we are increasing citywide training budgets to ensure that every employee has access to the certifications, tools, and knowledge necessary to perform at the highest level. This investment in our workforce supports both professional growth and enhanced service delivery to residents. Finally, we are allocating resources to continue bringing key elements of our Comprehensive Plan to life, translating community-driven goals into tangible outcomes that support sustainable growth, livability, and long-term resilience.

Priorities and Issues

The city must also prepare for external financial pressures that will impact the upcoming budget. One of the most significant of these is the rising cost of insurance premiums, which continue to increase due to broader market trends and higher claims across the public sector. These escalating costs affect multiple areas, including property, liability, and employee health insurance. As a result, we must proactively allocate additional funding to ensure continued coverage without compromising service delivery or fiscal stability. Planning for these increases now will help the city manage risk more effectively and avoid unexpected shortfalls in the future.

Another priority for the Administration is employee retention and recruitment. With that in mind, In Fiscal Year 2026, Administration would like to propose a Cost-of-Living Adjustment (COLA) back into the conversation and the budget annually. Administration is proposing a one (1) percent COLA increase for 2026 in addition to employees' three (3) percent merit increase which they are eligible for upon a satisfactory performance evaluation. With the addition of the COLA, it shows our support for our employees' livelihood and wellbeing.

Improving accessibility at all city facilities and infrastructure is another important focus of this year's budget, directly supporting the goals of our citywide Comprehensive Plan. Through the Public Works and Parks Department's ADA Transition Plan, we will continue making targeted upgrades to buildings, parks, and public spaces to ensure they are inclusive and accessible to all. These improvements not only support ADA compliance but also reflect our commitment to equity and community connection. Funding will prioritize high-impact areas, with continued progress planned in the years ahead.

This past year brought an unusually harsh weather cycle, which significantly impacted our infrastructure. Many of our streets experienced more wear and damage than we would typically see in a full calendar year. As a result, we are prioritizing street maintenance and repairs in the upcoming year's budget. We recognize how important safe and reliable roads are for our residents, and we are committed to investing in improvements that will enhance daily travel and long-term durability across our community. All of this being said, the city looks to increasing spending on the streets over the next 5 years and into the future.

Public Works

The Public Works Department will continue its diligence in policing the City for exterior housing violations. We will continue administering the Property rental licensing program. The Department will also continue to administer the Business licensing function for the City. Proposition S, the street sales tax, will be the conduit for \$1,800,000 in major street projects along with money from the Capital Improvement Fund that will fund more street maintenance projects. The long-standing practice of utilizing grants to help fund projects for our bridges and roadways is a very cost-effective approach enabling Florissant to leverage the maximum value from tax collections. We have secured grant funding using this mechanism for: Mullanphy Road which will be constructed in fiscal year 2026, St. Denis, St. Catherine and Patterson Road which will be constructed in fiscal year 2027

Police Department

The Florissant Police Department looks to continue its work in the FY 2026 budget to increase recruitment and retention through competitive pay and benefits relative to other agencies. The department also seeks to give officers the tools, technology, and training to effectively provide police services. This initiative includes the department's budget request to obtain report writing software powered by artificial intelligence, implementation of additional License Plate Reader (LPR) cameras, and increasing the department's training budget by 12%. These investments in public safety seek to further department mission of providing quality police services to residents with integrity, fairness, and professionalism.

Parks Department

In Fiscal Year 2026, the Florissant Parks and Recreation Department will remain focused on addressing deferred maintenance and continuing to update our facilities and parks. The Park Improvement Account is currently facing several challenges, as it is heavily committed to covering daily operating expenses, staff salaries, and debt repayment. This leaves limited

funding available for capital improvement projects. To help address these needs, Parks submitted several requests to the Capital Improvement Fund, including new park tables and trash receptacles, equipment for parks maintenance and the golf course, as well as additional equipment to expand our forestry operations. In addition, the Department has applied for a Municipal Park Grant to support the construction of two new soccer fields at Koch Park, complete with irrigation and connecting sidewalks. Despite these financial challenges, we remain committed to improvements and to practicing strong fiscal responsibility as we move into the upcoming year.

HR

The City works to keep a competitive edge with our municipal counterparts. Following our compensation study and implementation in 2024, we hope the new salary scales will continue to offer our employees growth and longevity within their position, and to assist in our recruitment efforts.

In addition, the State of Missouri's minimum wage will be increasing to \$15.00 per hour effective January 2026. As a result, the compensation scales for permanent part-time and seasonal employees will be adjusted to reflect the increase and to stay competitive. The hours for permanent part-time positions continue to be limited so that no part-time position will be regularly scheduled to work more than 28 hours per week.

The City's benefit plans, and membership in LAGERS (Missouri Local Government Employees Retirement System) are still in place and an effort to provide a total compensation package designed to be as competitive as possible to continue to attract and retain outstanding Florissant police officers and other City employees.

Health insurance costs seem to continue to soar. Human Resources, with the assistance of our insurance brokers continue to research alternatives to control our health insurance costs and find our employees enhanced savings through our new status of self-insured. The move has allowed us to take control of our health insurance costs and manage the details of our plans more closely.

IT

The Information Technology Department remains committed to safeguarding the City's systems, data, and resources while providing reliable technology services to support our employees. This year, our focus will include maintaining our video surveillance and security systems, strengthening information security with updated software and endpoint protection, and implementing multiple authentication systems. By maintaining multiple layers of security and running simulated cyber-attack exercises, we continue to proactively protect the City's networks and sensitive information from evolving threats.

We are also prioritizing staff training to ensure employees remain well-prepared to identify and respond to security risks, while carefully managing our budget to remain fiscally conservative with taxpayer resources. Our team is implementing systems for automated system updates and alerts, and making thoughtful investments that maximize value and minimize risk. Together, these initiatives help us protect the City's digital infrastructure and support our employees.

Economic Development

The Economic Development Department continues to move forward promoting Florissant in a positive light, working to bring new development to our city, and making sure that Florissant is always growing. In collaboration with our Florissant Media Department, we have worked to

build the “Choose Florissant” and “City of Festival” brands and promote our businesses and festivals on social media and the overall community on the economic development website.

This year we have added another exciting new housing development of 136 new homes called River Bluffs. The development will be broken into three sections with different price points and models: River Bluffs Estates, River Bluffs Manors, and River Bluffs Meadows. Just down the street Koch Park Manors remains under construction and has entered Phase 2 as Phase 1 is almost entirely sold out. Included in these developments are almost 1 mile of pedestrian trails built at the developer’s expense. These trails will eventually be used to extend a connection in collaboration with Great Rivers Greenway of the existing Sunset Greenway to Koch Park.

The city has recently conducted a hotel market feasibility study to help attract a high-quality hotel to our city, and we are excited to see renovations happening at the Quality Inn and the former Red Roof Inn being repurposed as Baymont by Wyndham. Another exciting new project that is being studied is the Town Square development across from City Hall. The City recently took part in a planning study on this project with East-West Gateway and the Great Streets panel.

We have worked vigorously to fill many of the big box vacancies in our existing shopping centers with national tenants such as Ollie’s, Bath & Body Works, and Crunch Fitness. New Healthcare facilities have opened including Archwell Health, St. Louis Orthopedic Center, and Premier Institute of Oral Surgery. We have also seen new commercial retail development in several different areas of the city, including Aldi, St. Louis Kolache, Lotawata Creek Chicken Shack, and Sweet Spot Café, just to name a few. We are pleased to see the blighted Kmart building has recently been demolished which has prepared that site for new development.

Budget Overview

Revenues in the proposed General Fund budget are estimated to be \$29.9 million, a \$1.6 million dollar increase from the FY2025 budget. However, the increase in budget revenues has more to do with prior year revenue estimates being conservative rather than an increase in the tax base. Compared to actuals and year to date data from FY 2025, FY 2026 revenues are expected to remain relatively flat or increase nominally given economic factors and uncertainty among consumers and markets. For instance, we project that all tax revenues will increase 4% from the prior year budget but only 1% from 2024 estimates.

Also notable is the projected increase in interest income in the General Fund of \$760,000. While interest rates are currently projected to decrease over the coming year, the City Council recently adopted a new investment policy allowing the Finance Department to maximize the return on the City’s funds. Additionally, the City’s healthy reserve of \$29 million will allow the City to keep enough funds invested to hit the projected benchmark while still prioritizing safety

Proposed expenditures in the General Fund budget are \$33.8 million dollars which is a \$1.2 million dollar increase for the FY 2025 amended budget. Salaries and benefits across all departments in the General fund are proposed to increase 2% from the prior budget year. Some categories are increasing more, such as full-time salaries (7%), but are offset but a decrease in medical insurance costs realized as the City. This is the result of the City intentionally overfunding the Self-Insurance Fund in FY 2024 and FY 2025 to establish a claim fund reserve. Now that the reserve is established, the City can take advantage of the flexibility that the Self-Insurance Fund offers, despite rising medical costs.

Operating costs in the General Fund are proposed to increase almost 13%. Significant drivers of this increase are property and liability premium increases (\$388,000) as well as restructuring how certain maintenance costs are distributed among governmental funds. As shown in the table below, the General Fund is proposed to take on additional \$760,840 from the Capital Improvement and Public Safety funds to allow those funds to prioritize and fund major capital items.

Expenditure Description	Amount In/(Out)	Fund Moved From/To
Internet/Fiber and Connectivity	108,000	From Capital Improvement
Equipment and Tool Maintenance	135,000	From Capital Improvement
Building and Grounds Maintenance	269,440	From Capital Improvement
Public Safety Buildings Utility and Maint.	183,900	From Public Safety Fund
Street Lighting Utility	500,000	From Capital Improvement
Total Moved Into General Fund		1,196,340
Capital Copier Lease	(72,500)	To Capital Improvement
Capital Software Agreements	(188,000)	To Capital Improvement
Capital Golf Cart Lease	(110,000)	To Capital Improvement
Capital Public Safety Radio Purchases	(65,000)	To Public Safety Fund
Total Moved Out of General Fund		(435,500)
Net Effect		760,840

The FY 2026 budget also restructures several departmental budgets to make the budget document easier to understand and to reflect organizational changes. First, the IT/Media department is now the IT Department, with all Media staff and activities being moved under the umbrella of the Administration Department. Second, the Senior Services, E-Sports, and Sumer Camp department budgets have been moved under the umbrella of the Civic Center department budget. Finally, the Bangert and Koch aquatic center budgets have been merged to form a single Aquatics department budget.

In addition to the initiative to increase available funding for major capital items and infrastructure, the FY 2026 budget includes a 5-year capital improvement plan. Highlights from the plan include an average of \$3.4 million annually invested in major street and infrastructure reconstruction and maintenance. Additionally, the plan addresses deferred maintenance concerns at the JJE and JFK Civic Centers and funds the construction of new park amenities through the Municipal Park Grant Program, consistent with the Florissant Parks and Recreation Master Plan.

Respectfully Submitted,

Timothy J. Lowery
Mayor

City of Florissant FY 2026 Budget
Fund Overview

101 - General Fund

The General Fund is the City's main operating fund and is used to pay for the day-to-day operations and essential services offered by the City. Virtually all the revenue in the general fund has no purpose restriction, giving the City Council flexibility and discretion on what the funds can be used for. In the FY 2026 budget revenues are estimated to come from Taxes (72%), Charges for Services (9%), and Licenses and Permits (8%). The expenditures in this fund are largely used for salaries and benefits (79%) with the remaining amount used for general operating cost.

204 – Sewer Lateral Fund

The Sewer Lateral Fund is a special revenue governmental fund that is used to administer the City's Sewer Lateral Insurance Program. The fund is primarily funded by a \$50.00 fee levied on all dwellings eligible for the program and provides repairs to defective sewer lateral lines.

209 – Park Improvement Fund

The Park Improvement Fund is a special revenue governmental fund. The primary source of revenue for the fund is a ½% cent sales tax restricted for expenditures related to the operation and improvement of the City's parks and recreational facilities. In the FY 2026 budget 85% of the fund's sales tax revenue is spent on salaries and operating cost of the City's park system with the remaining amount going to debt service and capital projects.

216 – Property Maintenance Fund

The Property Maintenance Fund is a governmental fund that provides funding for Crime Free Rental Housing Program and other housing and property maintenance initiatives of the City. The money and revenue in this fund are not restricted by state law or ordinance of the City of Florissant but are set aside at the discretion of the City Council.

217 – Public Safety Fund

The Public Safety Fund is a special revenue governmental fund that provides additional funding for the Florissant Police Department and other public safety expenditures. The primary source of revenue is sales taxes revenue shared from the St. Louis County ½% Public Safety Sales Tax. Each year this fund transfers money into the General Fund to pay for salaries and benefits of police officers and public safety officials with the remaining funds being used for capital expenditures related to public safety.

314 – Court Building Fund

The Court Building Fund is a debt service fund of the City related to the purchase and remodel of the City's court building in 2015. The cost of the project was funded by an interfund advance from the City's general fund, for which the Court Building Fund is paying back with interest. The sole source of revenue of the fund is court costs imposed for the construction, maintenance, and upkeep of the City's municipal courthouse.

335 – 2022 GOB Debt Service Fund

Fund 335 is a debt service fund for the payment of principal and interest payments for the Series 2022 General Obligation Bonds (GOB) that were issued for the construction and improvement of the Koch Park Aquatic Center, Bangert Aquatic Center, and the JJE Indoor Pool. The primary source of revenue for the fund is a property tax on real estate at the rate of 12 cents per \$100 of assessed value.

403 – Capital Improvement Fund

The Capital Improvement fund is special revenue governmental fund. The primary source of revenue for the fund is a ½ cent sales tax that is shared with other municipalities in St. Louis County that is restricted for the purpose of capital expenditures including maintenance.

408 – Street Improvement Fund

The Street Improvement Fund is a special revenue governmental fund. The primary source of revenue for the fund is ¼ cent local option sales tax that voters restricted for the purpose of street maintenance and capital outlay.

434 – 2022 GOB Project Fund

Fund 434 is a capital project fund for the construction and improvement of aquatic centers part of the Series 2022 GOB. The project is scheduled for completion in the first quarter of FY 2026 at which time the fund will be closed out and any remaining funds will be transferred to the Debt Service Fund.

600 – Self Insurance Fund

The Self Insurance Fund is a proprietary fund of the City used to pay claims and fixed costs related to health insurance benefits offered to full-time employees of the City. The primary revenue source of the funds are charges for services against the General Fund and Park Improvement Fund, and expenditures are for medical claims and fixed cost and premiums associated with administering a self-insured plan.

Accounting Basis

The Governmental Finance Officer Association (GFOA) recommends that cities disclose the basis of accounting used for the budget and how it may differ from the basis of accounting used in the City's financial statements.

In their own words:

"The term "basis of accounting" is used to describe the timing of recognition, that is, *when* the effects of transactions or events should be recognized. The basis of accounting used for purposes of financial reporting in accordance with generally accepted accounting principles (GAAP) is not necessarily the same basis used in preparing the budget document.... An understanding of the GAAP basis of accounting is critical to the proper budgeting of available financial resources. Explaining the major differences between the basis of accounting used in the budget document and the basis of accounting used in the GAAP financial statements helps stakeholders better understand and interpret the numbers presented in both documents."

(GFOA, [Basis of Accounting versus Budgetary Basis](#), 2019)

The City of Florissant FY 2026 Budget uses a budgetary basis of accounting which recognizes revenues and expenditures when cash is exchanged or when it is encumbered, sometimes referred to as the cash + encumbrances basis of accounting. This differs from the modified accrual basis of accounting used for the City's published and audited financial statements which recognize transactions when they are both measurable and available pursuant to GAAP.

Project	Type	Fund	Account	Project #	2026	2027	2028	2029	2030
City Hall Plaza	Major Project	403	403-56600-000	260034	\$ 400,000	\$ -	\$ -	\$ -	\$ -
Description:	The City received a planning grant from EWGW-Great Streets to redo the city parking lots across from City Hall and turn into a town square/plaza for festivals and events. In that planning document several costs were estimated. Proposal is to start with the engineering and design costs to get the project started and provide more clarity.								
Website Redesign	Software	403	403-52450-102	260017	\$ 45,000	\$ -	\$ -	\$ -	\$ -
Description:	Project would find a new vendor for the City's website and redesign to improve design, functionality, and accessibility.								

Other Capital Expenditures

				2026	2027	2028	2029	2030
Capital Copier Lease (City-Wide)	Equipment	403	403-53150-000	\$ 67,500	\$ 67,500	\$ 67,500	\$ 67,500	\$ 67,500
OpenGov Software	Software	403	403-52450-102	\$ 71,000	\$ 71,000	\$ 71,000	\$ 71,000	\$ 71,000
Network Switch Upgrade	Equipment	403	403-56100-107	\$ -	\$ 35,000	\$ 35,000	\$ -	\$ -
