# **CITY OF FLORISSANT**

5 The Florissant City Council met in regular session at Florissant City Hall, 955 rue St. Francois on 6 Monday, May 23, 2022 at 7:00 p.m. with Council President Schildroth presiding. The Chair asked 7 everyone in attendance to stand and join in reciting the Pledge of Allegiance.

8 On Roll Call the following Councilmembers were present: Siam, Harris, Manganelli, Eagan, 9 Caputa, Schildroth, Mulcahy, and Pagano. Councilman Parson was excused. Also present was Mayor 10 Timothy Lowery, Human Resources Director Sonya Brooks-White, and Acting City Attorney Jackie 11 Graves. A quorum being present the Chair stated that the Council Meeting was in session for the 12 transaction of business.

Councilman Eagan moved to approve City Council Minutes of May 9, 2022, seconded bySchildroth. Motion carried.

15

The next item on the Agenda was *Hearing from Citizens*.

Ellis Fitzwalker, 7 S. Schlueter Ave, stated he works with a non-profit called H.E.A.L. Stop Heroin. He made the city aware of an awareness walk on June 11, 2022 and will be meeting at 10am at St. Ferdinand Church. He noted everyone attending should be wearing bright colored clothing. He announced the No-Lock Box which are opioid rescue kits for areas within North County. Mr. Fitzwalker invited everyone interested to attend the awareness walk on June 11<sup>th</sup>.

Mary Rechtien, 2310 Mockingbird Ln, stated the pavilion rental ordinance does not make sense and the deposit system is not clear. She stated she paid the deposit at the beginning of May for an early June rental and was told she would not receive her deposit back until the end of June. She noted people on a limited income have difficulty holding deposits for extended periods of time.

25

The next item on the Agenda was Public Hearings.

The City Clerk reported that Public Hearing 22-05-012 for the Request to approve a B-5 "Planned Commercial District" located at 540 Howdershell Lot "B" to allow for a car sales office for CarGroup Holdings, LLC. The Chair declared the Public Hearing to be open.

Bonnie Zingler, petitioner, noted the business is strictly an administrative office for purchasing vehicles online and will work on title transfers, inspections, and paying sellers. She noted the business

31 office is by appointment only. Ms. Zingler stated they will need a car sales license to transfer titles. She Packet Page 3 of 170 noted the cars will not be on the lot longer than 48 hours, due to pick up fees on the weekend. The hours
of operations would be Monday through Friday 10am to 7pm and Saturdays from 9am to 6pm.

Being no further comments, Councilman Eagan moved to close the Public Hearing, seconded by
Pagano. Motion carried.

The City Clerk reported that Public Hearing 22-05-013 for the Request to amend B-5 Ordinance No. 6669 to add "Equipment Rental, Home and General" as a permitted use located at 13939 New Halls Ferry Road. The Chair declared the Public Hearing to be open.

Andrew Jenson, architect, noted the intention is to replace the former Pier 1 Imports in Cross
Keys Shopping Center with Aaron's on New Halls Ferry Road. He noted the shipping trucks would only
be located at the store when they are planning to ship out large quantities.

42 Being no further comments, Councilman Siam moved to close the Public Hearing, seconded by43 Pagano. Motion carried.

44 The City Clerk reported that Public Hearing 22-05-014 for the Request to approve a Special Use
45 Permit to allow for a Wine Bar in a HB "Historic Business District" located at 150 Washington. The
46 Chair declared the Public Hearing to be open.

47 Tina White, owner, stated the project is similar to a wine bar with the front and inside two areas 48 as the seating area and noted the proper parking would achieved through using the land around the 49 building. She stated the capacity is 48 people and noted the initial larger project was approved through 50 her husband. Ms. White stated she is trying to keep the building preserved as is. Councilman Schildroth 51 noted he received a few concerning emails from neighboring properties. Ms. White noted her hours would 52 be Thursday from 11am to 9pm, Friday and Saturday from 11am to 10pm, and Sunday 12pm to 7pm. 53 She said this business would serve small shareable plates and wine only for sale. Ms. White noted she is 54 working on the menu and kitchen to make sure she follows the St. Louis County Health Department 55 Guidelines. She stated that she has no intention to expand and prefers the intimacy of the business as is. 56 Councilman Schildroth noted his concern with the golf cart parking on Harrison. He asked if there could 57 be signage stating "No right turn" at the corner of Harrison to avoid any traffic as well as no parking 58 signs from the Traffic Commission to avoid patrons parking there. Ms. White stated that she would have 59 soft jazz music and a possible musician inside the house playing saxophone without a stage and may also 60 have the option of a small wedding on the property. She clarified that she may have an option where 61 people could reserve the space, but would follow the capacity guidelines. Ms. White noted she would not be charging a cover charge at any point. Ms. White noted she is to begin construction on June 13<sup>th</sup> if the 62 63 project gets approved. She stated she would not be making wine on the premises and does not want to be 64 selling wine to go. Ms. White clarified her reason for not allowing cars to exit on Washington is to Packet Page 4 of 170

65 preserve landscaping and trees on the property and noted she would have speed bumps along the parking lot to slow drivers down. Katie Powers, 115 Harrison, noted her concerns with water run-off due to the 66 67 parking lot being created. Lynn Taylor, General Manager, noted they are working with an engineer 68 regarding the drainage for the parking lot run-off. David Bridgman, 180 Harrison, noted every car leaving 69 the property would come past his house and noted he personally did not see any problems with vehicles 70 driving around the back of the building to exit on Washington rather than Harrison. He noted they could 71 still allow golf cart parking and trash enclosure access off Harrison. Robert Linhares, 11 Louise Ct, asked 72 the City Council to drive past their area to see the concerns they are all bringing up regarding the small 73 courts and streets around Washington. He noted the water run-off mentioned before and the traffic 74 potential on Harrison would be difficult. Phil Lum, Building Commission, noted the engineering and 75 architecture firms would need to address the water run-off issue and the plans presented to the council 76 for the Special Use Permit are only preliminary plans. He stated the city engineer would address the plans 77 for the water run-off solution. Mr. Lum noted the water run-off issue is common for the Old Town District 78 and could be solved overall with grants and a large project. Councilman Caputa suggested finding 79 contractors who can create a way for the run-off to avoid the homes and any kind of flooding. Tamara 80 Rucker-Wood, 15 Louise Ct, stated she likes the idea of the project however, she is afraid of the traffic 81 issues on the street because of the way Harrison is designed.

Being no further comments, Councilman Schildroth moved to close the Public Hearing, seconded
by Manganelli. Motion carried.

The City Clerk reported that Public Hearing 22-05-015 for the Request to amend B-5 Ordinance no. 6266 to add "Automotive Service Garage and Tire Service" as a permitted use located at 3180 N. Highway 67 for the Pit Crew. The Chair declared the Public Hearing to be open.

87 Kevin Claspille, owner, stated the business is not expanding. He noted the business is trying to 88 relocate due to health issues at the current location. Councilwoman Pagano stated she has viewed the 89 issues at the location and knows the business owner has been around for a long time. She is aware the 90 business is desperate to move because of neglectful landlords and for the safety of the employees, 91 vendors, and customers. Mr. Claspille noted he is trying to move into the old Lowes location with the 92 exact same area, the garden area would be used as the locked storage area, two bathrooms, and an office 93 area. He noted the hours of operation, the operation, and everything else about the business would be the 94 same. Mr. Claspille showed a short video of the conditions of the property to the Council inside his 95 current location with damage to all the equipment and rain leaking from the ceiling. He stated he would 96 have an outside sign at the new location so current and new customers could be viewed from the street.

97 Mr. Claspille noted he hopes to open the new location within three months from approval. Packet Page 5 of 170

#### Page 4

98	Being no further comments, Councilman Siam moved to close the Public Hearing, seconded by
99	Harris. Motion carried.
100	The Chair stated that the next item on the agenda was Second Readings.
101	Councilman Schildroth moved Bill No. 9780 an Ordinance calling an election in the City of
102	Florissant, Missouri, on the question of issuing general obligation bonds for the purpose of constructing
103	aquatic centers be read for a second time, seconded by Caputa. Motion carried and Bill No. 9780 was
104	read for a second time.
105	Councilman Caputa moved that Bill No. 9780 be read for a third time, seconded by Pagano.
106	Motion carried and Bill No. 9780 was read for a third time and placed upon its passage. Before the final
107	vote all interested persons were given an opportunity to be heard.
108	Being no persons who wished to speak, on roll call the Council voted: Parson, absent, Siam yes,
109	Harris yes, Manganelli yes, Eagan yes, Caputa yes, Schildroth yes, Mulcahy yes, and Pagano yes.
110	Whereupon the Chair declared Bill No. 9780 to have passed and become Ordinance No. 8789.
111	The Chair stated that the next item on the agenda was Board Appointments.
112	Councilman Eagan made a motion to appoint Alvin Schneider, 1670 Flordawn, to the Traffic
113	Commission as a member from Ward 4 with a term expiring on 5/23/2026. Seconded by Caputa, motion
111	Le company de la company de
114	carried.

#### Page 5

131 original plan but the landlord was unsure of the sprinkler system installation. He noted there was not site 132 plan because they are not changing the interior of the building, just painting the walls. Mr. Dew stated 133 the previously noted VIP area on the Grandview plans is not going to be built at this location. The location 134 hours are planning to be Tuesday through Friday closing at 1:30 am and closing on Sundays at 10pm. He 135 said that his intention is to open with a full liquor by the drink option and would be serving food up until 136 the last hour during the week and Sundays until 10pm. Mr. Dew noted he would have comedy, poetry, 137 and live dance at the location, but would not be charging a cover fee. He stated two to three times a month 138 they would be having the shows and changing to adults only for special events with promotional shows 139 being posted about three weeks in advance on their website, social media, and at the location. Mr. Dew 140 noted the repairs of the back door and kitchen flooring would be repaired as soon as he receives the keys 141 for the property. Councilman Eagan noted a concerning portion of the Special Use Permit for Cannoli's 142 and he wanted more time to clarify if the Special Use is cancelled. Councilwoman Pagano noted the 143 current permit says sit-down and carry out restaurant only and nothing regarding the special 144 events/entertainment. 145 Councilman Eagan moved to postpone the Request to transfer Special Use Permit no. 5580 from 146 Delor Distributing, Inc d/b/a Cannoli's Sicilian Cuisine to 2.0 Restaurant for the location and operation 147 of a restaurant located at 462 N. Highway 67 to the June 13, 2022 meeting. Seconded by Pagano, motion 148 carried. 149 Councilman Eagan moved to remove Bill No. 9790 an Ordinance authorizing a transfer of Special 150 Use Permit no. 5580 from Delor Distributing, Inc d/b/a Cannoli's Sicilian Cuisine to 2.0 Restaurant and 151 bar for the location and operation of a restaurant located at 462 N. Highway 67 from the agenda because 152 the application was postponed. Seconded by Pagano, motion carried. 153 Councilman Eagan moved to approve the Request for a Full Liquor by the Drink license for Plush 154 Lounge located at 12667 New Halls Ferry Road. Seconded by Caputa, 155 Councilman Eagan moved to suspend the rules to speak with the petitioner, seconded by Mulcahy. Motion carried. 156 157 Prince Koroma, owner of Plush Lounge, noted the plan has changed to a restaurant and bar, not a 158 lounge. He noted he does have a chef and a template of a menu for the council to review. Mr. Koroma 159 noted he wants to open with the kitchen from 3pm to 10pm and the bar to close around 12am. He stated 160 he has a DJ booth, with a sound system for the TVs, and a system to play music. The hookah lounge 161 information was still on the social media account, Mr. Koroma noted he intends to take the hookah off 162 the social media as soon as he can, but was focused on fixed his permits. He stated he does want to get 163 approval for outside seating to allow for smoking on a patio. A VIP area is shown; however, Mr. Koroma Packet Page 7 of 170

164	states it is for a more comfortable seating rather than at a table, he has no intention of charging a cover
165	charge, having preferred seating, and selling tables or memberships, but asks for a reservation to be made
166	for "special seating" with no charge. Mr. Koroma did note these are his intentions for later on in the
167	business but he does not want to do these things at this time.
168	Councilman Eagan moved to postpone the Request for a Full Liquor by the Drink license for
169	Plush Lounge located at 12667 New Halls Ferry Road to the June 13, 2022 meeting. Seconded by Caputa,
170	motion carried.
171	The Chair stated the next item on the agenda was Resolutions.
172	The Council as a whole introduce Resolution 1040 "A resolution of the City Council of the City
173	of Florissant, Missouri, acknowledging the planning and zoning adoption of the 2050 Comprehensive
174	Plan and adopting Section 1 "Community Goals, Objectives, and Strategies"". Councilman Schildroth
175	made a motion for a second reading, seconded by Pagano. Motion carried, Resolution 1040 was read for
176	a second time. Councilman Mulcahy made a motion for a third reading, seconded by Harris.
177	On roll call the Council voted: Parson absent, Siam yes, Harris yes, Manganelli yes, Eagan yes,
178	Caputa yes, Schildroth yes, Mulcahy yes, and Pagano yes. Motion carried, Resolution 1040 was read for
179	a third time. Before the final vote all interested persons were given an opportunity to be heard.
180	Being no persons who wished to speak, on roll call the Council voted: Parson absent, Siam yes,
181	Harris yes, Manganelli yes, Eagan yes, Caputa yes, Schildroth yes, Mulcahy yes, and Pagano yes. Motion
182	carried, Resolution 1040 was passed. The Clerk read the resolution in its entirety.
183	The Chair stated that the next item on the agenda was Bills for First Reading.
184	The Council as a whole introduced Bill No. 9782 an Ordinance to approve a B-5 "Planned
185	Commercial District" located at 540 Howdershell Lot "B" to allow for a car sales office for CarGroup
186	Holdings, LLC. was read for the first time.
187	The Council as a whole introduced Bill No. 9783 an Ordinance to amend B-5 Ordinance No. 6669
188	to add "Equipment Rental, Home and General" as a permitted use located at 13939 New Halls Ferry

#### ORDINANCE NO.

#### ORDINANCE TO APPROVE A B-5 "PLANNED COMMERCIAL DISTRICT" LOCATED AT 540 HOWDERSHELL LOT "B" TO ALLOW FOR A CAR SALES OFFICE FOR CARGROUP HOLDINGS, LLC.

WHEREAS, Ordinance No. 1625, as amended, establishes within the City of Florissant district classifications for the purpose of regulating their construction and use of land, buildings and property within the said various districts, and said Ordinance provides the nature, kind and character of buildings that may be erected in each of the said districts and the use to which the land and buildings may be put; and

WHEREAS, the Planning and Zoning Commission of the City of Florissant has recommended to the City Council at their meeting of May 2<sup>nd</sup>, 2022 that Ordinance No. 1625 be amended to change the classification of the property located at 540 Howdershell Lot B to B-5 "Planned Commercial District" to allow for a car sales office; and

WHEREAS, due and lawful notice of a public hearing no. 22-05-012 on said proposed zoning
change was duly published, opened on May 23, 2022 at 7:00 P.M. by the Council of the City of
Florissant; and

WHEREAS, the Council, following said public hearing, and after due and careful deliberation, has concluded that the amendment of Ordinance No. 1625, as amended, as hereinafter set forth, to be in the best interest of the public health, safety and welfare of the City of Florissant; and

NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF
FLORISSANT, ST. LOUIS COUNTY, MISSOURI, AS FOLLOWS:

28 Section 1: A B-5 "Planned Commercial District is hereby approved to allow for a car sales
 29 office with no vehicles for sale on the lot located at 540 Howdershell.
 30

31 The following restrictions, are hereby made part of the record:

32

33

27

1. **PERMITTED USES** 

The use permitted in this 'B-5' Planned Commercial District shall be limited to a those Uses permitted in the 'B-3' District without a Special Use Permit and a Used Car Dealer Office with no vehicles for sale on the property as depicted as "Lot B" on the site plan.

# 37 2. FLOOR AREA, HEIGHT AND BUILDING REQUIREMENTS 38 The building shall be limited to existing building with a square footage of approximately 1020

square feet. The main building shall remain as depicted on the recorded Site Development Plan
 presented: C1 dated 7/30/99 by Stock & Associates and Building Plans A-2 and A-3 dated
 2/15/20201 Graph (1) and (1)

# 41 2/15/2000 by Steve Moeller, Architect.

#### 42 **3. PERFORMANCE STANDARDS**

Uses within this 'B-5' Planned Commercial District identified herein shall conform to the most
restrictive performance standards as set forth in Article VII of the Florissant Zoning Code.

- 45 4. FINAL SITE DEVELOPMENT PLAN GENERAL CRITERIA
- 46 The above Final Site Development Plan shall include the following:
- 47 a. Location and size, including height of building, landscaping and general use of the building.
- 48 b. Gross square footage of building.
- c. Existing and proposed roadways, drives, and sidewalks on and adjacent to the property inquestion.
- 51 d. Location and size of parking areas and internal drives.
- 52 e. Building and parking setbacks.
- 53 f. Curb cut locations.
- 54 g. Existing proposed contours at intervals of not more than two (2) feet.
- 55 h. Preliminary storm water and sanitary sewer facilities.
- 56 i. Identification of all applicable cross-access and cross-parking agreements.

#### 57 5. FINAL SITE DEVELOPMENT PLAN CRITERIA

The above Final Site Development Plan shall adhere to the following specific design criteria:

59a. Structure Setbacks.

58

60

- (1) No building, excluding retaining walls and light standards shall be located within forty (40) feet of the right-of-way of North Highway 67.
- 62 (2) The setbacks shall be as approved by the Planning and Zoning Commission.
- 63 b. Parking, Loading and Internal Drives Setbacks.
- 64 (1) Parking, loading spaces, internal drives and roadways shall be located in accordance65 with the Site Development Plan attached.
- 66 (2) All of the setbacks depicted on the Preliminary Development Plan are approved but
  67 may be modified with the approval of the Planning and Zoning Commission.

ORDINANCE NO.

68	c. Minimum Parking/Loading Space Requirements.
69	(1) Parking regulations shall be as required by 405.225 of the Florissant Zoning Code,
70	except as otherwise varied herein. There shall be a minimum of 8 parking spaces.
71	Parking spaces shall comply with the Florissant parking requirements.
72	d. Road Improvements, Access and Sidewalks.
73	(1) The Director of Public Works, the Missouri Department of Transportation (MODOT)
74	and St. Louis County Department of Highways shall approve any new work in the North
75	Highway 67 right-of-way. The property owner shall comply with all requirements for
76	roadway improvements as specified by the Director of Public Works and MODOT in
77	approving new work.
78	e. Lighting Requirements.
79	Lighting of the property shall comply with the following standards and requirements:
80	(1) All site lighting shall be directed downward and inward to reduce glare onto the
81	adjacent properties and roads.
82	f. Sign Requirements.
83	(1) All signage shall comply with the City of Florissant sign ordinance.
84	g. Landscaping and Fencing.
85	(1) Landscaping shall be in accordance with the Site Development Plan attached, except
86	as amended herein.
87	(2) Any modifications to the landscaping plan shall be reviewed and approved by the
88	Planning and Zoning Commission.
89	h. Storm Water.
90	Storm Water designs and drainage facilities shall comply with the following standards and
91	requirements:
92	(1) Written approval of any required below ground storm water detention by the
93	Metropolitan St. Louis Sewer District shall be filed with the Department of Public
94	Works.
95	(2) The Director of Public Works shall have reviewed storm water plans to assure that
96	storm water flow will have no adverse affect the neighboring properties or roads.
97	i. Miscellaneous Design Criteria.

98 (1) All applicable parking, circulation, sidewalks, and all other site design features shall
99 comply with the Florissant City Code.

- 100 (2) The minimum yard requirements shall be as shown on the Site Development Plan101 attached.
- 102(3) All dumpsters shall be contained within a trash enclosure constructed of material to103match the building with gates that are solid metal, metal reinforced vinyl or metal picket104type with a maximum spacing of the pickets of 2 inches.
- (4) All storm water and drainage facilities shall be constructed, and all landscaping shall
  be installed, prior to occupancy of the building, unless remitted by the Director of Public
  Works due to weather related factors.
- 108(5) All mechanical equipment shall be roof mounted and screened from view by the109building parapet walls. All electrical equipment shall be properly screened with110landscaping as required by section 405.245 of the Florissant Municipal Code.
- (6) Unless and except to the extent otherwise specifically provided herein, the Final Site
  Development Plan shall comply and be in accordance with all other ordinances of the
  City of Florissant.

#### 114 7. AMENDMENTS TO THE SITE AND EXTERIOR BUILDING PLANS:

115 Any changes to the approved plans attached hereto must be reviewed by the Building 116 Commissioner. The Building Commissioner must make a determination as to the extent of the 117 changes per the following procedure:

- 1181.The property owner or designate representative shall submit in writing a request119for an amendment to the approved plans. The building commissioner shall review the120plans for consistency with the purpose and content of the proposal as originally or121previously advertised for public hearing and shall make an advisory determination.
- 1222. If the building commissioner determines that the requested amendment is not123consistent in purpose and content with the nature of the purpose as originally proposed or124previously advertised for the public hearing, then an amendment to the special use permit125shall be required and a review and recommendation by the planning and zoning126commission shall be required and a new public hearing shall be required before the City127Council.

BILL NO. 9782

ORDINANCE NO.

128	3. If the building commissioner determines that the proposed revisions are consistent
129	with the purpose and content with the nature of the public hearing then a determination of
130	non-necessity of a public hearing shall be made.
131	4. Determination of minor changes: If the building commissioner determines that an
132	amendment to the special use permit is not required and that the changes to the plans are
133	minor in nature the Building Commissioner may approve said changes.
134	5. Determination of major changes: If the Building Commissioner determines that an
135	amendment to the 'B-5' is not required but the changes are major in nature, then the
136	owner shall submit an application for review and approval by the Planning and Zoning
137	commission.
138	12. VERIFICATION PRIOR TO OCCUPANCY PERMIT
139	Submit Final Development Plan for approval prior to recording per City Code Section 405.135.
140	13. GENERAL DEVELOPMENT CONDITIONS.
141	a. Unless, and except to the extent, otherwise specifically provided herein,
142	development shall be effected only in accordance with all ordinances of the City of
143	Florissant.
144	b. The Department of Public Works shall enforce the conditions of this ordinance in
145	accordance with the Final Site Development Plan approved by the Planning & Zoning
146	Commission and all other ordinances of the City of Florissant.
147	14. PROJECT COMPLETION.
148	Any new Construction shall start within 120 days of the issuance of building permits, and the
149	development shall be completed in accordance of the final development plan within 180 days
150	from start of construction.
151	
152	Section 2: This ordinance shall become in full force and effect immediately upon its passage and
153	approval.
154 155	Adopted this day of, 2022.
156	
157	Joseph Eagan
158 159	President of the Council City of Florissant
160	Approved this day of, 2022.

1		MEMORAND	UM	
2 3		CITY OF FLOR	ISSAN	Г
4				-
5				
6	To:	Planning and Zoning Commissioners	Date:	April 27, 2022
7 8				
8 9	From:	Philip E. Lum, AIA-Building Commission	er cc:	Todd Hughes, P.E.
10				Director of Public Works
11				Applicant
12 13				Deputy City Clerk File
13 14				The
15	Subjec	ct: Request recommended approval of a 'B-5'	located a	at 540 Howdershell, in an existing
16	'B-5' F	Planned Commercial District (formerly, a County	y C-8 Pla	nned Commercial District) to
17 18		e the Use as a car sales office with no vehicles for <b>lba webuyanycar.com).</b>	or sale on	the lot (CarGroup Holdings,
18	LLC	iba webuyanycai.com).		
20		STAFF REF	ORT	
		CASE NUMBER I		
21 22		CASE NUMBER		
23	I. PR	OJECT DESCRIPTION:		
24	This is	s a request for <b>recommended approval</b> of a 'B	-5' locat	ed at 540 Howdershell, in an
25	existin	g 'B-5' Planned Commercial District (formerly, ct) to include the Use as a car sales office with no	a County	7 C-8 Planned Commercial
26 27		ngs, LLC dba webuyanycar.com).	) venicies	for sale on the lot (Car Group
28		e,		
29			+ +1+ a+ 1.	at is proposed is now a separate
30 31	A new	'B-5' Ordinance is recommended due to the fac from the adjacent Pharmacy that was approved to	under a C	County C-8 Planned Commercial
32	Distric	ot, with different Use. A separate B-5 will make	for separ	ate restrictions of the 2 adjacent
33	parcels		_	
34	A 441-	ad plane include existing documents:		
35 36	Attach	<ul> <li>ed plans include existing documents:</li> <li>County C-8 Site Development Plan</li> </ul>		
30 37		• County Parcel A & B as adjusted		
38		• Partial Site Plan- CarGroup Holdin		
39		• Previous Dental Office Plans A-2 a	nd A-3	
40				

- 41 **BUILDING:** The existing building is a 1-1/2 story house-like structure built in 1948 per
- 42 County records, 34x30, around 1020 s.f.. The exterior of the building is constructed of
- 43 brick. Proposed Use is for Office only.
- 44

#### 45 **PARKING AND DRIVEWAYS**:

- 46 There are 8 parking spaces shown on the development plan, including one accessible
- 47 space and loading zone. The parking ordinance requires 3 spaces per 1000 s.f. There is a
- 48 cross access easement, copy of which has been provided to staff that appears to be
- 49 reciprocal for both properties.
- 50

## 51 WALKWAYS:

- 52 There are walk ways from the parking to the building.
- 53

## 54 LANDSCAPING:

- 55 Existing landscape plan is shown on the Site Development Plan.
- 56

### 57 STORMWATER AND SEWER CONCEPT:

- 58 Concept grading and drainage plans are shown on the Site Development Plan.
- 59

#### 60 **SITE LIGHTING**:

- 61 There appears to be site lighting for the Walgreens parking only.
- 62

#### 63 SIGNAGE:

- 64 The proposal did not include a re-submission of the sign package.
- 65

#### 66 II. EXISTING SITE CONDITIONS:

- The property was previously occupied by dental office. The entire parking and structure are proposed to remain.
- 69 a

### 70 III. SURROUNDING PROPERTIES:

- The property to the west is 2051 Croftdale Ct, a Preschool and the adjoining Walgreens are both in a 'B-5' District. There are 4 houses in the 'R-4' District behind the subject property. It appears that the fence behind Walgreens extends to cover the rear property line.
- 74 1 75

# 76 IV. STAFF ANALYSIS:

- 77 Some basic explanation for this B-5 is that the petitioner has proposed an auto sales
- office with no retail sales on site. Staff understands that to mean no vehicles for sale will appear on the site.
- 80
- All signs must meet the City Sign Code, other than the post sign.
- 82
- 83
- 84
- 85
- 86

87 88	SUGGESTED MOTION 540 Howdershell
89 90	1. PERMITTED USES
91 92 93 94	The use permitted in this 'B-5' Planned Commercial District shall be limited to a those Uses permitted in the 'B-3' District without a Special Use Permit and a Used Car Sales Office with no vehicles for sale on the property.

224	the Florissant Municipal Code.
225	

•

226 (7) Unless and except to the extent otherwise specifically provided herein, 227 the Final Site Development Plan shall comply and be in accordance 228 with all other ordinances of the City of Florissant. 229 230 7. AMENDMENTS TO THE SITE AND EXTERIOR BUILDING PLANS: 231 Any changes to the approved plans attached hereto must be reviewed by the Building Commissioner. The Building Commissioner must make a determination 232 as to the extent of the changes per the following procedure: 233 234 235 1. The property owner or designate representative shall submit in writing a 236 request for an amendment to the approved plans. The building commissioner shall review the plans for consistency with the purpose and 237 238 content of the proposal as originally or previously advertised for public 239 hearing and shall make an advisory determination. 240 2. If the building commissioner determines that the requested amendment is not consistent in purpose and content with the nature of the purpose as 241 originally proposed or previously advertised for the public hearing, then 242 an amendment to the special use permit shall be required and a review 243 244 and recommendation by the planning and zoning commission shall be required and a new public hearing shall be required before the City 245 246 Council. 247 3. If the building commissioner determines that the proposed revisions are consistent with the purpose and content with the nature of the public 248 249 hearing then a determination of non-necessity of a public hearing shall be 250 made. 251 4. Determination of minor changes: If the building commissioner determines that an amendment to the special use permit is not required and that the 252 253 changes to the plans are minor in nature the Building Commissioner may 254 approve said changes. 5. Determination of major changes: If the Building Commissioner 255 256 determines that an amendment to the 'B-5' is not required but the changes are major in nature, then the owner shall submit an application for review 257 258 and approval by the Planning and Zoning commission. 259 260 12. VERIFICATION PRIOR TO OCCUPANCY PERMIT 261 Submit Final Development Plan for approval prior to recording per City Code 262 Section 405.135. 263 264 13. GENERAL DEVELOPMENT CONDITIONS. 265 a. Unless, and except to the extent, otherwise specifically provided herein, 266 development shall be effected only in accordance with all ordinances of 267 the City of Florissant. 268 269 b. The Department of Public Works shall enforce the conditions of this 270 ordinance in accordance with the Final Site Development Plan approved

271	by the Planning & Zoning Commission and all other ordinances of the
272	City of Florissant.
273	
274	
275	7. PROJECT COMPLETION.
276	
277	Any new Construction shall start within 120 days of the issuance of building
278	permits, and the development shall be completed in accordance of the final
279	development plan within 180 days from start of construction.

# **CITY OF FLORISSANT**

### **Public Hearing**

In accordance with 405.135 of the Florissant Zoning Code a Public Hearing will be held by the City Council of Florissant, MO. in the Council Chambers, 955 rue St. Francois, on Monday, May 23, 2022 at 7:00 p.m. on the following proposition:

To approve a 'B-5' Planned Commercial District located at 540 Howdershell Lot 'B' to allow for a car sales office (CarGroup Holdings, LLC). Citizens will have an opportunity to be heard. Anyone with special needs should contact the City Clerk at least 5 days before said public hearing by calling 839-7630 or email kgoodwin@florissantmo.com. CITY OF FLORISSANT, Karen Goodwin, MMC City Clerk 1 INTRODUCED BY COUNCILMAN SIAM

2 MAY 23, 2022 3

4 BILL NO. 9783

#### ORDINANCE NO.

#### ORDINANCE TO AMEND B-5 ORDINANCE NO. 6669 TO ADD "EQUIPMENT RENTAL, HOME AND GENERAL" AS A PERMITTED USE LOCATED AT 13939 NEW HALLS FERRY ROAD.

9

5 6

7

8

WHEREAS, ordinance no. 6669 was passed in 2002 approving the establish of a B-5
Planned Commercial District at Cross Keys Shopping Center; and

WHEREAS, ordinance no. 6669 is amended by ordinance nos. 6797, 6844, 7019, and
8527; and

WHEREAS Aaron's has applied for an amendment to the development plan authorized
by ordinance 6669 to allow for the addition of "Equipment Rental, Home and General" as a
permitted use; and

WHEREAS, the Planning and Zoning Commission of the City of Florissant has
recommended to the City Council at their meeting of May 2nd, 2022 that an amendment to B-5
ordinance no. 6669, as amended, be approved; and

WHEREAS, due and lawful notice of a public hearing no. 22-05-013 on said proposed change was duly published, held and concluded on 23<sup>rd</sup> of May, 2022 by the Council of the City of Florissant; and

WHEREAS, the Council, following said public hearing, and after due and careful deliberation, has concluded that that an amendment to B-5 ordinance no. 6669, as amended to allow for the addition of "Equipment Rental, Home and General" as a permitted use is in the best interest of the public health, safety and welfare of the City of Florissant; and

#### Section 01000 Special Conditions

- A. Aarons Inc. Contract for Construction, General Conditions to the Contract for Construction and Project Addendum Conditions apply and govern this project.
- B. Wherever the term "Contract" occurs in the documents, it shall refer to the provision in the Aaron's Inc. Contract for Construction Article 1.
- C. Wherever the term "Owner" or "Owner's Representative" it shall refer to the following:
- Aaron's Inc. 400 Galleria Parkway Suite 300 Atlanta, GA 30339
- D. Wherever the term "Contractor" occurs in the documents, it shall refer to the Contractor per the Contract.
- E. The Contractor shall coordinate his work and shall coordinate with any other separate contractors employed by the Owner, so as to avoid delays.
- F. Prior to a bid submission, the Contractor shall examine the premises and verify existing conditions and dimensions affecting the work under this contract. If discrepancies are discovered between dimensions or conditions shown in drawings and those actually existing, the Contractor shall report to the Owner's Representative and shall not proceed with the work until the Owner's Representative approves conditions and or changes.
- G. Prior to the start of work, the installer shall examine the work area and notify the Owner in writing of conditions which will adversely affect the execution, timely completion, and quality of his work. Do not proceed with the work until satisfactory conditions have been corrected. Start of installation will be construed as conclusive evidence that the existing conditions have been examined and are acceptable to the installed.
- H. If any of the provisions, plans, drawings or specifications are inconsistent with the Contract for Construction, The Contract for Construction shall govern and control.
- I. Before making any code-related deviations from the drawings and specifications, the Contractor shall give the Owner's Representative written notice specifying the proposed deviation, the costs involved, and the reason therefore. A change order shall be issued per the contract.
- J. Prior to signing the Contract, if required by the Owner, the Contractor shall obtain and pay for performance and payment bonds in the amount of 100 percent (100%) of the contract amount.
- K. Verify with Owner, designated locations for contractor's temporary field office, temporary sanitary facilities, refuse dumpster, and material/equipment tool storage.
- L. Verify with Owner, designated locations of Contractor's employee parking. Access route to the site, and access route to the work area within the building.
- M. Contractor shall establish and maintain all utilities accounts and meters (gas, permanent power, water & sewage) under his name until Owner shall confirm in writing that such accounts have been permanently transferred into Owner's name. Contractor to be solely responsible for all required tap fees and perform all work required to complete each utility connection.
- N. It shall be the responsibility of the Contractor to locate all existing utilities whether shown herein or not and to protect them from damage. The Contractor shall bear the expense of repair or replacement of utilities or other property damages by operations in conjunction with the execution of the work.
- O. Contractor shall employ a licensed surveyor to lay out and establish lot lines, roof outside line and principal building lines as indicated on drawings. Contractor shall maintain all grades, lines, levels and benchmarks established, and shall assume complete responsibility for the layout of the work. Contractor to provide Certified Footings and Building elevations to Owner as part of sore out package.

#### Section 01310 Project Management And Coordination

A. Prior to beginning work, Contractor shall provide a construction schedule bar chart with specified completion date. Contractor shall adhere to this schedule and completion date in accordance with Contract.

### Section 01330 Submittal Procedures

- A. Prior to ordering equipment or fabricating fixtures, Contractor shall submit to the Owner in triplicate, shop drawings, product data or samples, if required, which reflect dimensions, utility requirements and installation requirements consistent with the drawings., Contractor shall review Shop Drawings and shall solely ensure consistency to Owner's Specifications.
- B. The use of brand or trade names in describing materials or products is intended to set a minimum standard for those items. Owner must approve any substitutions in writing. Where "Or Equal" is used, Contractor must get owners approval in writing of the "Or Equal" manufacturers. If materials or products are specified by manufacture's name, trade name, or catalog reference without using the phrase "Or Equal", they shall be the basis of the proposal, without substitution, and shall be furnished under the contract unless changes by mutual agreement in writing. Where two or more brands are named, Contractor shall make a choice.
- C. For Construction details not shown, use the manufacturer's approved shop drawings / data sheets in accordance with the Project Specifications.

#### 01400 Quality Control

- A. Contractor shall be solely responsible for Quality Control of the work and shall maintain quality control over suppliers, manufacturers, products, services, site conditions and workmanship, to produce work of specified quality.
- B. The Owner shall hire testing lab for required testing required by the specifications. Additional testing and inspection required by laws, ordinances, rules, regulations, codes or orders of any public authority having jurisdiction or whether performed by Contractor for quality control shall be at Contractor's expense.
- C. Minimum testing shall include but not be limited to :
  - 1. Pavement subgrade Compaction
  - 2. Building Pad Compaction
  - 3. Concrete Cylinder Break Test
  - 4. Floor Flatness testing
  - 5. Slab Moisture Testing

6. Roof installation testing.	3. TAFS by Dryvit Systems Inc
01500 Temporary Construction Facilities	D. Basis of Design: Finestone
A. Contractor's Field Office Building: Provide a substantial, weather-tight office building on site. Have the office fully operable, with power and telephone service connected, from the start of construction until project is completed and closed out.	<ul><li>E. Materials:</li><li>1. Adhesive Base Coat: Finebuild Base Coat: 100% acrylic base coat, field-mix</li></ul>
B. Temporary Utilities: the Contractor will furnish Water and electricity for construction. Determine where these services will be available, make temporary connections as required, and remove upon completion of the work. Costs for temporary electrical service and power charges to be paid 100% by the Contractor until date of Substantial Completion.	<ol> <li>Portland cement: conform to ASTM C150, Type I, II, or I/II, grey or white; fres</li> <li>Water: Clean and potable without foreign matter.</li> <li>Finestone Reinforcing Mesh: MIL-Y-1140G; Balanced, open weave glass fibe</li> </ol>
<ol> <li>Except for telephone service, furnish electric service and utilities, and pay electric and utility costs for Owner's on-site job shack through the date of Substantial Completion.</li> <li>Owner shall pay 100% of utilities after the date of Substantial Completion.</li> </ol>	<ul> <li>with Finestone Surfacing System components.</li> <li>5. Standard Mesh 4: standard weight, 4.5 oz/sq yd</li> <li>6. Corner Mesh: Double layer of standard mesh for reinforcing at exterior/interior</li> </ul>
C. Temporary Heat: Furnish temporary heat, including fuel and power, as required to protect materials and work from dampness and cold and to dry out the building. Use methods that will not adversely effect installed materials.	<ol> <li>Primer: Sanded Primer</li> <li>Finestone Finish Coat: Pebbletex: 100% acrylic resin finish; air cured, compa</li> </ol>
D. Drinking Water: Furnish from a proven safe source for all those connected with the work.	<ul><li>additive. Finish color factory-mixed; color as selected on drawings; Finish tex</li><li>9. Insulation Board used for Foam Shapes: Expanded Polystyrene meeting the</li></ul>
E. Temporary Toilets: Provide chemical type toilets, adequate in number for all those connected with the work. Locate when work is started; keep in sanitary condition. Remove from site upon completion of work or sooner, if and when permanent toilets are made available.	F. Preparation:
F. Temporary Enclosures: Provide wood batten doors and transparent plastic covered windows for exterior wall openings of building until it is dry. Windows may be glazed in lieu of covering, if glass is protected.	<ol> <li>Examine surfaces to receive the Surfacing System and verify that substrate a releasing agents, paint, or other residue or coatings. Verify substrate surface</li> </ol>
G. On-Site Fire Protection: From the time the project starts until its completion and acceptance by the Owner, the Contractor shall maintain adequate fire extinguishers on the premises, readily available to his workmen, for the protection of the building and its contents.	<ol> <li>Unit Masonry Wall System shall be installed with struck joints and installed in Assembly Section. Masonry shall be cured a minimum of 7 to 10 days. Cont</li> <li>Coordinate location of masonry control joints, through wall flashing and weep</li> </ol>
H. Temporary Barricades and Fences: Contractor shall provide fences and all safeguards necessary for the convenience and protection of the public, as required by code and law enforcement regulations. Keep abutting streets and other thoroughfares open to traffic, using only portions of streets allowed by permit. Contractor will be responsible for damage or injury occurring to either persons or property through carelessness or neglect by himself, his employees, or subcontractors.	<ul> <li>G. Application:</li> <li>1. General: Apply Finestone Surfacing System materials to Unit Masonry Wall S</li> </ul>
Section 01600 Material and Equipment	<ol> <li>Finestone Base Coat/Reinforcing Mesh: Base Coat / Leveling Coat shall be a Reinforcing Mesh color visible at a minimum thickness of 1/16" to maximum t</li> </ol>
A. Materials delivered to and stored at the job site shall be handled and stored so that no components shall be damaged in any way. The Owner reserves the right to reject	a. Immediately place Reinforcing Mesh against wet Base Coat and embed the Reinforcing Mesh b. Ensure Reinforcing Mesh is continuous at corners, void of wrinkles and embedded in Base Co
any material that has been damaged because of improper delivery, storage or handling.           Section 01770 Closeout Procedures	<ul> <li>c. Allow the base coat mixture to cure a minimum of 4 days between coats until completely dr pattern in the finished work</li> </ul>
A. At completion of work, resilient floors shall be waxed and buffed. All carpet is to be vacuum cleaned. Contractor shall assemble and transmit to the Owner all maintenance and operation manuals, warranties, and keys, and shall demonstrate to the Owner the usage of equipment.	<ul> <li>d. Apply secondary coat as required to provide level 1/8" thick minimum system base coat.</li> <li>3. Mechanically fasten Cement Board Accent bands and bond supplemental EF reinforced base coat using Base Coat / Adhesive. Allow 24 hours to dry.</li> </ul>
B. Periodic observation of construction may be made by a licensed Architect or Civil Engineer. Certificate of Completion containing the signature(s) of the responsible design professional(s) shall be presented to the inspector at time of final inspection for Occupancy if required and shall be the sole responsibility of the Contractor.	<ul> <li>4. Primer:</li> <li>a. Apply primer to the Reinforced Base Coat by brush, roller or spray.</li> </ul>
C. At Project Closeout, the Contractor shall provide to the Owner all "as-built" plans, all guarantees, warranties and operating manuals, names of all Subcontractors, Sub-Subcontractors and material suppliers and roof warranties as further defined in the Aaron's Inc. General Conditions.	<ul> <li>b. Allow primer to dry thoroughly (approximately 6-8 hours) prior to application of Finish Coat.</li> <li>5. Finish Coat:</li> </ul>
Section 06000 Carpentry	<ul> <li>a. Apply and level Finish Coat during same operation to minimum obtainable thickness consister</li> <li>b. Maintain a wet edge on Finish Coat by applying and texturing continually over the wall surface</li> <li>c. Work Finish Coat to corners, joints, or natural breaks and do not allow material to set up withing</li> </ul>
A. Structural lumber, blocking, and nailers shall be new, dry, sound southern pine #2 or better with a maximum, moisture content of 19 %, minimum FB=1400 PSI for repetitive use.	<ul><li>d. Float Finish Coat to achieve final texture.</li><li>e. Sealer: Install manufacturer's UV stabilized, mildewcide and algicide Matte Clear Sealer to all</li></ul>
<ul> <li>B. Oriented Strand Board shall comply with DOC PS 2</li> <li>C. Where fire-retardant-treated materials are indicated, provide materials that comply with performance requirements in AWPA C20 (lumber) and AWPA C27 (plywood).</li> </ul>	<ol> <li>Joints:</li> <li>a. Extend base coat 1/2" into horizontal and vertical termination joints. Finish Coat shall be i against the base cost per Joint Scelent section.</li> </ol>
D. Plywood Backing Panels: For mounting electrical or telephone equipment, provide fire-retardant-treated plywood panels with grade, C-D Plugged Exposure 1, in thickness indicated or, if not otherwise indicated, not less than 3/4" thick. Panels shall be mounted on 3/4" furring	against the base coat per Joint Sealant section. Section 07500-Membrane Roofing System
E. Miscellaneous lumber shall be construction grade light framing size lumber for support or attachment of their work including bucks, nailers, blocking, grounds stripping, and similar member. Individual plywood sheets shall not be less than 2'-0" in the least dimension nor less than 8 square feet in area. Use full sheets wherever possible. All structural plywood shall be DFPA grade stamped with exterior glue and specified by the American Plywood Association.	A. Roofing System Design: Provide a membrane roofing system that is identical to systems that have Mutual Standard 1-28 to resist uplift pressure calculated shown on Structural Drawing <b>S0.0</b> "Ge Cladding (Wind Pressure Schedule). If design information is not shown on Structural drawings, roof
F. Bolt heads and nuts bearing on wood shall have metal washers. Bolt holes in wood shall be drilled 1/32" to 1/16" in diameter larger the nominal bolt diameter.	B. Provide all roofing accessories from same manufacturer to maintain a certified, warranted roofing sy
G. Carpentry work shall conform to the best standards of practice. Work shall be laid out in accordance with the drawings, and to accommodate work of other trades. Doors and hardware shall be installed so that doors will swing easily, quietly and freely, and close accurately against stops without binding. Latch bolts must engage positively with strikes when doors are closed.	C. Submittal: 1. Shop Drawings: For roofing system. Include plans, elevations, sections, det

Section 07245- Direct to Masonry Acrylic Finish System	report to Architect. 3. Notify Owner 48 hours in advance of date and time of inspection.

A. Description: System consists of Base Coat, Reinforcing Mesh and Finish Coat without EPS.

#### B. Warranty

1. Provide Manufacture's five (5) year finish materials coatings warranty for Surfacing System installations.

#### C. Manufactures

- 1. Finestone Surfacing System for Unit Masonry Wall System by Finestone
- 2. ACF: by Parex

Base Coat: Finebuild Base Coat: 100% acrylic base coat, field-mixed with Portland cement; manufactured by Finestone. ement: conform to ASTM C150, Type I, II, or I/II, grey or white; fresh and free of lumps. an and potable without foreign matter.

Reinforcing Mesh: MIL-Y-1140G; Balanced, open weave glass fiber reinforcing mesh; twisted multi-end strands treated for compatibility tone Surfacing System components.

Mesh 4: standard weight, 4.5 oz/sq yd sh: Double layer of standard mesh for reinforcing at exterior/interior corners.

nded Primer Finish Coat: Pebbletex: 100% acrylic resin finish; air cured, compatible with Base Coat; with supplemental biocide and mildewcide

inish color factory-mixed; color as selected on drawings; Finish texture CLS 1.5. Board used for Foam Shapes: Expanded Polystyrene meeting the Acrylic Finish System Manufacturer's Specification for Insulation

urfaces to receive the Surfacing System and verify that substrate and adjacent materials are dry, clean, cured, sound and free of agents, paint, or other residue or coatings. Verify substrate surface is flat, free of fins or planar irregularities. nry Wall System shall be installed with struck joints and installed in horizontal line and plumb within 1/4" per 20 feet per Unit Masonry Section. Masonry shall be cured a minimum of 7 to 10 days. Contact Owner and Architect if substrate exceeds installation tolerances. e location of masonry control joints, through wall flashing and weeps penetrating Finish System with Architectural Drawings.

pply Finestone Surfacing System materials to Unit Masonry Wall System in accordance with current Finestone product bulletins. Base Coat/Reinforcing Mesh: Base Coat / Leveling Coat shall be applied so as to achieve Reinforcing Mesh embedment with no g Mesh color visible at a minimum thickness of 1/16" to maximum thickness of 1/4".

ing Mesh against wet Base Coat and embed the Reinforcing Mesh into the Base Coat by troweling from the center to the edges. s continuous at corners, void of wrinkles and embedded in Base Coat so that no mesh color is visible.

e to cure a minimum of 4 days between coats until completely dry. Use this procedure to minimize the appearance of the mortar joint

quired to provide level 1/8" thick minimum system base coat. ally fasten Cement Board Accent bands and bond supplemental EPS shapes as indicated on the drawings. Bond shapes to dry base coat using Base Coat / Adhesive. Allow 24 hours to dry.

t during same operation to minimum obtainable thickness consistent with uniform coverage.

ish Coat by applying and texturing continually over the wall surface.

s, joints, or natural breaks and do not allow material to set up within an uninterrupted wall area.

r's UV stabilized, mildewcide and algicide Matte Clear Sealer to all surfaces.

horizontal and vertical termination joints. Finish Coat shall be installed flush with joint surface and backer rod and sealant installed oint Sealant section.

a membrane roofing system that is identical to systems that have been successfully tested by Factory Mutual to conform with Factory iplift pressure calculated shown on Structural Drawing **S0.0** "General Notes" for Wind Speed, Wind Exposure and Component and le). If design information is not shown on Structural drawings, roof design loading shall comply with ASCE 7.

m same manufacturer to maintain a certified, warranted roofing system.

vings: For roofing system. Include plans, elevations, sections, details, and attachments to other Work. ane terminations.

ertificates: Signed by roofing system manufacturer certifying that Installer is approved, authorized, or licensed by manufacturer to install

rer Certificates: Signed by roofing manufacturer certifying that roofing system complies with requirements specified in "Roofing System

Special warranties specified in this Section. Report: Copy of roofing system manufacturer's inspection report of completed roofing installation.

) year manufacturer's warranty. The warranty shall cover the membrane, insulation, flashing, adhesives, fasteners, sealants and any ous items required for a complete roof installation as well as labor cost to remove and replace defective materials. actor shall issue a warranty for a period of two years from the date of the Substantial Completion. Under this warranty, the Contractor dy any defects resulting from faulty materials or workmanship in the roofing system. Repairs shall be made by the Contractor at this nd expense and shall include the roofing membrane and all metal flashings, wall flashings, curb, pipe and accessory flashings provided r the supervision of the contractor as may be necessary to maintain the roof in a watertight condition.

y TPO 45 mil, White, Fully Adhered Membrane Roofing System. Install as per manufacturer's published specifications.

signer: Verify with Aaron's Project Manager, Roofing Material and Color.

ASTM C 1289, Type II, felt or glass-fiber mat facer on both major surfaces.

Minimum "in-service" average of R-20 with minimum thickness of 1" R-value used to calculate total thermal resistance shall be 5.6 per m) of thickness to arrive at a total "in-service" value. Provide insulation by one manufacturer as required to maintain specified warranty. shall be compatible with deck. Provide slip sheets and accessories as required to make insulation compatible with conditions and

cyanurate insulation shall be produced using non-ozone-depleting hydrocarbon blowing agents.

jency: Owner will engage a qualified independent testing and inspecting agency to perform roof tests and inspections and to prepare

Inspection: Arrange for roofing system manufacturer's technical personnel to inspect roofing installation on completion and submit

3. Notify Owner 48 hours in advance of date and time of inspection.

4. Repair or remove and replace components of membrane roofing system where test results or inspections indicate that they do not comply with

specified requirements.

requirements.

5. Additional testing and inspecting, at Contractor's expense, will be performed to determine compliance of replaced or additional work with specified

**PROJECT NUMBER:** 2021.0567.00

SHEET TITLE

## SPECIFICATIONS

#### 07600 Flashing And Sheet Metal

- A. Flashing Materials
- 1. Galvanized Sheet Steel
- a. Hot dipped zinc coated sheet steel; 1 1/2 oz. per sq. ft. coating treated to hold paint. b. A.S.T.M. A-93.
- c. Armco "Zinc Grip", Republic "U-Lay" or approved equal.
- d. Minimum 24-gauge thickness.
- 07710 Roof Accessories
- A. Curb Mounted Roof Hatch:
  - 1. Manufacturer: Bilco or approved equal
- a. Model S-50, primed finish.
- b. Size: Provide 36 inch x 30 inch with hasp, eye, and padlock.
- c. Install on fixed ladder below hatch cover Model 1 LadderUP safety post as manufactured by The Bilco Company, New Haven Connecticut or equal. Device shall be manufactured of high strength steel with telescoping tubular section that locks automatically when fully extended. Upward and downward movement shall be controlled by a stainless steel spring balancing mechanism. Finish shall be black enamel. Unit shall be completely assembled with fasteners for securing to the ladder rungs in accordance with the manufacturer's instructions.
- 07920 Masonry Joint Sealants
- A. Provide electrometric joint sealants that establish and maintain watertight and airtight continuous joint seals without staining or deteriorating joint substrates
- B. Electrometric Sealants: Comply with ASTM C 920 and other requirements indicated for each liquid-applied chemically curing sealant specified, including those referencing ASTM C 920 classifications for type, grade, class, and uses related to exposure and joint substrates.
- C. Stain-Test-Response Characteristics: Where electrometric sealants are specified to be nonstaining to porous substrates, provide products that have undergone testing according to ASTM C 1248 and have not stained porous joint substrates indicated for Project.
- D. Single-Component Neutral-Curing Silicone Sealant (low modulus):
  - 1. Uses:
- a. Masonry to steel door frames. b. Masonry to aluminum storefront and curtain wall.
- c. Concrete/masonry to concrete/masonry.
- d. Direct to Masonry Acrylic Coatings
  - 2. Type and Grade: S (single component) and NS (nonsag).
- 3. Products:
- a. Tremco; Spectrem 3.
- b. GE Silicones; SilPruf SCS2000.
- c. Pecora Corporation; 864.
- d. Pecora Corporation; 890.
- e. Polymeric Systems Inc.; PSI-641.
- f. Sonneborn, Division of ChemRex Inc.; Omniseal.

### 07925 Joint Sealants

- A. Latex Sealant:
  - Uses: General purpose interior and exterior caulking and as a back bedding glazing compound. Acoustical seal in the construction of interior walls, ceilings and floors to reduce Sound Transmission Class (STC) of partition walls. Interior joints that will be painted such as door and window frame perimeters and precast concrete plank joints.
  - 2. Type and grade: ASTM C 834, Type P, Grade NF
  - 3. Silicone-Emulsion Sealant: "Trade Mate Paintable Glazing Sealant," Dow Corning Corp.
  - 4. Products:
- a. Tremco; Tremflex 834.
- b. Pecora Corporation; AC-20+.
- c. Sonneborn, Division of ChemRex Inc.; Sonolac.

#### B. Sanitary Sealant

- Uses: Weathertight seal to glass, metal, porcelain, ceramic and most painted surfaces. White and Clear colors can contain a fungicide making the sealant suitable for use in bathrooms, spas and similar applications where joints need protection against fungi and bacteria.
- 2. Type and Grade: S (single component) and NS (nonsag).
- 3. Single-Component Mildew-Resistant (Sanitary) Acid-Curing Silicone Sealant
- 4. Products:
- a. Tremco; Tremsil 200 (White or Clear).
- b. Dow Corning Corporation; 786 Mildew Resistant.
- c. GE Silicones; Sanitary SCS1700.
- d. Pecora, 898 Silicone-Sanitary Sealant.
- Section 08200-Doors
- A. Hollow metal door and frame materials and insulation shall conform to the standards of the steel door institute (SDI). Doors shall be Amweld, Ceco, Steelcraft, or approved equal doors.
  - 1. Exterior Doors shall be flush metal 16 gauge.
  - 2. Interior Doors shall be flush metal 20 gauge unless noted otherwise.
- B. Core Construction:
  - 1. Interior Doors: Manufacturer's standard kraft-paper honeycomb that produces doors complying with ANSI A250.8.
  - 2. Exterior Doors: Manufacturer's polystyrene that produces doors complying with ANSI A250.8.
- C. Frames for all doors shall be 16 gauge and shall include reinforcement, wall anchors, security reinforcing, base anchors and silencers in frames.
- D. Exterior doors shall have no pre-drilled lockset and or door level holes (Blank cover plates covering holes are not acceptable).
- E. Interior wood doors in welded metal frames shall be solid core stain grade birch machined to fit metal frames. All interior wood doors will be finished with 2 coats of clear satin polyurethane.

#### 08305 Access Doors

- A. Manufacturer: Karp
- B. Configuration:
  - 1. Frames: 16 gage (.0598 inch) sheet steel with flange suitable for adjacent material.
  - 2. Doors: 14 gage (.0625 inch) sheet steel.
  - 3. Door Type: Flush panel.
  - 4. Locking Devices: Key operated Cylinder Locking Device
  - 5. Finish: Primed

#### Section 08360-Overhead Doors

A. Overhead Door Design:

- 1. Overhead door shall be designed to resist wind pressure shown on Structural Drawing S0.0 "General Notes" for Wind Speed, Wind Exposure and Component and Cladding (Wind Pressure Schedule). If design information is not shown on Structural drawings, design loading shall comply with ASCE 7.
- 2. Manufacturer: Overhead Door Corporation
- 3. Model: Series 620, F-265 Flat Slat, 18 gauge. Provide standard steel angle track installation with chain hoist, locking hasp and bottom rail slide bolts on each side.
- 4. Color: Manufacturer standard Grey.

#### B. Security Entrance Rolling Door:

1. Affiliated Construction Specialists, Inc. Surface Mounted to aluminum storefront framing. Rollup security door shall match door width and height including transom above. Top of hood to align with top of transom. Provide pull down strap to elevation 7'-0".

#### Section 08400-Aluminum Storefront System

A. Storefront System Design: Storefront and Glazing system shall be designed to resist wind pressure shown on Structural Drawing S0.0 "General Notes" for Wind Speed, Wind Exposure and Component and Cladding (Wind Pressure Schedule). If design information is not shown on Structural drawings, design loading shall comply with ASCE 7.

1. Note to Designer: Verify if Hurricane Requirements apply to specific project site. This may include projects within 10 miles of the coast line along the Gulf of Mexico and south Atlantic states and will require storefront and glazing systems meeting higher design requirements per the building code.

#### B. Submit color sample to Architect and Owner for approval.

- C. Kawneer Tri-FAB 451 Center Set Outside Glazed Non-thermal System to be installed as per manufacturer's requirements and as specified herein (Oldcastle Glass Vista Wall FG -3000 or YKK Yes 45 Fl are acceptable equals).
  - 1. Finish to be Clear Anodized.
  - 2. Window glazing to be 1" clear insulated tempered glass. Door glazing to be 1/4" clear tempered glass.
- D. Doors to be medium-style standard doors. Finish of doors to match storefront finish. Hardware for aluminum doors and doorframes shall be by the entrance manufacturer. See Door Hardware schedule for required hardware.
- E. Doors shall include reinforcement brackets with bolts and screws, and shall be MIG welded. Doors shall have snap-in-stops with bulb glazing gasket both sides of glass. No exposed screws shall be permitted. Each door leaf shall be equipped with an adjusting mechanism, located in the top rail near the lock stile, which provides minor clearance adjustments after installation. Right door to have mail slot @ 60" a.f.f. to center.
- F. A hard-backed poly pile weather strip shall be installed in both stiles of center-hung pair of doors. Offset pivoted doors shall have weather-stripped at frame jambs and header. The active meeting site of all pair of doors shall have an adjustable astragal with double line of weather-strip. Door bottom rail shall receive a concealed weather-strip insert.
- G. Mail Slot: CRL 2-5/8" x 12-1/8" Satin Anodized Standard Mail Slot
- H. Security Grill: Affiliated Construction Specialties Inc. Architectural Security Grid Systems, Color White. General Contractor to provide field measurements to supplier.
- I. All exposed framing surfaces shall be free of scratches and other serious blemishes. Aluminum extrusions shall be prefinished mill finish.
- J. All glazing and storefront work shall be set level, square, plumb and proper elevation in alignment with other work in accordance with the manufacture's installation instructions and approved shop drawings. All joints between entrance framing and the building structure shall be sealed in order to secure a watertight installation. Upon completion of the installation of the entrances, it shall be the Contractor's responsibility to make all necessary final adjustments to obtain normal operation of each door and it's mechanical hardware.
- K. The glazing contractor shall furnish all necessary materials, labor and equipment for the complete installation of aluminum entrance doors, doorframes and hardware and glazing system as detailed on the drawings and specified herein. It is the sole responsibility of Contractor to ensure that all required storefront specifications are met.
- L. After installation, the Contractor shall adequately protect exposed portions of the aluminum entrance work from damage by grinding and polishing compounds, plaster lime, ASID, cement or other containments. The Contractor shall be responsible for final cleaning.

#### Section 08710-Finish Hardware

- A. Contractor to provide the required hardware for fire-rated openings in compliance with current code requirements of NFPA 80. Exit hardware for fire-rated openings shall bear UL markings. Contractor to warrant all architectural hardware for a period of one year after date of substantial completion. Warrant door closer for five years.
- B. Contractor to operate lock set's by construction core system until date of substantial completion. Provide the following number of keys: change keys two per lock, master keys - six each, construction master keys - three each.

C. All hardware to be satin brass - US4, 606, unless noted otherwise. Note: storefront hardware to be provided by storefront manufacturer as scheduled.

- D. All lock sets, latch sets, cylinders and specialty locks shall be Best removable cores with lever type hardware, or prior approved equal. Other hardware as follows;
  - 1. Hinges Hager Hinge Company.
  - 2. Cylindrical locks and locksets 'Best' removable cores, 2 3/8" backset, wrought trim, 6 and 7-pin tumbler.
  - Door closer LCN w/ hold open feature where noted
  - 4. Stops, Viewer Rockwood, H.B. Ives, Quality Hardware Manufacturing Company, Builders Brass Works, Baldwin Hardware Manufacturing Co.
  - 5. Push/pulls and plates Rockwood, H.B. Ives, Quality Hardware Manufacturing Company, Builders Brass Works.
  - 6. Thresholds/weather-stripping National Guard Products.
  - 7. Emergency exit devices to be Von Duprin.
  - 8. Three foot exit device
  - 9. Double door kit = Part No. A106-001

with ASTM E 774 for Class CBA units.

- E. Install finish hardware plumb, level and true to line in accordance with approved shop drawings for doors and manufacturer's printed instructions. Location of hardware, where applicable, shall be in accordance with "recommended locations for builders' hardware for standard steel doors and frames". Install finish hardware to template. Cut and fit substrate to exact tolerances required for hardware installation without damaging or weakening door construction. Cover cutout with hardware item.
- F. Mortise work to correct location and size, without gouging, splintering, or causing irregularities in exposed finish work. Where cutting and fitting is required on substrates to be painted, install, fit and adjust hardware prior to finishing, then remove and replace in original packaging. Reinstall hardware after finishing operation is completed. Drill and countersink units that are not factory prepared for anchorage fasteners. Space fasteners and anchors in accordance with industry standards.
- G. Set thresholds for exterior doors in full bed of Butyl-rubber or Polyisobutylene mastic sealant. Weather-stripping and seals to comply with manufacturer's instructions and recommendations to the extent installation requirements are not otherwise indicated. At time of hardware installation, adjust each hardware item to perform function intended. Lubricate moving parts using lubricant acceptable to hardware manufacturer.
- H. Prior to date of substantial completion, readjust and re-lubricate hardware. Replace defective materials. As recommended by manufacturer, clean hardware to remove dust and stains. Instruct Owner's designated personnel in adjustment and maintenance of hardware and finishes at time of final hardware adjustment.

#### 08800 Glazing

A. Glazing locations:

0			
	1.	Exterior entrances and storefront.	
	2.	Doors.	
B. Glass Produ	ucts		
	1.	Tempered Glass: All tempered glass shall comply with the standards of ASTM C1048, Kind FT;	
a. Cond	dition A (u	ncoated) and Condition B (coated);	4
b. Type	I (transpa	arent, flat);	D. Floor Materials:
c. Class	s 1 (Clear	, Class 2 (Thermal/Tinted) and Class 3 (Tinted),	
d. Quali	ity q3.		
	2.	Insulating-Glass Units, General: Factory-assembled units consisting of sealed lites of glass separated by a dehydrated interspace, and complying	E. Underlayments:

- b. Provide Kind FT (fully tempered) glass lites where safety glass is indicated.
- perpendicularly from outer surfaces of glass lites at unit's edge.
- d. Sealing system: Dual seal, with primary and secondary sealants as follows:
  - e. Manufacturer's standard sealants.
  - g. Uncoated Insulating Glass:
  - - 2) Interspace Content: Air.

    - 5) Visible Light Transmittance: 80%.
    - 6) Winter Nighttime U-Value: 0.48. 7) Summer Daytime U-Value: 0.55
    - 8) Solar Heat Gain Coefficient: 0.83..

#### Section 09120 - Lay-In Ceiling System

- B. Ceiling Tile: 2 x 4 Armstrong Cortega #769 Square Lay-in. Colors: white & black.
- wires shall be 48" O.C.
- acceptance of the project.

#### Section 09250 - Gypsum Drywall

partitions.

- F. Security Mesh (Expanded Metal)

  - a. Metal: Carbon Steel
  - b. Style: 3/4" #13F (flattened)
  - c. Weight: 75 lbs. per 100 sq.ft
- d Thickness: 070 inches
- e. Sheet size: use largest sheet size practical for intended use

### Section 09545 - Concrete Slab Testing

Department.

35% and 65%

sunlight.

Section 09550 - Wood Flooring

A. Subfloor Moisture Testing

B. Subflooring PH Testing

B. Delivery, Storage and Handling

A. Preparation

C. Preparation

a. Provide Kind HS (heat-strengthened) float glass in place of annealed glass where needed to resist thermal stresses induced by differential shading of individual glass lites and to comply with glass design requirements specified in Part 1 "Performance Requirements" Article.

c. Overall Unit thickness and Thickness of Each Lite: Dimensions indicated for insulating-glass units are nominal and the overall thickness of units are measured

f. Spacer Specifications: manufacturer's standard spacer material and construction.

1) Overall Unit Thickness and Thickness of Each Lite: 25 and 6 mm.

3) Indoor Lite: Float glass, Class 1 (clear) float glass, Kind FT (fully tempered); Condition A (uncoated surfaces). 4) Outdoor Lite: Float glass, Class 1 (clear), Kind FT (fully tempered); Condition A (uncoated surfaces).

A. Suspension system: Armstrong 15/16" prelude suspension system Attachment devices and hangers shall meet ASTM C 635. Grid system color shall match ceiling tile.

C. Installation of ceiling shall be the pattern indicated on the reflective ceiling plan and shall coordinate with the mechanical, electrical and sprinkler system requirements. All items to be supported shall be hung with wires of the same size and spacing to support the ceiling system and all other work supported there from. Maximum spacing of

D. System shall be square and level with deflection not to exceed 1/8" in 10 feet. Grid and all tiles shall be thoroughly clean and free of marks, cuts, indentations, spots, foreign paint of other blemishes and imperfections or shall be replaced. Contractor shall provide five (5) full tiles of replacement material at the completion of the project.

E. Provide ceiling system guarantee in writing against defects in labor, materials and maximum deflection of 1/180th of the span for a period of one year from date of Owner

A. Interior wall framing shall be metal studs as shown. In-wall blocking shall be provided at all wall-hung items. Gypsum wallboard shall be ASTM C1396 "sheetrock" as manufactured by the U.S. Gypsum Co., or equal. Thickness and type of gypsum wallboard as noted, with tapered edges. Use type W/R board conforming to ASTM C1396 in restrooms and where noted. Use type x board where one-hour fire rating is required.

B. Joint reinforcing tape, adhesive and metal corner reinforcement standard products recommended by the wallboard manufacturer. Fasteners shall be self-drilling, self-taping countersunk bugle head drywall screws for attachment of wallboard to metal studs. Use gypsum wallboard nails for attachment to wood studs. Structural studs shall be punched or un-punched 16-gauge steel having minimum yield point of 33,000 PSI, sizes as indicated.

C. Non-load bearing studs shall be channel-type roll-formed from 20 gauge electro-galvanized steel, sizes as indicated. Furring channels shall be roll-formed, 25 gauge minimum electro-galvanized steel hat section with wing flanges. Installation of "sheetrock" shall be in accordance with manufacturer's recommendations for fire-rated

D. Gypsum wallboard shall be attached to metal studs with approved metal screws. All joints shall be taped and finished smooth with spackling compound. Gypsur wallboard shall be attached to masonry with metal furring channels and screws with all joints taped and finished. Joints shall be taped and finished smooth. Office, Restroom and Breakroom walls shall be finished to meet ASTM C 840 Level 5. All other areas shall have level 4 finish.

E. Trim Accessories: Interior Trim: ASTM C 1047 made from Galvanized or aluminum-coated steel sheet or rolled zinc. 1. Shapes: Cornerbead and Expansion (control) joint.

> 1. Install directly to stud framing behind gypsum drywall walls and/or ceilings where specified on drawings 2. Flattened Expanded Metal:

3. Fasten directly to stud framing using No. 8 self-tapping screws with 1/4" minimum penetration at 12" o.c. at perimeter and field.

1. Test floor for excessive moisture before installing over concrete. Perform an Anhydrous Calcium Chloride Moisture Emissions test for a 72 hour period in accordance with ASTM F1869. The maximum allowable reading is 5 lbs./1000 square feet/24 hours. 2. Submit Testing Results to Owner

Test floor for excessive pH before installing floor coverings over concrete. A reading below 5.0 or above 9.0 requires corrective measures. Specific information on the correct method of neutralizing extremely low or high pH is available from the Shaw Field Technical Services

2. Submit Testing Results to Owner.

1. Glueless Laminate will be installed directly over existing concrete flooring

1. Cartons of flooring must lay flat and unopened in the room in which they are to be installed for a minimum of 48 hours before installation 2. During the acclimation and installation period, temperature must be maintained between 65 deg. F and 85 deg F and relative humidity be between

3. Cartons should be stacked no more than 3 high with 4" of airflow around them, should be stored away from any heating/cooling ducts or direct

1. Fill any low spots in the subfloor greater than 1/8" in 6 feet with a Portland cement leveling compound. Check this by using a 6' straight edge. Remove any high spots by sanding or grinding.

2. If there is an existing wood flooring adhered over concrete, it must be removed before installing Shaw Laminated Flooring. 3. Remove any existing floor molding. Door frames to be undercut for wood floor installation. Saw the bottom of the doorjamb case molding back to the wall studs so that 1/4" expansion gap is maintained when laminate is fitted under doorjamb case molding. 4. Sweep the subfloor clean.

1. See Finish Schedule for Flooring Mode Numbers.

1. On Concrete floors Use SilentStep Ultra 3 in 1 underlayments. SilentStep Ultra 3 in 1 should be rolled out with the seams pulled together. It

## **PROJECT NAME & ADDRESS** AARON'S C1526 HAZELWOOD, MO RELOCATION

**13929 NEW HALLS FERRY ROAD** FLORISSANT, MO, 63033

**PROJECT NUMBER:** 2021.0567.00

SHEET TITLE

## SPECIFICATIONS

- should go up the wall at least 2" when used over concrete. Tape underlayment seams using a 2" clear packaging sealing tape.
- 2. Unroll one width of underlayment along the longest wall. Always work from left to right. Planks should run lengthwise against the longest wall, and if possible parallel to incoming sunlight.
- 3. Rooms larger than 26 x 40 feet require T-molding for expansion. Floor spans should not exceed 40' in any direction.

### F. Installation

1. Shaw laminates VersaLock AG installation guide entitled "Glueless Laminate Installation Instructions - Wood Designs" are to be strictly adhered to for the wood floor installation.

### Section 09650 - Resilient Flooring

- A. Testing Concrete Substrates: Prepare according to ASTM F 710.
  - 1. Verify that substrates are dry and free of curing compounds, sealers, and hardeners.
  - 2. Alkalinity and Adhesion Testing: Perform tests recommended by manufacturer. Proceed with installation only after substrates pass testing. Test the slab for moisture and alkalinity prior to beginning the installation in accordance with Section 09545 Concrete Slab Testing. Check the 3. concrete for moisture and surface pH at several locations. Reading outside of values listed in Section 09545 requires corrective measures. Do not begin the installation if test values exceed maximum allowable reading. Do not use other methods of moisture testing, as they are not reliable. If moisture is excessive advise the Contractor or Owner for a decision on whether to begin. Shaw is not responsible for any moisture related installation failures if these guidelines are not strictly followed.
  - 4. Vapor Reduction System: Slabs failing moisture testing shall be coated with Vexcon Chemicals Inc. MoistureBloc. Floors shall be stripped, cleaned, repaired and restored per Manufacturer's recommendations. Provide the following MoistureBloc products based on calcium chloride test results
- a. Low Level, 8 9 lbs. MoistureBloc Universal
- b. Medium Level 12 15 lbs. MoistureBloc Emulsion 3
- c. High Level Up to 27 lbs. MoistureBloc MX WB
- B. Vinyl composition tile to be installed as indicated on drawings. Tile to be Armstrong or equal. Color as specified on drawings. Rubber base to be installed as indicated on drawings. Base to be 4" rubber coved based as specified in drawings.

### Section 09680 Carpet

### D. Installation Guidelines

1. The following instructions shall be reviewed prior to installation. The Shaw installation video must be watched by all installers before any carpet is installed. The written acknowledgement of watching the video must be signed and sent to the Owner's Rep. before the carpet installation has begun.

#### E. Site Testing And Conditioning

Maintain the temperature of the installation site, carpet, adhesive and seam sealer between 65° F and 95° F for 24 hours before installation. Do not begin the installation if the room or subfloor temperature is below 65° F. The adhesive and seam sealer will not function properly when applied over an extremely cold surface. Relative humidity should not exceed 65%. These conditions must be maintained for 24 hours prior to, during and 24 hours after installation. Test the slab for moisture and alkalinity prior to beginning the installation in accordance with Section 09545 Concrete Slab Testing. Reading outside of values listed in Section 09545 requires corrective measures. Do not begin the installation if test values exceed maximum allowable reading. Do not use other methods of moisture testing, as they are not reliable. If moisture is excessive advise the Contractor or Owner for a decision on whether to begin. Shaw is not responsible for any moisture related installation failures if these guidelines are not strictly followed.

#### C. Floor Preparation

- The floor must be free of dust, dirt, oil, grease, paint, wax, moisture or any debris that could affect adhesion of the carpet backing to the floor. Shaw Industries recommends the complete coverage of latex primer to encapsulate any remaining dust prior to installing product if floor is not dust
- 2. Do not use sweeping compounds as they leave oily deposits.
- 3. The floor must be level and smooth. Depressions and cracks must be filled with a liquid latex additive patching compound and all protrusions leveled.
- 4. All previous non-active adhesives must be removed to a thin bonded residue before installation of carpet tiles. All previous trowel notches must be reduced to a smooth surface. Previous adhesives can be reduced by means of razor scraping or sanding. The new carpet tile must be assured of a 100% mechanical bond between the carpet backing and subfloor.
- 5. Concrete floors must be sealed if dusting or powdering exists. The following floor sealers are suggested for concrete:
- a. Kure-N-Seal-Sonneborn #0800 Chemrex, Inc.
- b. Spartan Cote Cure Seal Hardener The Burke Group
- c. Shaw Contract Group 9050 Primer
  - 6. As always, manufacturers are subject to change their formulations. Please refer to all manufacturers' suggested use and precautions.
  - CAUTION: Cutback asphaltic adhesive or any other non-approved adhesives must never be allowed to come into contact with Shaw Contract carpet tiles or adhesives. Installation failure will result. Existing cutback adhesives must be wet scraped and reduced to a well bonded thin residue. When thoroughly dried, it should be encapsulated with Shaw 9000 sealer. If this situation arises, contact Shaw Industries Technical Services Department at 1-800-471-7429 for further instructions.

#### D. Job Layout

1. Modular Carpet

- a. The starting point in a modular installation must be as near to the center of the room as possible and must be positioned to utilize the largest perimeter cut module size.
- b. Snap a chalk line parallel to one major wall bisecting the starting point. It may be necessary to offset the center chalk line to assure perimeter modules will be at least half size.
- c. A second chalk line must be snapped from the starting point at 90° to the first line. This can be accomplished using a 3-4-5, 6-8-10, or larger triangle, depending on the room size. Meters or feet may be used to lay out the triangle in these proportions.

#### E. Adhesive Requirements & Application

- 1. Modular Carpet
- a. Aaron's Ecoworx Tiles require the use of the provided Shaw Contract 5000 Pressure Sensitive, Releasable Adhesive. Use a 1/16 V-notch trowel. Yields 20 sy per gallon. Allow the adhesive sufficient open time so that it will not transfer to the back of the tile. The adhesive must be allowed to dry completely before installing the carpet. Installing into wet adhesive will result into a permanent bond and may cause carpet to bubble!
- b. NOTE A FULL SPREAD OF ADHESIVE IS REQUIRED.

F. Installation

- 1. Modular Carpet
- a. Verify floor is dust and powder free per Floor Preparation section above.
- b. Begin the installation by installing according to the carton number. Each module has directional arrows on the backing. This allows for one-directional or multi-directional installation.
- c. Field Modular Carpet Tiles require quarter turning.
- d. Aisle Modular Carpet Tile requires arrows on back of tile to run knap monolithically in one direction.
- e. Installation must begin at the intersection of two chalk lines. Installation must continue until completed in one quadrant, then proceed to an adjoining quadrant until all four quadrants are completed. Larger areas may require chalk lines bisecting the original four quadrants.
- f. Install modules using the pyramid technique. This allows multiple alignment checks. If the edges do not align and the misalignment increases with progression of the installation, the source of the problem must be identified and corrected.
- g. Slide modules into position to prevent yarn from being trapped between the modules. Trapped yarn will adversely affect the appearance of the installation and will cause alignment problems.
- h. Modules must fit snugly, but not be compressed. Check for fit by measuring the length of ten full modules after installation. The measurement must not be less than, or exceed by more than 1/4 inch, the length of the modules being multiplied by ten. For example: if 18" X 18" modules are being installed, the measurement should be between 180 and 180 1/4 inches.

G. Cutting

#### 1. Modular Carpet Cutting Techniques

a. Modules may be cut by measuring and cutting from the back using a straight edge. Care must be taken to assure the arrows are pointing in the correct direction. b. Modules may also be cut by letting them cove up the wall and cutting with a cushion back wall trimmer or similar tool. DO NOT COMPRESS!

H. Post Installation Care

	1. Roll the entire installation in both directions with a 75 lb roller once it is completed to assure transfer of the adhesive between floor and carpet	1st Coat:	S-W PrepRite(r) ProBlock(r) Latex Primer, B51
	<ol> <li>backing.</li> <li>Use plywood over the carpet when heavy objects are moved within 24 hours after installation.</li> </ol>	2nd Coat: 3rd Coat:	S-W ProClassic Waterborne Acrylic Gloss, B21 S-W ProClassic Waterborne Acrylic Gloss, B21
	3. A non-staining building material paper must be placed over the carpet to protect it when additional construction activity is to take place that would soil or stain it. Do not use plastic sheeting as it will trap moisture.		5. Wood Doors - Trim

**PROJECT NUMBER:** 2021.0567.00

SHEET TITLE

# SPECIFICATIONS

### 1.0 GENERAL

- A. DESCRIPTION 1. These plans are schematic in nature and are intended to establish size, general routing and location, and performance and are not intended to show all possible conditions. All work shall be fully coordinated with other trades to insure the installation of a complete, operating system that fits in the space allotted. Provide all labor, equipment, appurtenances and materials necessary, and perform all operations required for the installation of complete, functional mechanical systems as outlined on the drawings and described in the specifications.
- 2. This project is a "build to suit" / base building shell mechanical system installation for a new building. The approximate conditions of the building architectural elements are reflected in these drawings, however some undocumented work may be performed (added or removed) the conditions of which are not indicated on these drawings. Notify Owner's Representative of any field conditions which do not match design. Install new equipment where indicated, and relocate as required to match field conditions, so that final work should reflect, as closely as possible, the layout shown of these drawinas.
- 3. Because this project is a new installation of several trades, unknown circumstances and interferences may occur. The Contractor shall visit the site prior to any bid submission to familiarize himself with the existing site conditions. The contractor shall coordinate with all other trades and make adjustments in routing and location and, if necessary, in size, in order to achieve the specified performance without incurring additions to the contract. Where actual field conditions differ significantly enough from design to affect pricing, the contractor shall notify the building Owner's Representative prior to bid submission for a resolution. No allowance will be made for lack of knowledge of field conditions.
- 4. Refer to architectural floor plans and reflected ceiling plans to coordinate mechanical equipment with layout of walls and partitions and locations of all ceiling mounted devices. For any items not shown on the reflected ceiling plans, prepare drawings of the proposed locations and present to the Owner's Representative for approval prior to installation.
- 5. Due to the fact that areas adjacent to this work area will continue to operate during this construction phase, great care must be taken to maintain a clean job site. Any interruption of services (electricity, fire protection water, domestic water, sewer, gas, air conditioning, HVAC chilled and hot water, and steam and condensate return) to the building shall be coordinated with the Building Owner. Any work that requires activity outside this area shall be coordinated with the Building Owner. Provide barriers, dust enclosures, etc., as required to protect adjacent areas and staff. Provide temporary construction filters to prevent the contamination of adjacent areas and equipment with construction dust at the following locations: over all return air openings in tenant demising walls; on the return air inlet of all central station air conditioning units serving floors or portions of floors under this scope; and on the return air inlet of all remote auxiliary units serving portions of this tenant space.
- 6. Contractor shall coordinate all work required for utility service connections (electricity, domestic water, sewer, fire protection water, gas) to the building with the local utility companies and with the local authorities having code jurisdiction.
- 7. All work shall be done in conformance with these specifications and local codes. Where conflicting requirements may occur, the more stringent shall govern. There are many interfaces between the work involved with this Division and the work in other Divisions, particularly with Division 15. Electrical contractor is responsible for these interfaces
- 8. The plans and specifications are considered cooperative and complimentary.
- B. CODES AND REGULATIONS:
- 1. All Mechanical systems shall be installed in accordance with the locally adopted Building Codes, Mechanical Codes, Energy Codes, Plumbing and Gas Codes, and NFPA (Latest Editions).
- 2. The Contractor shall obtain all permits and licenses, arrange for all inspections, perform all tests and pay all fees incidental thereto, as required for the execution of the contract and as required by the authorities having jurisdiction. C. SHOP DRAWINGS:
- 1. Contractor shall submit six (6) copies of descriptive catalogue data for all new equipment and appurtenances to be used on this project. Catalogue data shall include performance data, dimensional data, standard and optional features and appropriate testing agency labels. The shop drawings shall be legible and shall clearly indicate the equipment tag or mark, related specification section, optional features to be provided, and any deviations from the specifications or scheduled capacities noted in red or highlighted. Verification and assignment of dimensions, quantities, and construction means, methods, sequences or procedures shall be the sole responsibility of the Contractor.
- 2. All submittal data shall be 8-1/2"x11" and shall be bound together in a binder or under a report cover. The submittal sheet(s) for each piece of equipment shall include a blank area 3"x 3", on the front, for review stamp and comments. If the catalog data sheet does not have an open area as specified, provide a cover sheet for that piece of equipment with equipment tag and brief description for review and comment use.
- 3. Illegible submittals and incomplete submittals (lacking equipment designations, performance data, dimensional data, or indication of optional features) may be summarily rejected without review. Any delay in the construction schedule resulting from rejected submittals is the responsibility of the Contractor for failure to adhere to these specifications.

### 2.0 PRODUCTS

- A. DESCRIPTION 1. All materials and equipment shall be new except those existing items indicated to be re-used. Any equipment or devices to be re-used shall be thoroughly cleaned and serviced to good working condition. All new equipment shall bear the label of the appropriate testing agency (UL, ETL, FM, CSA, AGA, ASTM, AMCA, PDI, CISPI, etc.). Provide one (1) year parts and labor warranty on all new equipment, systems and components, including
- 2. The products of particular manufacturers have been used as the basis of design. Any modifications required to the mechanical system, electrical system, building structure or finishes due to the use of equipment other than the basis of design shall be coordinated with all trades and performed without additional cost to the contract.
- 3. All construction products installed within return air plenums shall be plenum rated materials with a maximum flame spread/smoke developed rating of 25/50.All material shall be new and shall bear the inspection label of Underwriter's Laboratories, Inc. (UL).
- B. EQUIPMENT 1. Mechanical equipment shall be as indicated in the equipment schedule. Coordinate with electrical before ordering equipment requiring electrical connections. Equipment with motors shall be provided with built-in starters and disconnect switches, unless indicated otherwise on the drawings.
- 2. Air distribution devices shall be as indicated in the equipment schedule. Air distribution devices match existing device types where applicable. Coordinate mounting frames to match the surface in which the devices are installed. Coordinate finish and color with the architectural finish to be off-white baked enamel unless otherwise noted. All 2X2 lay-in diffusers shall have 4-way adjustable throw, unless noted otherwise. Devices shall be as manufactured by Titus or approved equivalent by Carnes, J&J Register, Krueger, Metal\*Aire, or Price., at no additional costs to the Owner
- C. DUCTWORK AND ACCESSORIES 1. All new supply and return air ductwork shall be G90 aalvanized sheet steel, fabricated and installed in accordance with SMACNA pressure rating classification and code. Fiberglass duct board is prohibited. Ductwork shall be rectangular or round as indicated; round equivalent may be substituted for rectangular only where specifically indicated or with prior approval. Sizes indicated on drawings are clear inside dimensions available for air flow (add liner thickness for sheet metal sizes). Ductwork shall be sealed to minimized leakage; maximum allowable leakage shall be 2 per cent.
- 2. Flexible duct may be used for final connections to air distribution devices. Flexible duct shall be U.L. 181 Class 1 air duct, rated for applicable duct system pressure classification service, with tear resistant, reinforced inner layer, spring steel wire helix, minimum 1-1/2" insulation and outer vapor
- 3. Flex duct connections to low pressure trunk duct shall be made with spin-in connections extractor scoop and adjustable, locking manual damper (provide conical spin-in connections where duct sizes allow). Provide square to round adapters or boots to connect to air device neck where required. Flex duct connections to terminal units, air distribution devices, duct taps, and spin-in fittings shall be secured with nylon/plastic tie straps or metal clamps, per SMACNA. Strap or clamp both the inner layer and the outer vapor barrier; seal vapor barrier airtight with foil faced duct tape with. Both the inner layer and the outer vapor barrier; seal vapor barrier airtight with foil faced duct tape with.
- 4. All supply air branch take-offs from low pressure trunk ducts shall be made with 45 degree collar and shall have balancing dampers with locking quadrant handle in branch duct. Air extractors or elbows with splitter dampers may be used as alternate branch take-off method.
- 5. All elbows shall be smooth radius with center line radius equal to 1.5 duct width or mitred with double thickness turning vanes. 6. Install fire dampers in all rated wall, floor, and sub-ceiling penetrations. Dampers shall match the rating of the assembly penetrated. Refer to
- architectural drawings for locations and ratings of all walls, partitions, and floors. Provide access doors in ductwork at each fire damper location, install on the most accessible side of the duct and wall (coordinate with ceiling plans and other components in ceiling). Install smoke dampers in all duct penetrations through smoke rated walls. Where ducts penetrate walls that carry both fire and smoke ratings, the dampers installed shall be combination fire and smoke dampers. All fire dampers shall be U.L. #555 labeled and installed per listing instructions, type "B" or "C" (with blades out of air stream) unless otherwise noted; and shall be "dynamic" rated for all ducted applications, "static" for all plenum (return air) applications.
- 7. If ceiling space allows, round steel ductwork may be substituted for unlined rectangular ductwork provided that it is sized for equivalent pressure loss to rectangular sizes indicated (if not specifically so noted, provide rectangular). Round branch duct and flex duct connections to round low pressure trunk ducts shall be made with factory or shop fabricated Tee or Wye fittings (field fabricated fittings are not acceptable) at takeoffs, and with adjustable, locking manual volume dampers in branch duct.

#### D. THERMAL INSULATION

- 1. All mechanical equipment and materials (ductwork, piping, valves, etc.) with cold (below 65 degrees) or warm (above 90 degrees) surfaces shall be insulated. All external insulation shall have a continuous vapor barrier. The use of staples for fastening insulation is prohibited and no fiberglass shall be exposed. All insulation products shall be plenum rated with a maximum flame spread/smoke developed rating of 25/50. All maximum thermal conductivity (k) listed below is measured at 75 degrees F mean temperature and expressed in terms of (Btu / hour, sq.ft., degree F per inch thickness of material.
- 2. Line all new supply and return air ducts as indicated on drawings and/or as described below. Duct liner shall be 1" thick, 3 lb./cu.ft. density fiberglass with a maximum thermal conductivity (k) of 0.24. Provide black, fire retardant, neoprene coating on surface exposed to the air stream and treat with an anti-microbial coating. In general: supply and return air ductwork shall be lined from air handling equipment (FCU) connections through the first horizontal elbow or through the first twelve (12) feet, whichever is greater. Sizes indicated on drawings are clear inside dimensions available for air flow (add liner thicknesses for sheetmetal sizes).
- 3. All new unlined supply and return air ductwork shall be insulated. All outside air intake ductwork shall be insulated. Insulation shall be 2" thick, 1 pcf fiberglass duct wrap insulation with a maximum thermal conductivity (k) of 0.27. Provide reinforced foil vapor barrier and foil faced tape seals. Repair all holes in vapor barrier with tape with no exposed fiberalass.
- 4. Exhaust ductwork need not be lined or insulated.
- m equipment, accessories, and appurtenances. All valving and piping accessories shall be insulated with removable insulation packages, molded to the shape of the component, with all seams taped and sealed to make a continuous vapor barrier. Vapor barrier for piping insulation shall be sealed at all appurtenance penetrations with fabric and mastic or insulating cement.
- 6. All domestic cold and hot water piping shall be insulated with preformed fiberglass pipe insulation with a maximum thermal conductivity (k) of 0.26. Provide all-service jacket, butt joints and adhesive lap strips, tape all joints and seams. As an alternate, preformed flexible closed cell elastomeric piping insulation systems (AP Armaflex or Armaflex 2000) with a maximum thermal conductivity (k) of 0.28 may be substituted, providing the thermal performance meets local energy codes. Alternate insulation shall have butt joints with self-sealing adhesive lap strips, seal all joints with solvent adhesive and tape. Fittings shall be fabricated from mitered sections of preformed pipe insulation or Zeston preformed plastic fittings packed with batt type insulation inserts, tape and seal all joints and seams. Insulation thickness shall be 1/2" for cold water and 1" for hot water piping.
- 7. Insulate all piping below handicap accessible sinks per ADA requirements. Insulate P-traps, trap arm, angle stop valves, and risers with a packaged molded vinyl insulation kit, Handi Lav-Guard model 102W and 105W by Truebro, or approved equivalent. Provide factory preformed piping insulation kits as described or approved equivalent only. Other types of insulation systems: non-molded vinyl covered cloth with velcro or zip-up covers, field fabricated pipe insulation systems, and flexible strip wrapping type insulation are not acceptable.
- 8. All sanitary/waste drainage piping above slab receiving cold waste water (condensate drainage, icemaker waste, water cooler/drinking fountain waste, etc.) shall be insulated with 1-1/2" thick, 1 pcf fiberglass blanket wrap insulation with reinforced foil vapor barrier and foil faced tape seals. Preformed piping insulation systems as described for domestic hot and cold water piping may be substituted. Insulate all portions of drain system piping receiving undiluted cold waste water to connection with main drain lines including: drain body, tailpiece connections, traps, and trap arms. Insulate all horizontal storm water piping similarly. Insulate and heat trace all traps exposed in unconditioned areas.
- 9. All condensate drainage piping shall be insulated with 1/2" thick preformed, foamed plastic tubing, plenum rated pipe insulation, Armaflex type FR or approval equivalent, with a maximum thermal conductivity (k) of 0.26.

All joints shall be mechanically fastened and sealed, all seams shall be sealed; all audible leaks shall be resealed. Sealants shall be water based only. Low pressure ductwork is that portion of the duct system downstream of the HVAC unit discharges, and shall be SMACNA Pressure Class 1" w.g.

5. All portions of HVAC and Plumbing hot and cold fluid piping systems shall be insulated including valving, fittings, unions and flanges, and all piping

F. HVAC PIPING 1. All condensate drainage piping shall be insulated with 1/2" thick preformed, foamed plastic tubing, plenum rated pipe insulation, Armaflex type FR or approval equivalent, with a maximum thermal conductivity (k) of 0.26. F. PLUMBING PIPING

1. All domestic water (CW & HW) piping shall be type "L" seamless copper tubing with wrought fittings and sweated joints with 95/5 tin/antimony solder. 2. All waste and vent (DWV) piping above ground shall No-Hub cast iron with CISPI 301 fittings and couplings. Underground waste piping shall be DWV PVC with solvent weld joints and fittings. Slope piping and provide cleanouts per minimum code requirements

3. All supply angle stop valves shall be chrome plated brass body, wheel handle, and escutcheon plate. Provide angle stop valves at CW and HW supply connections at all fixtures (instantaneous type water heaters, sinks and lavatories, etc.) with flexible risers; and at all appliances (dishwashers, ice makers, coffee makers, vending machines, etc.)

4. All shut-off valves shall be ball valves with bronze body, chrome plated brass ball, and Teflon seat and packina: or Milwaukee "Butterhall" with bronze body, stainless steel disk, and Viton disk seat. Provide shut-off valves and unions at all equipment connections (storage type water heaters, pumps,

3.0 PRODUCTS

A. DESCRIPTION

1. Install all equipment and materials in accordance with applicable codes, SMACNA, Manufacturer's recommendations and these documents. Should conflicts arise, the more stringent requirement shall govern

2. Any damage to structure or finishes resulting from the installation of any equipment specified under this division shall be repaired to match surrounding areas. Coordinate all cutting and patching with other trades.

3. Clean all equipment and touch up any mars or scratches before beneficial occupancy.

4. Provide for each new piece of mechanical equipment a permanent label (metal, bakelite, plastic, or equivalent) with the equipment name/tag/mark permanently embossed into the label. Mount label on unit, permanently affixed to unit, located adjacent to nameplate or adjacent to access door if nameplate is mounted within unit. Label shall indicate equipment tag, tenant name, and floor.

5. Provide for each new and existing device controlling mechanical equipment (thermostat, sensor, switch, rheostat, timer, etc.) a permanent label (metal, bakelite, plastic, or equivalent) with the controlled equipment name/tag/mark permanently embossed into the label. Mount label permanently affixed to device cover (or on inside of hinged covers) and located so as not to block device operation or instructions.

B. TEST AND BALANCE

1. Test and balance shall be performed by a NEBB or AABC licensed agency only. Provide a minimum of 5 original bound copies of a complete, typewritten test and balance reports for review upon project completion. Test and balance all equipment and air distribution devices to capacities indicated. Adjust drives as required. Report condition and operation of all controls and controlled devices.

2. Test all equipment controls for proper response to all applicable operation sequences: cooling, heating, economizer, and ventilation/exhaust cycles; normal, after hours, night setback, morning warm-up/cool down, and emergency modes. 3. Balance all system components to within -5% or +10% of design quantities indicated. Measure and record entering, leaving, and operating

characteristics at all equipment for comparison with design capacities scheduled. Measurements/recordings may include, but are not limited to, the following: entering and leaving temperatures, pressures, velocities, and flow rates for all fluids (air, water, refrigerant, etc.); all electrical operating characteristics (voltage, amps, watts); unit model numbers, component sizes, and operating speeds (both motor and driven equipment rpm's). 4. Where initial measurements indicate equipment to be operating at conditions significantly different from scheduled capacities (greater than -5% or +10%), measure all entering, leaving, and operating conditions for diagnostic purposes; note any discrepancies between design requirements and installed conditions; and report same to the architect/engineer in writing as soon as possible.

5. Recalibrate controls in areas associated with this work to insure proper operation. Adjust cooling setpoints to 74 degrees F and heating setpoints to 72 6. Balance all new air handling equipment (fan coil units and fans) serving space under this contract. Balance to the total of the air quantities of the air distribution devices served; or, where air quantities are not indicated, to the total air quantities for the unit as scheduled in these specifications

Reports shall include both design and measured/balanced air flows for each air device as well as subtotals for each zone served and totals for each piece of air handling equipment. 7. Balance all air distribution devices (diffusers, registers and grilles) to the air quantities indicated on the drawings. Balance all new and existing ceiling diffusers and rebalance all existing perimeter slot diffusers. Balance outside air to quantities indicated

C. EQUIPMENT AND MATERIAL INSTALLATION

1. Mechanical equipment shall be as indicated in the equipment schedule or approved equivalent, and installed per the manufacturer's recommendations. Coordinate with Division 16, Electrical, before ordering equipment requiring electrical connections; coordinate quantity, size, and type of connection(s) and overcurrent protection; and disconnect(s), and starter(s) requirements. Do not mount disconnect switches over unit nameplates. All electrical work shall be done in conformance with these specifications, Division 16 specifications, the National Electric Code, and local codes. Where conflicting requirements may occur, the more stringent shall govern.

2. Support all ductwork, piping and equipment from structure. Do not support from other ductwork, piping, conduit, etc. Support all ductwork with hangers and supports per SMACNA. Support all piping with hangers, supports, anchors and guides per ANSI Code for pressure piping, ANS B31.1 with addenda 31.1 OA-69. Sizing and spacing of hangers shall be per these standards, unless otherwise noted. "C" clamps shall not be used unless tack welded or strapped to structural steel members. 3. Insulation shall be continuous at all wall and floor penetrations (except at fire dampers) and at hanger supports. Hanger supports for insulated piping

shall be outside insulation; provide insulated inserts and sleeves at hangers. Insulation vapor barrier shall be sealed at all joints and seams, and at nenetrations by anourtenances (damper rods, valve stems, etc.). Repair insulation at existing ductwork which has been reworked. Tears and punctures of vapor barrier shall be repaired and sealed. All piping and ductwork pressure testing shall be performed before insulation is applied. 4. Provide sleeves, clamps for piping at all wall and floor penetrations, and fire proofing at all rated wall and floor penetrations. Provide escutcheon plates

at all visible wall and ceiling penetration 5. Locate new equipment away from walls to structure and rated walls as necessary to provide required clearances for proper operation, maintenance and

6. Install all new ductwork as high as possible, tight to structure above. Transition ductwork flat on top to maintain maximum bottom of duct elevation. Install all piping above ceiling as high as possible, with sloped piping as high as slope will allow. Raise any existing ductwork and piping as required to avoid conflict with new ceiling features and new light fixtures, field verify height of existing mechanical wor 7. Flexible duct runouts to diffusers shall be sized to match the device neck, unless otherwise noted. Maximum low pressure flex. duct length is 8 ft.,

provide round aal, steel duct runouts to maintain maximum 8 ft flex, length. Do not install flex duct through walls to structure, install only hard round steel ductwork through non-rated walls to structure (provide ED's at rated wall penetrations). Elevible duct runouts to diffusers shall be adequately supported and installed free of kinks and sags. Flex duct connections to low pressure trunk duct shall be made with spin-in connections, new spin-in connections shall not be made within 5 ft. of any terminal unit outlet or within 2.5 ft. on centers. Provide square to round adapters or boots to connect to air device neck where required.

8. Locate diffusers and return air grilles as close as possible to positions indicated on drawings and as required to avoid conflict with new light fixtures and other ceiling mounted devices. Adjust length of duct connection to diffusers to the minimum length required to provide smooth, long radius bend connections, free of kinks and sags, and without unnecessary length or bends. Reduce length of connection by removing excess flex duct and reconnecting. Extend connections by adding necessary length of insulated, hard round steel duct at trunk duct tap and reconnecting existing flex duct

9. Mount new thermostats/sensors at locations indicated on drawings. T'stat mounting heights shall be per ADA requirements unless noted otherwise on drawings for different wall mounting heights or ceiling mounting. Mount T'stats at 54" AFF for full (side) wheelchair access locations and at 48" AFF for front facing access only. Locate ceiling mounted thermostats out of throw of nearby air distribution devices. T'stats mounted on RAG's shall be mounted on the bottom of the grille (within the room served) unless otherwise noted. Locate thermostats above light switches where shown in the immediate vicinity of switches. Do not locate thermostats in the same wall stud space as dimmers and rheostats. Verify exact location of thermostats with architect (refer to Architectural floor plans and furniture plans and Electrical lighting plans for coordination). 10.All 2X2 lay-in diffusers shall have 4-way adjustable throw, unless noted otherwise. Adjust all diffusers in corridors or within 3 feet of a wall to

provide 2-way or 3-way blow away from or parallel to walls. 11.Portions of ductwork visible through air distribution devices in finished areas shall be painted flat black.

12. Provide access panels in non-accessible ceilings and in walls to structure to allow adequate room for maintenance of equipment and balancing of system. Access panels shall maintain the fire rating of the wall or ceiling where required. See Architectural drawings 13. Condensate drain lines shall be sized to match unit connection size (3/4) minimum) and as noted on plans, shall be trapped at the unit with a minimum 2" deep water seal, and shall be routed with a minimum slope of 1/8" per foot. Drain lines shall be terminated turned down above hub drains or floor drains on building interior; at roof drains, splash blocks or dry wells/French drains on building exterior; interior drains may be routed down in walls and below counters and terminated at the tailpiece of any sink or lavatory, should such connection be available (coordinate with Plumbing). At the Contractor's option, or where minimum slope cannot be maintained from the coil to the termination point, condensate drain pumps may be provided. Discharge from pump immediately to a high point and slope down to drain termination point. The Contractor shall be responsible for coordinating all requirements for drain pump installation (electrical connections, drain termination, code compliance for ceiling plenum installations, etc.) 14. Provide ionization type smoke detector in the supply duct of all air handling equipment with air delivery capacities of 2000 CFM or above to shut

down the unit upon detection of smoke. 5.Equipment mounted above ceiling shall be suspended from structure above with all-thread hanger rods, sized per equipment weight requirements. Provide combination spring/neoprene vibration isolators for equipment with moving parts (fans, compressors, etc.). Equipment supports (angles, channels, etc.) shall extend sufficiently past footprint of equipment to allow for installation of vibration isolators above supports and within equipment height. Locate equipment to provide adequate room from structure, walls above ceiling, and ceiling features to allow for maintenance of equipment and balancing of system. Provide auxiliary drain pan beneath entire unit for water storing equipment (water heaters) and equipment with cooling coils. 16.Flash all roof and exterior wall penetrations and seal water-tight. Provide wall sleeves for all wall penetrations.

17. Route equipment and piping system auxiliary drains (aux, drain pans, T&P reliefs, etc.) to building sanitary drainage system and terminate via indirect connection with air gap. Route auxiliary drains from cooling coil aux. drain pans to an adjacent corridor ceiling (not over any furniture, equipment, or occupied area) or over a sink, and terminate with and escutcheon plate at the ceiling. 18.All piping below handicap accessible sinks shall be insulated and installed as high as possible and as far back as possible to provide maximum wheelchair access, per ADA requirements.

19.Clean and sanitize all domestic (potable) water piping systems per Code requirements after completed installation and before any potable use. The following shall be performed at a minimum: Clean all debris from piping before final connections are made. Pressure test the completed piping system. Flush the piping system with a cleaning and degreasing agent. Completely flush the piping system with clean water to remove all traces of debris and cleaning agents. Flush the piping system with a sanitizing agent. Completely flush the piping system with clean water to remove all traces of sanitizing agent. Fill the piping system with clean water.

20.All waste and vent (DWV) piping 3" and above shall be sloped at 1/8" per foot minimum, piping 2-1/2" and smaller shall be sloped at 1/4" per foot minimum. Provide cleanouts at all changes in directions. Provide additional cleanouts in all DWV piping at maximum 75 ft. intervals for 4" piping and above, and at maximum 50 ft. intervals for 3" piping and smaller.

21.All equipment suspended from roof structure shall be mounted on structural steel supports frames (channels or angles) bolted to supports and to equipment at each equipment support point (min. two points each on a min. of two frame members). Support frames shall be suspended by bolted all-thread rods from like sized frame members welded or positively bolted to a minimum of two roof frame members above. Support framing system shall be sized to support 200 percent of the total distributed equipment weight, frame members and all-thread rods shall be sized to support 200 percent of their respective point load weights. 22.Provide pipe supports at all piping changes in direction and at maximum center distances per ANSI Code for pressure piping, with sizing and

spacing of hangers per these standards, unless otherwise noted. Mount piping on hangers within 12" of roof support structure above or provide seismic bracing for longer hanger lengths. Support grouped piping on trapeze type channel supports with two hanger rods, anchored to structure above; or rack type channels, supported from floor or grade below with two pipe stands and floor plates bolted to floor; clamp piping to supports. Support individual pipes from above with clevis, adjustable "J", or adjustable band type hangers with hanger rods anchored to structure above; or from wall with wall bracket. Provide riser clamps at floor penetrations and wall support brackets at vertical piping. Vertical risers shall be racked on walls, resiliently mounted to walls with "Unistrut" wall brackets and "Unisorb" clamping, or equivalent. Hanger rods shall be anchored to structure above with concrete anchors, beam clamps, or "C" clamps tack welded or strapped to steel structure. Hangers shall not support insulated piping directly from pipe and shall not crush the insulation system. Hangers shall be mounted outside the insulation with Foam-Glas inserts at all support points. Provide 18 ga. sheet metal saddles at all insulated piping hangers, saddles shall have width equal to 1/2 the pipe circumference and length equal to 4 times the insulation outer diameter. Galvanized pipe support hangers or other metals susceptible to galvanic corrosion are prohibited.

#### 4.0 HVAC EQUIPMENT SCHEDULE

#### A. CEILING MOUNTED EXHAUST FANS

1. Direct drive, with ceiling grille and backdraft damper, 120 Volt / 1 phase. Discharges from toilet exhaust fans shall be ducted to the building exterior as shown on plans. Penn or approved equivalent as manufactured by ACME, Cook or Greenheck

- B. PACKAGED ROOF TOP SYSTEM GAS HEATING/ELECTRIC COOLING UNITS
- 1. Package, single zone roof top units of the size and capacities show on the drawings
- 2. Unit shall be compliant with ASHRAE 90.1. 2004
- 3. Manufactures: Carrier (No Substitutions Allowed)
- 4. Mount units on the full perimeter roof curb that the manufacturer furnishes with the unit. The unit shall include weatherproof housing, air cooled condensing and dx refrigeration system, coil section, gas heating section, filters, and all operating and safety controls
- 5. The compressor shall be internally isolated from vibration, and the fan motors shall be resiliently mounted.
- 6. The unit shall be factory wired, charaed, and tested to be ARI certified. It shall be furnished with a non-fused disconnect switch, short circuit fuse protection of all internal electrical components, and all necessary motor starters, contractors, and overcurrent protection.
- 7. Units shall be equipped with economizers, parallel blade, gear driven.
- 8. Units shall be equipped with powered exhaust.
- 9. Compressors shall be warranted against failure for a period of 5 years. It shall have a timer lock-out to prevent short cyclina.
- 10.Access doors shall have vinyl or neoprene gaskets. The exterior cabinet shall be phophatized and coated with baked-on enamel paint. The unit cabinet shall be completely insulated with neoprene coated glass fiber a minimum of 1" thick that is secured with adhesive and mechanical fasteners.
- 11.Evaporator and condenser coils shall be copper tube and extended surface aluminum fins.
- 12.The unit controls shall include a law and high refrigerant pressure cut-out. A thermostat and switching sub base shall be provided and installed as shown on the plans. The thermostat shall provide stages of cooling and heating control to match C. GAS UNIT HEATER
- 1. Gas forced air unit heater, UL Listed, with the following features: heavy duty galvanized steel cabinet with mounting bracket and dust shield, power vented adjustable discharge louvers for horizontal and downward angled throw, totally enclosed motor and propeller type fan, totally enclosed corrosion resistant heat exchanger, integral circuit breakers, disconnect switch by Div. 15, thermal cut out. Contractor shall provide a fixed Thermostat mounted to metal bracket 4" below the unit heater. Set point set to 65 deg. F.
- D. SPLIT SYSTEM (WHERE USED)
- 1. All refrigerant suction piping shall be insulated with 3/4" thick preformed, foamed plastic tubing, plenum rated pipe insulation, Armaflex type FR or approval equivalent, with a maximum thermal conductivity (k) of 0.26. All exterior refrigerant piping insulation shall be coated with a UV resistant, weather proof paint.
- 2. All refrigerant (RS&L or RL&HG) piping shall be type "K" or type "ACR" hard drawn copper with wrought fittings and brazed joints, "Silfos" or equivalent. Provide charging valve for each system or independent circuit and shut-off valves at all unit connections for servicing of equipment without loss of refrigerant. Refrigerant piping shall be sized per the equipment manufacturers' recommendations for the specific applications and installation. Provide line traps and double risers as required per the manufacturer's recommendations.
- 3. Refrigerant lines shall be sized per the equipment manufacturer's recommendations to meet the capacity requirements for the actual conditions of this specific installation (upsize from standard line sizing where required to maintain minimum capacities scheduled for equipment). Provide any special piping requirements (traps, double risers, valving, controls, options and accessories, etc.) as well as required refrigerant quantities per the manufacturer's recommendations. Install piping per standard practices for refrigerant piping construction and mounting, per the equipment manufacturer's recommendations, and per local codes. Clean all debris from piping before final connections are made. Pressure test the completed piping system. Evacuate refrigerant piping system, purge system with dry nitrogen, evacuate system again, and charge system per manufacturer's recommendations with appropriate amount of refriaerant. Where existing systems are being reworked, new refriaerant shall match existing system type. unless specifically noted otherwise. No existing or new refrigerant shall be allowed to be vented to atmosphere. Refrigerant piping mechanics shall be certified and contractor shall be licensed as authorized agents for storage, handling, and disposal of refrigerants
- 4. Provide equipment pad for all equipment mounted on grade. Pads for 7.5-20 split system condensing units (CU's) shall be concrete with steel rebar and wire mesh reinforcement, 6" thick and full size of equipment footprint. Pads for split system condensing units may be substituted with 4" thick light weight concrete prefabricated pads with wire mesh reinforcement and plastic coated exterior. Mount level where indicated on plans. Crown top of pads with 1/8" per slope from center to edges for water runoff.
- 5.0 HVAC CONTROLS
- A. CEILING MOUNTED EXHAUST FANS
- 1. EF's shall be interlocked with the toilet room lights to run when ever the light(s) are on.
- B PACKAGED ROOF TOP SYSTEM GAS HEATING/ELECTRIC COOLING UNITS
- 1. HVAC Control by Viconics 7-day programmable thermostat with remote teperature sensor. Output signal wiring for monitoring purposes are tied into the Energy Management System system by the EMS controls contractor
- 6.0 AIR DISTRIBUTION DEVICES
- A CEILING DIFFUSERS (CD's)
- 1. Louvered face square steel ceiling diffuser, 4-way throw, removable core, opposed blade damper, round neck, 18"x18" module size with 24"x24" panel and border for mounting in 2x2 or 2x4 T-bar grid lay-in ceiling, Titus TDC or approved equivaler
- 2. 2X2 GRILLE SIZES: Except where noted otherwise on plans, CD's shall be sized per the following: 6"diam.- up to 125 cfm; 8"diam.- 130 to 250 cfm; 10"diam.— 255 to 350 cfm; 12"diam.— 355 to 450 cfm; 14"diam.— 455 to 550 cfm; 16"diam.— 555 to 700 cfm.

### $\xrightarrow{B}$ CEILING DIFFUSERS (CD's)

- I. Perforated face square steel ceiling diffuser, 4-way throw, removable core, opposed blade damper, round neck, 12"x12" module size with 12"x12" panel and border for mounting in gyp ceiling, Titus PAS or approved equivalent.
- 2. 1X1 GRILLE SIZES: Except where noted otherwise on plans, CD's shall be sized per the following: 6"diam.- up to 125 cfm; 8"diam.- 130 to 250 cfm; 10"diam.- 255 to 350 cfm; 12"diam.- 355 to 450 cfm; 14"diam.- 455 to 550 cfm; 16"diam.- 555 to 700 cfm.

#### $\langle C \rangle$ RETURN AIR GRILLES (RAG's)

- 1. Perforated face grille with 1/2" x 1/2" x 1/2" aluminum grid core, 24" x 24" frame and border for mounting in 2x2 or 2x4 T-bar grid lay-in ceiling, Titus model PAR or approved equivalent. Provide 12" high lined plenum on top with round neck for flex duct connection 2. Except where noted otherwise on plans, RAG's shall be sized per the following: 6"diam.- up to 100 cfm; 8"diam.- 105 to 200 cfm; 10"diam.- 205
- to 300 cfm; 12"diam.- 305 to 400 cfm; 14"diam.- 405 to 500 cfm; 16"diam.- 505 to 600 cfm.

### $\langle D \rangle$ RETURN AIR GRILLES (RAG's)

- 1. Perforated face grille with 1/2" x 1/2" x 1/2" aluminum grid core, 12" x 12" frame and border for mounting in Gyp ceiling, Titus model PAR or approved equivalent. Provide 12" high lined plenum on top with round neck for flex duct connection.
- 2. Except where noted otherwise on plans, RAG's shall be sized per the following: 6"diam.- up to 100 cfm; 8"diam.- 105 to 200 cfm; 10"diam.- 205 to 300 cfm; 12"diam.- 305 to 400 cfm; 14"diam.- 405 to 500 cfm; 16"diam.- 505 to 600 cfm.

#### C. LOUVERS

1. New 4" deep high performance stationary louver, size as indicated, with 18 ga. roll formed galvanized steel, drainable blades and 1/2" mesh screen; maximum 0.07" WG pressure drop and zero water penetration at 750 fpm air velocity, Ruskin model L375D, or approved equivalent. D. BACKDRAFT DAMPERS (BDD'S)

1. All dampers shall be counter-balanced with adjustable counterweights.

## MECHANICAL SPECIFICATION

### GENERAL NOTES (THIS SHEET ONLY)

- 1. UNLESS NOTED OTHERWISE ALL MECHANICAL EQUIPMENT, AIR DEVICES, DUCT WORK, AND APPURTENANCES ARE EXISTING TO REMAIN. REFER TO ARCHITECTURAL DEMO PLANS FOR ADDITIONAL INFORMATION.
- 2. ALL EXISTING HVAC EQUIPMENT TO REMAIN SHALL BE CLEANED, INSPECTED, AND REPAIRED AS NEEDED TO ENSURE PROPER FUNCTIONALITY BY CONTRACTOR.
- 3. ALL EXISTING MECHANICAL EQUIPMENT, AIR DEVICES, DUCT WORK, AND APPURTENANCES ARE NOT NECESSARILY SHOWN ON THESE PLANS. CONTRACTOR TO FIELD VERIFY ALL EXISTING CONDITIONS PRIOR TO SUBMITTING BID.

### NOTES

#### EXISTING RTU AND DUCT DROPS TO REMAIN. EXISTING UNIT COILS TO BE CLEANED.

- EXISTING AIR DEVICE TO REMAIN. RE-BALANCE AS INDICATED.
- CONNECT NEW SUPPLY DUCTWORK TO EXISTING
- 4. CONNECT NEW RETURN DUCTWORK TO EXISTING.
- 5. DEMOLISH EXISTING DUCTWORK AND AIR DEVICES.
- 6. CAP EXISTING DUCTWORK. 7. PROVIDE MOTORIZED DAMPER, INTERLOCK WITH THERMOSTAT.
- 8. EXISTING UNIT HEATER TO REMAIN. RE-INSTALL OR REPLACE THERMOSTAT AS REQUIRED. 9. NEW CEILING MOUNTED EXHAUST FAN WITH INTEGRAL BACKDRAFT DAMPER.
- 10. CONNECT NEW EXHAUST FANS TO EXISTING EXHAUST DUCT. FIELD VERIFY EXACT
- LOCATION AND SIZE.
- 11. EXISTING RTU THERMOSTAT TO REMAIN
- 12. ROUTE GM OFFICE DUCTWORK THROUGH SOFFIT FRAMING ABOVE CEILING, SEE ARCHITECTURAL SHEETS, COORDINATE DUCT ROUTING WITH ROUGH FRAMING.
- 13. NEW RETURN GRILLE TO BE INSTALLED AS SHOWN. GRILLE TO ALLOW AIR TO TRANSFER TO SALES JOIST SPACE.
- 14. NEW RETURN GRILLE TO BE INSTALLED.

SHEET TITLE

MECHANICAL DETAILS

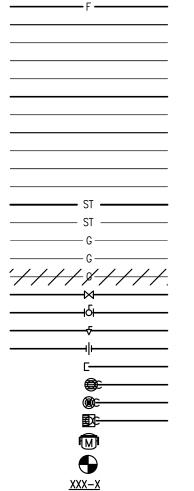

### PLUMBING GENERAL NOTES:

- 1. THESE DRAWINGS ARE SCHEMATIC IN NATURE AND ARE NOT INTENDED TO SHOW ALL POSSIBLE CONDITIONS. IT IS INTENDED THAT A COMPLETE PLUMBING SYSTEM BE PROVIDED WITH ALL NECESSARY EQUIPMENT, APPURTENANCES AND CONTROLS COMPLETELY COORDINATED WITH ALL DISCIPLINES. ALL PARAMETERS GIVEN IN THESE DOCUMENTS SHALL BE STRICTLY CONFORMED TO. ANY ITEMS AND LABOR REQUIRED FOR A COMPLETE PLUMBING SYSTEM IN ACCORDANCE WITH ALL APPLICABLE CODES, STANDARDS, LOCAL AUTHORITIES AND THESE CONTRACT DOCUMENTS SHALL BE FURNISHED WITHOUT INCURRING ANY ADDITIONAL COST TO THE OWNER. THE WORD "PROVIDE" SHALL MEAN FURNISH AND INSTALL. CAREFULLY REVIEW ALL CONTRACT DOCUMENTS AND THE DESIGN OF OTHER TRADES BEFORE PREPARING SHOP DRAWINGS.
- 2. ANY CONFLICTS OF WORK SHALL BE BROUGHT TO THE CONSTRUCTION MANAGERS ATTENTION BY THE PLUMBING CONTRACTOR PRIOR TO PURCHASE OF EQUIPMENT OR COMMENCEMENT OF WORK.
- 3. COORDINATE ALL WORK WITH ARCHITECTURAL, STRUCTURAL, MECHANICAL, AND ELECTRICAL TRADES. PIPE ROUTING SHOWN IS DIAGRAMMATIC. PROVIDE ALL OFFSETS, ETC. TO AVOID INTERFERENCE WITH EQUIPMENT, PIPING, DUCT WORK, LIGHTS, CONDUIT, STRUCTURAL MEMBERS, ETC. ALL INVERTS SHALL BE VERIFIED IMMEDIATELY FOLLOWING AWARD OF CONTRACT. ALL INVERTS SHALL BE COORDINATED WITH STRUCTURAL FOOTINGS. SEE NOTE 9.
- 4. COORDINATE ALL FLOOR PENETRATIONS WITH STRUCTURAL DRAWINGS. SET SLEEVES IN FLOORS AND WALLS AND ATTACHMENTS FOR HANGERS AS CONSTRUCTION PROGRESSES. COORDINATE THE EXACT SIZE AND LOCATION OF ALL SLEEVES WITH STRUCTURAL ENGINEER. ALL PENETRATIONS MUST BE SEALED AND HELD AS TIGHT TO COLUMNS OR WALLS AS POSSIBLE.
- 5. PROVIDE ACCESS PANELS FOR SHOCK ABSORBERS, TRAP PRIMERS AND ALL VALVES LOCATED ABOVE NON-ACCESSIBLE CEILINGS AND INSIDE PIPE CHASES. EXACT LOCATION MUST BE COORDINATED WITH ARCHITECTURAL DRAWINGS AND APPROVED BY CONSTRUCTION MANAGER PRIOR TO INSTALLATION.
- 6. ALL DRAINAGE PIPING AND POTABLE WATER PIPING SHALL BE CONCEALED INSIDE WALLS AND PIPE CHASES OR ABOVE CEILINGS AS HIGH AS POSSIBLE.
- 7. ALL SANITARY WASTE PIPING SHALL SLOPE AT 1/8 INCH PER FOOT UNLESS OTHERWISE NOTED.
- PLUMBING CONTRACTOR SHALL MAKE FINAL CONNECTION TO ALL DOMESTIC WATER, SANITARY SEWERS, STORM DRAINS AND GAS SERVICES AT APPROXIMATELY 5'-0" FROM BUILDING STRUCTURE UNLESS OTHERWISE NOTED.
- 9. COORDINATE ALL UNDERGROUND PIPING WITH GRADE BEAMS, WALL FOOTINGS, COLUMN FOUNDATIONS AND OTHER STRUCTURAL CONDITIONS. SEE STRUCTURAL PLANS FOR DETAILS REGARDING ANY PIPING PARALLEL TO, THROUGH OR UNDER FOOTINGS AND PIERS
- 10. REFER TO ARCHITECTURAL PLANS AND ELEVATIONS FOR LOCATION OF ALL PLUMBING FIXTURES. EXACT LOCATION OF ALL PLUMBING FIXTURES MUST BE VERIFIED IN FIELD PRIOR TO INSTALLATION. FINAL LOCATION SHALL BE AS DIRECTED BY ARCHITECT AND/OR CONSTRUCTION MANAGER.
- 11. PLUMBING CONTRACTOR SHALL MAKE FINAL CONNECTION TO ALL EQUIPMENT INDICATED ON DRAWINGS. FINAL CONNECTION SHALL INCLUDE ANY ADAPTERS, NIPPLES, SHUTOFF VALVES, PRESSURE REGULATING VALVES, SHOCK ABSORBERS, BACKFLOW PREVENTION DEVICES, ETC.
- 12. DO NOT RUN PLUMBING PIPING THROUGH TRANSFORMER VAULTS, ELECTRICAL CLOSETS, ELECTRICAL SWITCHGEAR ROOMS, ELEVATOR EQUIPMENT ROOMS, COMPUTER ROOMS OR TELEPHONE ROOMS.
- 13. PROVIDE BASE CLEANOUT AT LOWEST FLOOR LEVEL OF ALL SANITARY STACKS, WASTE STACKS AND STORM WATER CONDUCTORS. EXACT LOCATION OF ALL CLEANOUTS MUST BE COORDINATED AND APPROVED BY CONSTRUCTION MANAGER PRIOR TO INSTALLATION.
- 14. PROVIDE A BACKFLOW PREVENTION DEVICE AT ALL CONNECTIONS TO MECHANICAL EQUIPMENT, IRRIGATION, VENDING MACHINES, ETC. AS REQUIRED BY CODE AND LOCAL AUTHORITIES. PLUMBING CONTRACTOR IS TO VERIFY WITH THE LOCAL AUTHORITY THE TYPE OF BACKFLOW PREVENTION DEVICE REQUIRED FOR ALL APPLICATIONS PRIOR TO INSTALLATION.
- 15. PROVIDE TRAP PRIMERS ON ALL FLOOR DRAINS.
- 16. ALL STRUCTURAL PENETRATIONS (SLEEVES, BLOCKOUTS, ETC.) ARE TO BE LOCATED AND COORDINATED IN THE FIELD BY THE PLUMBING CONTRACTOR IN RELATION TO THE REQUIREMENTS OF FINAL EQUIPMENT AND FIXTURES SELECTED.
- 17. PROVIDE AN EXPANSION JOINT OR FABRICATED EXPANSION LOOP ON ALL PIPING SYSTEMS THAT CROSS BUILDING EXPANSION JOINTS.
- 18. THE USE OF RISER CLAMPS TO SUPPORT VERTICAL PIPE ALONG WALLS, OR COLUMNS IS PROHIBITED. PROVIDE B-LINE 22 STRUT & B-2000 PIPE CLAMPS ON 8'-0" CENTERS & SUPPORT ALL PIPE RISES AT BASE OF RISER.
- 19. CARRIERS FOR THE WATER CLOSETS SHALL BE PROVIDED WITH THE NECESSARY ACCESSORIES TO ACCOMMODATE DIFFERENT WALL THICKNESSES. SEE ARCHITECTURAL DRAWINGS.
- 20. PLUMBING CONTRACTOR SHALL VERIFY VOLTAGE, PHASE AND WIRE SIZE OF PLUMBING EQUIPMENT REQUIRING ELECTRICAL CONNECTION WITH ELECTRICAL CONTRACTOR PRIOR TO PURCHASE OF EQUIPMENT
- 21. SANITARY VENTS MUST TERMINATE A MINIMUM OF 10 FT. FROM OR 2 FT. ABOVE AIR INTAKES, WINDOWS OR VENT SHAFTS.
- 22. INDIRECT WASTE RECEPTORS MUST BE LOCATED WHERE READILY ACCESSIBLE FOR INSPECTION AND CLEANING.
- 23. ALL DIRECT CONNECT APPLIANCES SHALL BE INDIVIDUALLY PROTECTED AGAINST BACKFLOW.
- 24. ALL INDIRECT WASTE PIPING SHALL DISCHARGE THROUGH AN AIR GAP OR AIR BREAK INTO A WASTE RECEPTOR. ALL INDIRECT WASTE PIPING THAT EXCEEDS TWO (2) FEET IN DEVELOPED LENGTH MEASURED HORIZONTALLY OR FOUR (4) FEET IN TOTAL DEVELOPED LENGTH, SHALL BE TRAPPED.
- 25. PLUMBING CONTRACTOR SHALL HANG ALL PIPING FROM THE STRUCTURAL MEMBERS (W–SHAPES, BAR JOISTS). PIPING SHALL NOT BE SUPPORTED FROM THE METAL DECK.
- 26. COORDINATE LOCATIONS OF ROOF DRAINS WITH ARCHITECTURAL DRAWINGS.
- 27. PROVIDE FIELD TESTABLE BACKFLOW PREVENTION DEVICE IN LINES SERVING HOSE BIBBS.
- 28. ALL PLUMBING LINES ARE TO BE LOCATED A MINIMUM OF 12" AWAY FROM THE LEADING EDGES OF ANY PIPE TO THE ESFR FIRE SPRINKLER (COORDINATE WITH SPRINKLER CONTRACTOR PRIOR TO INSTALLATION).

### FIRE PROTECTION GENERAL NOTES:

- A. THESE DRAWINGS ARE DIAGRAMMATIC AND INDICATE THE GENERAL EXTENT OF WORK. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE COORDINATION AND PROPER INSTALLATION OF ALL FIRE PROTECTION SYSTEMS.
- B. THE CONTRACTOR SHALL PROVIDE ALL MISCELLANEOUS SUPPORTING STEEL ETC. FOR THE PROPER INSTALLATION OF ALL FIRE PROTECTION SYSTEMS.
- C. THE CONTRACTOR SHALL COORDINATE FLOOR, WALL AND ROOF PENETRATIONS WITH THE GENERAL TRADES CONTRACTOR.
- D. PIPING SHALL NOT BE LOCATED OVER THE TOP OF ANY ELECTRICAL PANELS OR EQUIPMENT.
- E. THE CONTRACTOR SHALL COORDINATE THE LOCATION OF SPRINKLER HEADS WITH THE ARCHITECTURAL REFLECTED CEILING PLANS. ALL SPRINKLER HEADS ARE TO BE LOCATED IN THE CENTER OF CEILING TILES UNLESS OTHERWISE INDICATED.
- F. A LICENSED FIRE PROTECTION CONTRACTOR SHALL PREPARE SUBMITTAL DRAWINGS AND HYDRAULIC CALCULATIONS FOR EACH TENANT SPACE BASED ON THAT TENANT'S REQUIREMENTS FOR DESIGN DENSITY, OWNER'S INSURANCE UNDERWRITER, BUILDING DEPARTMENT AND/OR LOCAL FIRE AUTHORITY REQUIREMENTS, WHICHEVER IS MOST STRINGENT.
- G. IT IS THE FIRE PROTECTION CONTRACTOR'S RESPONSIBILITY TO VERIFY EACH TENANT'S DESIGN DENSITY WITH AGREED UPON LEASE DOCUMENTATION AND THAT TENANT'S PROTOTYPE OR INSURANCE UNDERWRITERS REQUIREMENTS.
- H. SHOP DRAWING REVIEW DOES NOT RELIEVE FIRE PROTECTION CONTRACTOR FROM RESPONSIBILITY TO MEET EACH TENANT'S REQUIREMENTS FOR SPRINKLER COVERAGE.
- I. FIRE PROTECTION CONTRACTOR IS RESPONSIBLE FOR VERIFYING ANY HIGH PILE STORAGE REQUIREMENTS OF FUTURE TENANTS AND PROVIDING AN INCOMING SPRINKLER SERVICE SIZE AND RISERS TO MEET THE REQUIREMENTS FOR ADEQUATE SPRINKLER COVERAGE.
- J. THIS DRAWING IS FOR REFERENCE ONLY. FIRE PROTECTION CONTRACTOR FOR THIS PROJECT SHALL PROVIDE FULLY DETAILED SPRINKLER PLANS AND CALCULATIONS.
- K. INSTALL SPRINKLER PIPING TIGHT TO UNDERSIDE OR ROOF DECK WITH COMPLETE DISTRIBUTION GRID AND TURNED UP HEADS AS REQUIRED PER CODE.
- L. PROVIDE TURNED UP SPRINKLER HEADS THROUGHOUT BUILDING IN AREAS WITHOUT CEILINGS.
- M. EXISTING SPRINKLER SYSTEM TO BE MODIFIED TO ALLOW FOR EACH FLOOR TO BE ZONED INDEPENDENTLY.

NOTES:

1. ALL FIXTURES, EQUIPMENT, TRIM, FITTINGS, ETC. SHALL COMPLY WITH LOCAL, STATE AND/OR FEDERAL REGULATIONS AND CODES, INCLUDING BUT NOT LIMITED TO WATER AND ENERGY CONSERVATION CODES, AND THE AMERICANS WITH DISABILITIES ACT (ADA). THE SCHEDULE REFLECTS FIXTURES AND EQUIPMENT WHICH ARE MINIMUM CRITERIA AND SHALL BE THE BASIS FOR CONTRACTORS BASE BID. WHERE SPECIFIED FIXTURES AND/OR EQUIPMENT ARE NOT IN COMPLIANCE WITH GOVERNING CODES AND REGULATIONS, THE CONTRACTOR SHALL PROVIDE AN ALTERNATE BID FOR THE SUBSTITUTIONS OF COMPLYING FIXTURES, EQUIPMENT, FITTINGS, ETC. THE ABSENCE OF AN ALTERNATE BID SHALL BE CONSTRUED TO MEAN THAT THE CONTRACTORS BASE BID INCLUDES ALL COSTS NECESSARY TO MEET ALL REGULATIONS AND CODES.

2. PROVIDE CAULK ALL AROUND WATER CLOSETS, URINALS AND WALL MOUNTED LAVATORIES AT TILED RESTROOM WALL

SHEET NUMBER

**P101** 

PC TO PROVIDE WATER HAMMER ARRESTERS BY SIOUX CHIEF, PRECISION PLUMBING PRODUCTS, WATTS OR APPROVED EQUIVALENT WITH PISTON AND 0-RING CONSTRUCTION, HAVING PDI #WH-201, ASSE #1010 OR ANSI #A112.26.1M CERTIFICATION. SIZE AND INSTALL PER PDI #WH-201 STANDARD OR MANUFACTURER'S INSTRUCTION. THE TABLES ABOVE ARE BASED ON THE SIOUX CHIEF PRODUCT LINE. IF PRESSURE IS IN EXCESS OF 65 PSIG THEN UPSIZE THE ARRESTER BY ONE (EXAMPLE: AN 'A' ARRESTER WOULD BECOME A 'B' ARRESTER.)

> 7 WATER HAMMER ARRESTERS P102 SCALE: NOT TO SCALE

## **GENERAL NOTES** (APPLIES TO ALL ELECTRICAL DRAWINGS)

- ALL WORK SHALL BE COORDINATED WITH THE WORK OF OTHER TRADES TO AVOID INTERFERENCES AND CONFLICTS. REFER TO THE DRAWINGS OF THE RESPECTIVE SYSTEMS PRIOR TO SUBMISSION OF BIDS FOR ADDITIONAL WORK WHICH MAY BE REQUIRED AS PART OF THIS WORK. NO ALLOWANCES WILL BE MADE FOR THE LACK OF COORDINATION BETWEEN DISCIPLINES OR SYSTEMS AND EQUIPMENT.
- THE WORK SHALL BE COORDINATED WITH THE ARCHITECTURAL DOCUMENTS FOR THE EXACT LOCATION OF LIGHT FIXTURES, EQUIPMENT, DEVICES, ETC. TO ASSURE PROPER PLACEMENT OF SAID DEVICES AND EQUIPMENT. SWITCHES SHALL BE PLACED ON LATCH SIDE OF ALL DOOR OPENINGS. WHERE A CONFLICT EXISTS BETWEEN ANY TWO DOCUMENTS, NOTIFY THE CONSTRUCTION MANAGER PRIOR TO ANY INSTALLATION FOR RESOLUTION
- THE CONTRACTOR SHALL VERIFY ALL EQUIPMENT BEING INSTALLED PRIOR TO INSTALLATION TO ASSURE THAT THE FEEDER, DISCONNECT, STARTER, OVERCURRENT PROTECTION, ETC. MATCHES THE ACTUAL NAMEPLATE DATA AS SUPPLIED BY THE MANUFACTURER. FULLY COORDINATE EQUIPMENT TO BE PROVIDED TO ASSURE NO ADDITIONAL COSTS TO THE CONTRACT.
- COORDINATE ALL CUSTOM RECEPTACLES AND CIRCUITS WITH EQUIPMENT FURNISHED BY AARONS. PROVIDE OUTLETS COMPATIBLE WITH EQUIPMENT REQUIREMENTS.
- SUPPORT ALL ELECTRICAL CONDUIT, RACEWAY, OUTLET AND JUNCTION BOXES VIA THREADED ROD OR DEDICATED INDEPENDENT #12 GA GALVANIZED TIE WIRE. DO NOT SECURE ANY ITEM EXCEPT LIGHT FIXTURES TO CEILING CONSTRUCTION OR SUPPORT WIRES EXCEPT: ABOVE "T-BAR" CEILING, ONE (1) 3/4" OR SMALLER CONDUIT MAY BE SUPPORTED BY SUPPORT WIRES. SUPPORT MULTIPLE CONDUITS FROM ADDITIONAL WIRES COMPLYING WITH NEC ART. 300.11.
- ALL PANELS SHALL HAVE CORRECT NAMEPLATE ON THE COVER, LABELED CIRCUIT NUMBERING AND UPDATED, TYPEWRITTEN PANELBOARD DIRECTORIES. EC SHALL USE ACTUAL AS-BUILT INFORMATION AND SHALL NOT SIMPLY USE COPIES OF DESIGN PANEL SCHEDULES FROM DRAWINGS. THE EC IS RESPONSIBLE FOR DOCUMENTING ALL AS-BUILT INFORMATION IN THE FORM OF "RED-LINED" AS-BUILT DRAWINGS.
- ALL CONDUIT PENETRATIONS OF FIRE RATED WALLS, FLOORS, AND PARTITIONS SHALL BE FIRESTOPPED WITH A U.L. RECOGNIZED PRODUCT RESTORING THE INTEGRITY OF THE BARRIER PENETRATED. UTILIZE NELSON "FSP" FIRESTOP PUTTY, "PCS" PIPE CHOKE SYSTEM, OR "CLK" FIRESTOP CAULK TO PROVIDE A U.L. LISTED ASSEMBLY, OR APPROVED ALTERNATE.
- CONTRACTOR SHALL TEST EACH AND EVERY WIRING DEVICE AND LIGHT FIXTURE FOR CORRECT OPERATION AND DOCUMENT PROJECT VOLTAGE READINGS. PROVIDE COPY OF LIGHTING AND POWER FLOOR PLANS WITH DEVICES AND FIXTURES HIGHLIGHTED TO INDICATE SUCCESSFUL TESTING AND OPERATION. SUBMIT TO THE CONSTRUCTION MANAGER PRIOR TO REQUEST FOR FINAL CONSTRUCTION REVIEW.
- REFER TO EQUIPMENT CUT SHEETS AND MANUFACTURER'S DATA FOR ROUGH IN LOCATIONS OF ELECTRICAL CONNECTIONS AND INTERCONNECTIONS OF ALL EQUIPMENT.
- CONTRACTOR SHALL COORDINATE ELEVATIONS AND PIPING SYSTEM SLOPES SUCH THAT DUCTWORK, PIPING, RACEWAY, CABLE TRAY, AND ASSOCIATED EQUIPMENT IS INSTALLED AT UNIFORM ELEVATIONS WITH MINIMAL OFFSET. PROVIDE COORDINATION DRAWING TO CONSTRUCTION MANAGER FOR REVIEW PRIOR TO EQUIPMENT ORDERS AND ROUGH-IN.

Packet Page 67 of 170

- COORDINATE WITH SPECIALTY SYSTEMS VENDORS TO PROVID Κ. CABLING, POWER AND CONTROL INTERFACES AS REQUIRED OPERABLE SYSTEMS.
- BEFORE ORDERING AND INSTALLATION OF NEW DISTRIBUTION EQUIPMENT, THE CONTRACTOR SHALL VERIFY THE FAULT CURRENT AVAILABLE AT THE SERVICE TRANSFORMER WITH THE POWER COMPANY AND CONDUCT A FULL SHORT CIRCUIT COORDINATION STUDY TO CONFIRM REQUIRED CIRCUIT BREAKER ADJUSTABLE SETTINGS AND FUSE RATINGS FOR ALL EQUIPMENT TO BE PROVIDED. PROVIDE REPORT INDICATING RECOMMENDED SETTINGS AND TRIP CURVES TO CONSTRUCTION MANAGER.
- M. ALL RECEPTACLES, JUNCTION BOXES, AND VOICE/DATA RECEPTACLES SHALL BE MOUNTED 18" A.F.F. TO CENTERLINE OF RECEPTACLE, UNLESS NOTED OTHERWISE.
- N. FLOOR RECEPTACLES SHALL BE WIRED USING UNDERSLAB CONDUIT AND WIRING AND SHALL BE INSTALLED AS INDICATED ON DRAWINGS. FIELD COORDINATE ALL UNDERGROUND ELECTRICAL CONDUIT WITH OTHER DISCIPLINES UNDERGROUND INSTALLATIONS TO AVOID CONFLICTS. IF LOCATION INDICATED IS IN CONFLICT WITH BUILDING UTILITIES OR STRUCTURE, NOTIFY THE CONSTRUCTION MANAGER OF SAID CONFLICTS AND OBTAIN ALTERNATE INSTRUCTIONS BEFORE PROCEEDING WITH WORK.
- 0. ALL VOICE, DATA, AND ELECTRICAL COVER PLATES SHALL BE IVORY AND SHALL BE MOUNTED STRAIGHT AND ALIGNED.
- P. NEVER PLACE OUTLETS OR DEVICES BACK TO BACK AT OPPOSITE FACES OF THE WALL.
- Q. CABLE TV COAXIAL CABLE AND HOOKUP (NIC), INSTALLED BY AARONS. R. COMPUTER CABLE TO BE INSTALLED SHALL BE TWISTED PAIR CATEGORY #5 – BY FIRE CODE.
- S. ALL WIRING SHALL MEET ALL APPLICABLE CODES.
- T. FOR THE MECHANICAL/PLUMBING EQUIPMENT (GAS FIRED UNIT HEATER, EXHAUST FANS, ELECTRIC WATER HEATER, CONDENSING UNITS, GAS FIRED DUCT FURNACE/FAN COIL UNITS, ETC.), THE EC SHALL REFER TO THE MECHANICAL AND PLUMBING PLANS FOR INFORMATION AND PROVIDE/INSTALL MATERIALS AS SCHEDULED THERE. SEE KEYED NOTES ON DWG. E201 AND ELECTRICAL PANEL SCHEDULES ON DWG. E203.
- U. EC SHALL PROVIDE MAXIMUM NUMBER OF CIRCUITS IN A SHARED CONDUIT AS ALLOWED BY NEC CONDUIT FILL REQUIREMENTS.
- V. ALL EXPOSED CONDUIT SHALL BE EMT. IF ALLOWED BY CODE, E.C. SHALL USE MC CABLE IN WALLS AND ABOVE SUSPENDED CEILINGS. MC CABLE MAY ALSO BE USED IN OPEN DECK ENVIRONMENTS IF INSTALLED ALONGSIDE STRUCTURAL COMPONENTS WITH NEAT 90 DEGREE TURNS AND SUPPORTED TO STRUCTURE EVERY 3'-0" MINIMUM.

41

#### 42 IV. STAFF ANALYSIS:

Plans received from the applicant include the signage designs for a wall sign and a
 proposed coming soon banner submitted by Commercial Signs, pages 1-5 dated 11/16/21.

45 Also included are drawings from the construction set submitted for permit, A001, A101,

- 46 A400 and A401 dated 1/27/22 by Architectural Design Guild.
- 47

48 The tenants are allowed wall mounted signage of up to 9% of the elevations on the

building. The proposed permanent wall mounted sign is is 25'x 9'-2'' = 229 s.f. The

existing façade of the space is noted as 416"x 522" = 1508 s.f. x 9% = 135 s.f., however, this area is only a partial of the facade, the tower. The actual front elevation is irregularly

this area is only a partial of the façade, the tower. The actual front elevation is irregularly designed. By Staff calculation, the storefront area is 3356 s.f. x 9% = 302 s.f., which puts

- the size of the sign into compliance. See attached calibrated drawing by staff.
- 54

The other exterior sign is a banner would not be permitted, unless made permanent of
5/8" min. thickness substrate. All other signs shown are interior on the sign package
submitted by Commercial Signs, pages 1-5 dated 11/16/21. See page 5.

58

59 The proposed Use is mentioned elsewhere in the Zoning Code as a Special Use and

therefore, is not permitted per ord. no.6669, therefore must be added as a Permitted Use.
Staff suggests that it be added also at this particular address.

62

Architect's Plans include interior layout of a 9146 sf tenant space. Aaron's typical rents
 both electronic equipment and appliances as well as furniture. A furniture store is a
 permitted use, but not the other 2 uses. Home rental could also include furniture in the
 opinion of staff, as furniture stores are a Permitted Use.

67

Signs require no special approval of the 'B-5' since covered by the building code and size
 is covered by Ord. No. 6669.

- 70
- 71 VI. STAFF RECOMMENDATIONS:

#### 72

#### 73 Suggested Motion:

I move for Recommended Approval to amend a 'B-5', Ord 6669 (as amended by ords.
nos.6797, 6844, 6867, 6961, 7019, and 8527) to add to the list of permitted Uses, "Equipment
Rental, Home and General" at 13939 New Halls Ferry by changing Ord. No. 6669, Section 2,
paragraph 1. Permitted Uses, by adding the following subparagraph a.

- 78
- 79 80

a. "Equipment Rental, Home and General" at 13939 New Halls Ferry.

- 80 81
- 81

(End of report and suggested motion)

### **CITY OF FLORISSANT**

#### **Public Hearing**

In accordance with 405.135 of the Florissant Zoning Code a Public Hearing will be held by the City Council of Florissant, MO. in the Council Chambers, 955 rue St. Francois, on Monday, May 23, 2022 at 7:00 p.m. on the following proposition:

To amend 'B-5' Ord. No. 6669 to add "Equipment Rental, Home and General" as a permitted use located at 13939 New Halls Ferry (Aaron's). Citizens will have an opportunity to be heard. Anyone with special needs should contact the City Clerk at least 5 days before said public hearing by calling 839-7630 or email kgoodwin@florissantmo.com.

#### SUBSTITUTE BILL NO. 9784

#### ORDINANCE NO.

#### ORDINANCE TO APPROVE A SPECIAL USE PERMIT TO ALLOW FOR A WINE BAR IN A HB "HISTORIC BUSINESS DISTRICT" LOCATED AT 150 WASHINGTON.

WHEREAS, the Florissant Zoning Ordinance authorizes the City Council of the City of Florissant, by Special Permit, after public hearing thereon, to permit the location and operation of a tavern, nightclub or cocktail lounge in the City of Florissant; and

13 WHEREAS, an application has been filed by Tina White d/b/a House of QA to allow for the 14 operation of Wine Bar located at 150 Washington, and

15 WHEREAS, the Planning and Zoning Commission at their meeting on May 2<sup>nd</sup>, 2022 16 recommended that a Special Permit be granted; and

17 WHEREAS, due notice of public hearing no. 22-05-014 on said application to be held on the 23 18 day of May, 2022 at 7:00 P.M. by the Council of the City of Florissant was duly published, held and 19 concluded; and

20 WHEREAS, the Council, following said public hearing, and after due and careful consideration, 21 has concluded that the issuance of a Special Permit for a Wine Bar would be in the best interest of the 22 City of Florissant. 23

NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF FLORISSANT, ST. LOUIS COUNTY, MISSOURI, AS FOLLOWS:

27 Section I: A Special Use Permit is hereby granted to Tina White d/b/a House of QA to allow for 28 the operation of Wine Bar located 150 Washington with the following stipulations: 29

1. Add shrubs and landscaping to the buffer yard along Harrison to screen the small parking lot of 5 spaces.

2. Golf Cart parking is to be accessible from Harrison Street only.

3. Occupant load to be 42 until SUP is amended or duly recorded shared parking is approved by the City Attorney and properly recorded.

4. Fencing is to be installed to screen adjacent residential properties.

36			
37	Section 2: This or	dinance shall	become in force and effect immediately upon its passage and
38	approval.		
39	Adopted this	day of	, 2022.

<ul> <li>Subject: Request recommended approval of a Special Use, located at 150 Wash</li> <li>(House of QA) to allow for a Wine Bar in an existing 'HB' Historic Business Dist</li> </ul>							
19	STAFF REPORT						
20 21	<u>CASE NUMBER PZ-050222-4</u> I. <u>PROJECT DESCRIPTION</u> :						
22 23 24 25	This is a request for <b>recommended approval</b> of a Special Use, located at <b>150 Washington</b> (House of QA) to allow for a Wine Bar in an existing 'HB' Historic Business District.						
26 27	II. EXISTING SITE CONDITIONS:						
28 29 30 31	The existing property at <b>150 Washington</b> is a Special Use in this Zoning District, most akin to the definition of a Tavern, Nightclub or Cocktail Lounge, in 405.161,D, 6, p.						
32	Drawings submitted: Sheet 1/4 2/4, 3/4, and 4/4 by Design Design Alliance, attached.						
33 34 35 36	The site is an Historic Landmark and therefore was reviewed by LHDC with recommendations.						
37 38 39	Number of parking: 15 shown on plan, additional golf cart parking recommended by LHDC near the Washington St entrance.						

Packet Page 92 of 170

۵ ک

40 A reverse calculation of minimum number of people for the spaces shown to consider: 41 a. Parking should be based upon total number of seats in the Wine Bar plus 42 employees on the max. shift. 43 a. 2 spaces per 3 employees. Say 3, then 2 spaces used. 44 b. 1 space for every 3 seats =  $13x^3 = 39$  max. seating based on the above. 45 c. Total Occupant Load would therefore be 42 including employees. 46 47 There is currently no additional signage or landscaping shown, however, great care was 48 taken to show the development of parking to preserve the existing trees on site. 49 50 51 III. SURROUNDING PROPERTIES: 52 53 The property is bordered by one other commercial property owned by the petitioner at 54 100 Washington to the West along with a residence zoned HR at 115 Harrison ST, it is 55 also bounded by an AT&T property to the East at 175 Washington, also in the 'HB' 56 Historic Business District. 57 58 59 **IV. STAFF ANALYSIS:** 60 Yard, area, height and bulk regulations of the HB District may be found in Section 61 405.161 of the City Code. 62 63 LHDC Review Comments: There was one vard restriction reviewed by the LHDC for the site. The LHDC's 64 responsibility for the project is to make any recommendations to P&Z for the Special Use 65 and consider any proposed violations of the performance regulations in the Zoning Code. 66 The following issues were discussed at their meeting of 4/25/22 meeting: 67 68 69 A. There was a previous SUP approved for a much more ambitious project here, 70 however, the scope of the project was too expensive (\$800,000). LHDC took this 71 prior approval as a point from which to make its decisions both for historic 72 preservation and development. LHDC considered the porch addition as previously approved by prior action because the design concept has not changed 73 74 and to some degree the kitchen addition as well. 75 B. There is a regulation that requires a parking lot that occurs on a front yard and 76 across the street from a residentially Use, to have a 20 foot landscaped buffer vard 77 and a 6' closed fence. This is an unusual property which has 2 frontages, one 78 each on Washington and Harrison. The proposed site plan shows a 5' landscaped 79 80 bufferyard on Harrison, however, there is another 15 feet of green space in the right-of-way that currently exists alongside the asphalt paving of Harrison St. A 81 closed fence would be problematic at 20 feet without tree removal. The front 82 setback is 15 feet and fences are otherwise not permitted in a front yard. 83 84

85

86						
87						
88	LHDC made the following stipulations/recommendations:					
89	1. Add shrubs and landscaping to the buffer yard along Harrison to screen the small					
90	parking lot of 5 spaces.					
91	2. Add a space nearest the first space at the Washington entrance to allow for golf					
92	cart parking.					
93 04	3. Recommended approval as stipulated.					
94 05						
95 96	The petitioner proposes small gatherings, music and natural setting with prepared snacks and small amount of food.					
90 97	and small amount of food.					
97 98	There are 2 small additions planned the structure:					
99 99	<ul> <li>Small kitchen addition on the back of the structure.</li> </ul>					
100						
100	• Porch addition onto the front of the structure.					
101	The existing barn is to be removed, the existing chicken coop will be kept as it is mentioned in the Historic Inventory write-up of the property.					
102	mentioned in the Historic inventory write-up of the property.					
103	VI. STAFF RECOMMENDATIONS:					
105	VI. STAFF RECOMMENDATIONS.					
105	A floor plan with seating arrangement could solidify the occupant load if desired,					
107	otherwise, the occupant load will be set at the occupant load calculation above until a					
108	greater number of spaces is presented and approved.					
109	S and the second second second second second					
110	Otherwise, since a more ambitious project was previously approved, staff agrees that the

112	Resource.					
113						
114	Suggested Motion for 150 Washington (House of QA)					
115						
116	I move to recommend approval of a Special Use, to allow a Wine Bar, located at 150					
117	Washington (House of QA), in an existing 'HB' Historic Business District, with the					
118	following stipulations to become part of the record:					
119						
120	1. Add shrubs and landscaping to the buffer yard along Harrison to screen the small					
121	parking lot of 5 spaces.					
122	2. Add a space nearest the first space at the Washington entrance to allow for golf					
123	cart parking.					
124	3. Occupant load to be 42 until SUP is amended or duly recorded shared parking is					
125	approved by the City Attorney and properly recorded.					
126	(end of Report and Suggested Motion)					
120	(end of report and buggested motion)					

•

#### CITY OF FLORISSANT

#### MEMO

TO: Chief Timothy Fagan

#### DATE: May 12, 2022

cc: Councilman Harris

- THRU: Mayor Timothy Lowery
- THRU: Todd Hughes Director of Public Works

FROM: Jason Timme Street Superintendent

an

SUBJECT: Request Was Made to Place Stop Signs at the 4-way Intersection at Swan and Flamingo, a 3-Way Stop at Bobolink and Flamingo and a Stop Sign at the Intersection of Chickadee and Flamingo

The Traffic Commission reviewed this request at its May 10, 2022 meeting. The Traffic Commission made a recommendation to place stop signs on Swan, northbound and southbound at Flamingo, on Chickadee, southbound at Flamingo, and on Bobolink, northbound at Flamingo (see attached Minutes, Items 06/22, 07/22 and 08/22). Page 4 Mayor's Advisory Traffic Commission 05/10/22

#### 05/22 REQUEST STOP SIGN ON FLORISSANT PARK AT DANIEL BOONE TO CREATE A THREE-WAY STOP INTERSECTION WARD 2 Tabled

Request was made to place stop sign on Florissant Park at Daniel Boone to create a three-way stop intersection. Zach Schneider referenced the e-mail from Councilman Manganelli requesting a stop sign on Florissant Park coming towards Daniel Boone. He said the purpose would be to stop vehicles as they enter this part of the neighborhood to create a safer intersection. He said it already has a two-way stop and this would create a three-way stop intersection. Zach Schneider said he was there today and it is actually a one-way stop there. He said it is on Daniel Boone coming towards Florissant Park. He said he called the Councilman to tell him about this and said the Councilman said he understood that. Zach Schneider said the Councilman asked him to relay a message to the Traffic Commission asking that this item be tabled until he can re-evaluate this and then he will resubmit an amended request.

Item 05/22 was dropped from the Agenda.

06/22 REQUEST STOP SIGNS ON SWAN, NORTHBOUND AND SOUTHBOUND, AT FLAMINGO TO CREATE OF FOUR-WAY STOP INTERSECTION WARD 1 Approved with Amendment

07/22 REQUEST STOP SIGN ON CHICKADEE, SOUTHBOUND, AT FLAMINGO WARD 1 Approved Page 5 Mayor's Advisory Traffic Commission 05/10/22

### 08/22 REQUEST STOP SIGN ON BOBOLINK, NORTHBOUND, AT FLAMINGO TO CREATE A THREE-WAY STOP INTERSECTION WARD 1 Approved with Amendment

Jason Timme said these three items are all tied together. Donna Smith-Pupillo referenced the Emergency Powers from the Police Department. Jason Timme said the stop signs went up because of the Emergency Powers and he put them on the Traffic Commission Agenda so the stop signs would stay after the emergency. He said he feels these signs need to be there. He said these are just for the streets that come into Flamingo, not the ones on Flamingo. He said he feels you do have to stop before you enter Flamingo. Donna Smith-Pupillo said there were yield signs on Swan and the stop signs would replace the yield signs. Jason Timme said yes, they would replace the yield signs on Swan. He said Swan, Chickadee and Bobolink are streets that are coming into Flamingo. He said they would all have to stop before they turn onto Flamingo. Donna Smith-Pupillo said Swan had yield signs but the others did not. Jason Timme said Chickadee had a sign that just said "Dangerous Intersection". Donna Smith-Pupillo said if you are over on Mullanphy, all those intersecting streets end with a stop sign. Jason Timme said that instead of waiting for the Emergency Orders to run out, we take them out, and then realize that we should have just left them, at that point we are just going back and forth. He said these signs just need to stay. Donna Smith-Pupillo agreed. Teri Reiter asked if the signs are there now. Jason Timme said they are there now under Page 6 Mayor's Advisory Traffic Commission 05/10/22

the Emergency Powers, along with two more on Flamingo. Greg Keil said this is something that we addressed a few months ago. Donna Smith-Pupillo said she admits that she got really angry when she drove down the street and saw the signs on Flamingo. She was wondering how in the world these signs wound up here. She said she called the Street Department and that is when she heard about the Emergency Powers. She said her concern is that we make a decision here and then there is no feedback. She said she knows she is not an elected official or the police, but there is no feedback loop. There is nothing that feeds back that comes and says this is the decision that they made and this is why we issued an Emergency Order. She said there is no back and forth communication. She said that is what she is concerned about. Greg Keil said there are many avenues to get this done, and we are one of them. Don Adams said but they cut us out of the loop. Jason Timme said he could try to get that feedback for us. He said he didn't get any explanation on this either. Donna Smith-Pupillo said she would just appreciate the feedback so she didn't feel like they are just wasting our time. At least if we had the feedback, then we would at least feel like they heard our point of view. Teri Reiter asked how that Emergency thing happened. Jason Timme said the Chief and our Traffic Engineer, which would be our Public Works Director, made the decision to issue the Emergency Order. He said why the order was issued, he doesn't know. He said he doesn't know the reasoning behind it. Donna Smith-Pupillo said that was just her concern in having the feedback loop. She said what will happen is people get upset like

Page 7 Mayor's Advisory Traffic Commission 05/10/22

the one we just did on Shackelford. They really want it, so they will just go to the Police and have them put it put through as an Emergency Order, and then we'll turn around and be doing this again. Jason Timme said he will try to get a better explanation for the Committee. Just so we know why we were circumvented. Donna Smith-Pupillo said that would be helpful. Greg Keil asked if this is only temporary right now. Jason Timme said yes. It is a 90 day order, so after 90 days they would either have to do another Emergency Order or the stop signs would come down. That is why he wanted to do these other ones before that so we didn't take them down and then just realize they should stay there anyway. Teri Reiter said, in your opinion, they should stay there. Donna Smith-Pupillo said she feels they should stay there. Jason Timme said the ones entering Flamingo should stay there. The ones on Flamingo should not. Zach Schneider said he would like to make a motion to amend the request to align with the email dated April 29, 2022 from Jason Timme to MaryAnn Fitzpatrick. Donna Smith-Pupillo said the stop signs should be placed on Swan southbound at Flamingo, Swan northbound at Flamingo, Chickadee southbound at Flamingo and Bobolink northbound at Flamingo. Zach Schneider said he makes a motion to approve those only.

Motion was made by Zach Schneider to make a recommendation not to place stop signs on Flamingo, and made a recommendation to place stop signs on Swan, northbound and southbound at Flamingo, Chickadee, southbound at Flamingo, and Bobolink, northbound at Flamingo. Motion was seconded by Dave Clasby. On the roll call the commission voted: Page 8 Mayor's Advisory Traffic Commission 05/10/22

Donna Smith-Pupillo – yes, Don Adams – yes, Greg Keil – yes, Teri Reiter – yes,

Zach Schneider - yes, and Dave Clasby - yes. Motion carried. Items 06/22, 07/22 and 08/22

were dropped from the Agenda.

#### **MISCELLANEOUS:**

٠

There were no miscellaneous items sent to the Traffic Commission for review.

Next Traffic Commission meeting is scheduled for June 14, 2022.

#### ADJOURNMENT

No other items were brought before the Commission this evening. The meeting was

adjourned.

MaryAnn,

Todd approved this for Traffic Commission.

From: Jason Timme <> Sent: Monday, April 25, 2022 10:06 AM To: Todd Hughes <THughes@florissantmo.com> Subject: Stop signs for Traffic Commission

Todd,

In accordance with Emergency Powers memo dated 4/21/22 I am requesting to add the following stop signs to the Traffic Commission agenda to be voted on and left as permanent signs. Currently there are Yield signs at Swan entering Flamingo (there is no ordinance for these) and no signage at Chickadee or Bobolink.

Swan, Southbound at Flamingo Swan, Northbound at Flamingo Chickadee, Southbound at Flamingo Bobolink, Northbound at Flamingo

> Thanks, JT

### Florissant Police Department

Memorandum

Date: April 21, 2022

To: All Officers

From: Chief Tim Fagan

Subject: Emergency Powers- Stop Signs

Copies to: Mayor Timothy Lowery - Karen Goodwin, City Clerk – Traffic Commission – BFO Commander – Communications – Switchboard P.O. Cameron – Tod Hughes – Tom Goldkamp – Jason Timme – Sgt. Kyle Lewis

Pursuant to section 305.100 of the Florissant City Code, which states:

"SEC. 305.100. EMERGENCY, ETC., REGULATIONS.

The Chief of Police by and with the approval of the city traffic engineer is hereby empowered to make regulations necessary to make effective the provisions of the traffic ordinances of the city and to make and enforce temporary or experimental regulations to cover emergencies or special conditions. No such temporary experimental regulation shall remain in effect for more than ninety (90) days. (CODE 305.100)."

#### Request was made to place stop signs at the 4-way intersection at Swan and Flamingo, a 3 way stop at Bobolink and Flamingo and a stop sign at the intersection of Chickadee and Flamingo.

All violations will be enforced under such powers as given to the Chief of Police under the above Section 305.100 commencing this date, April 22, 2022 at 12:01 a.m.

A copy of this notice will be placed on file in the City Clerk's Office and will be kept available for any person for public inspection.

By order of

Tim Fagan Chief of Police

#### CITY OF FLORISSANT

#### MEMO

TO: Chief Timothy Fagan

DATE: May 12, 2022

cc: Councilman Harris

THRU: Mayor Timothy Lowery

THRU: Todd Hughes Director of Public Works

FROM: Jason Timme Street Superintendent

2 on

SUBJECT: Request Was Made to Place Stop Signs at the 4-way Intersection at Swan and Flamingo, a 3-Way Stop at Bobolink and Flamingo and a Stop Sign at the Intersection of Chickadee and Flamingo

The Traffic Commission reviewed this request at its May 10, 2022 meeting. The Traffic Commission made a recommendation to place stop signs on Swan, northbound and southbound at Flamingo, on Chickadee, southbound at Flamingo, and on Bobolink, northbound at Flamingo (see attached Minutes, Items 06/22, 07/22 and 08/22). Page 4 Mayor's Advisory Traffic Commission 05/10/22

4

#### 05/22 REQUEST STOP SIGN ON FLORISSANT PARK AT DANIEL BOONE TO CREATE A THREE-WAY STOP INTERSECTION WARD 2 Tabled

Request was made to place stop sign on Florissant Park at Daniel Boone to create a three-way stop intersection. Zach Schneider referenced the e-mail from Councilman Manganelli requesting a stop sign on Florissant Park coming towards Daniel Boone. He said the purpose would be to stop vehicles as they enter this part of the neighborhood to create a safer intersection. He said it already has a two-way stop and this would create a three-way stop intersection. Zach Schneider said he was there today and it is actually a one-way stop there. He said it is on Daniel Boone coming towards Florissant Park. He said he called the Councilman to tell him about this and said the Councilman said he understood that. Zach Schneider said the Councilman asked him to relay a message to the Traffic Commission asking that this item be tabled until he can re-evaluate this and then he will resubmit an amended request.

Item 05/22 was dropped from the Agenda.

06/22 REQUEST STOP SIGNS ON SWAN, NORTHBOUND AND SOUTHBOUND, AT FLAMINGO TO CREATE OF FOUR-WAY STOP INTERSECTION WARD 1 Approved with Amendment

07/22 REQUEST STOP SIGN ON CHICKADEE, SOUTHBOUND, AT FLAMINGO WARD 1 Approved Page 5 Mayor's Advisory Traffic Commission 05/10/22

#### 08/22 REQUEST STOP SIGN ON BOBOLINK, NORTHBOUND, AT FLAMINGO TO CREATE A THREE-WAY STOP INTERSECTION WARD 1 Approved with Amendment

Jason Timme said these three items are all tied together. Donna Smith-Pupillo referenced the Emergency Powers from the Police Department. Jason Timme said the stop signs went up because of the Emergency Powers and he put them on the Traffic Commission Agenda so the stop signs would stay after the emergency. He said he feels these signs need to be there. He said these are just for the streets that come into Flamingo, not the ones on Flamingo. He said he feels you do have to stop before you enter Flamingo. Donna Smith-Pupillo said there were yield signs on Swan and the stop signs would replace the yield signs. Jason Timme said yes, they would replace the yield signs on Swan. He said Swan, Chickadee and Bobolink are streets that are coming into Flamingo. He said they would all have to stop before they turn onto Flamingo.

Donna Smith-Pupillo said Swan had yield signs but the others did not. Jason Timme said Chickadee had a sign that just said "Dangerous Intersection". Donna Smith-Pupillo said if you are over on Mullanphy, all those intersecting streets end with a stop sign.

Jason Timme said that instead of waiting for the Emergency Orders to run out, we take them out, and then realize that we should have just left them, at that point we are just going back and forth. He said these signs just need to stay. Donna Smith-Pupillo agreed. Teri Reiter asked if the signs are there now. Jason Timme said they are there now under

#### Page 6 Mayor's Advisory Traffic Commission 05/10/22

the Emergency Powers, along with two more on Flamingo. Greg Keil said this is something that we addressed a few months ago. Donna Smith-Pupillo said she admits that she got really angry when she drove down the street and saw the signs on Flamingo. She was wondering how in the world these signs wound up here. She said she called the Street Department and that is when she heard about the Emergency Powers. She said her concern is that we make a decision here and then there is no feedback. She said she knows she is not an elected official or the police, but there is no feedback loop. There is nothing that feeds back that comes and says this is the decision that they made and this is why we issued an Emergency Order. She said there is no back and forth communication. She said that is what she is concerned about. Greg Keil said there are many avenues to get this done, and we are one of them. Don Adams said but they cut us out of the loop. Jason Timme said he could try to get that feedback for us. He said he didn't get any explanation on this either. Donna Smith-Pupillo said she would just appreciate the feedback so she didn't feel like they are just wasting our time. At least if we had the feedback, then we would at least feel like they heard our point of view. Teri Reiter asked how that Emergency thing happened. Jason Timme said the Chief and our Traffic Engineer, which would be our Public Works Director, made the decision to issue the Emergency Order. He said why the order was issued, he doesn't know. He said he doesn't know the reasoning behind it. Donna Smith-Pupillo said that was just her concern in having the feedback loop. She said what will happen is people get upset like

#### Page 7 Mayor's Advisory Traffic Commission 05/10/22

the one we just did on Shackelford. They really want it, so they will just go to the Police and have them put it put through as an Emergency Order, and then we'll turn around and be doing this again. Jason Timme said he will try to get a better explanation for the Committee. Just so we know why we were circumvented. Donna Smith-Pupillo said that would be helpful. Greg Keil asked if this is only temporary right now. Jason Timme said yes. It is a 90 day order, so after 90 days they would either have to do another Emergency Order or the stop signs would come down. That is why he wanted to do these other ones before that so we didn't take them down and then just realize they should stay there anyway. Teri Reiter said, in your opinion, they should stay there. Donna Smith-Pupillo said she feels they should stay there. Jason Timme said the ones entering Flamingo should stay there. The ones on Flamingo should not. Zach Schneider said he would like to make a motion to amend the request to align with the email dated April 29, 2022 from Jason Timme to MaryAnn Fitzpatrick. Donna Smith-Pupillo said the stop signs should be placed on Swan southbound at Flamingo, Swan northbound at Flamingo, Chickadee southbound at Flamingo and Bobolink northbound at Flamingo. Zach Schneider said he makes a motion to approve those only.

Motion was made by Zach Schneider to make a recommendation not to place stop signs on Flamingo, and made a recommendation to place stop signs on Swan, northbound and southbound at Flamingo, Chickadee, southbound at Flamingo, and Bobolink, northbound at Flamingo. Motion was seconded by Dave Clasby. On the roll call the commission voted: Page 8 Mayor's Advisory Traffic Commission 05/10/22

Donna Smith-Pupillo - yes, Don Adams - yes, Greg Keil - yes, Teri Reiter - yes,

Zach Schneider - yes, and Dave Clasby - yes. Motion carried. Items 06/22, 07/22 and 08/22

were dropped from the Agenda.

#### **MISCELLANEOUS:**

There were no miscellaneous items sent to the Traffic Commission for review.

Next Traffic Commission meeting is scheduled for June 14, 2022.

#### **ADJOURNMENT**

No other items were brought before the Commission this evening. The meeting was

adjourned.

Jason Timme Friday, April 29, 2022 9:31 AM MaryAnn Fitzpatrick FW: Stop signs for Traffic Commission Item 06/22

#### MaryAnn,

Todd approved this for Traffic Commission.

From: Jason Timme <> Sent: Monday, April 25, 2022 10:06 AM To: Todd Hughes <THughes@florissantmo.com> Subject: Stop signs for Traffic Commission

#### Todd,

In accordance with Emergency Powers memo dated 4/21/22 I am requesting to add the following stop signs to the Traffic Commission agenda to be voted on and left as permanent signs. Currently there are Yield signs at Swan entering Flamingo (there is no ordinance for these) and no signage at Chickadee or Bobolink.

Swan, Southbound at Flamingo Swan, Northbound at Flamingo Chickadee, Southbound at Flamingo Bobolink, Northbound at Flamingo

> Thanks, JT

Memorandum

Date: April 21, 2022

To: All Officers

From: Chief Tim Fagan

Subject: Emergency Powers- Stop Signs

Copies to: Mayor Timothy Lowery - Karen Goodwin, City Clerk – Traffic Commission – BFO Commander – Communications – Switchboard P.O. Cameron – Tod Hughes – Tom Goldkamp – Jason Timme – Sgt. Kyle Lewis

Pursuant to section 305.100 of the Florissant City Code, which states:

"SEC. 305.100. EMERGENCY, ETC., REGULATIONS.

The Chief of Police by and with the approval of the city traffic engineer is hereby empowered to make regulations necessary to make effective the provisions of the traffic ordinances of the city and to make and enforce temporary or experimental regulations to cover emergencies or special conditions. No such temporary experimental regulation shall remain in effect for more than ninety (90) days. (CODE 305.100)."

#### <u>Request was made to place stop signs at the 4-way intersection at Swan</u> and Flamingo, a 3 way stop at Bobolink and Flamingo and a stop sign at the intersection of Chickadee and Flamingo.

All violations will be enforced under such powers as given to the Chief of Police under the above Section 305,100 commencing this date, April 22, 2022 at 12:01 a.m.

Mr. & Mrs. Joe Meyer 985 St. Joseph St. Florissant MO 63031

Attn: City Council City of Florissant 955 St Francois St. Florissant MO 63031

To Mayor Tim Lowery and City Council,

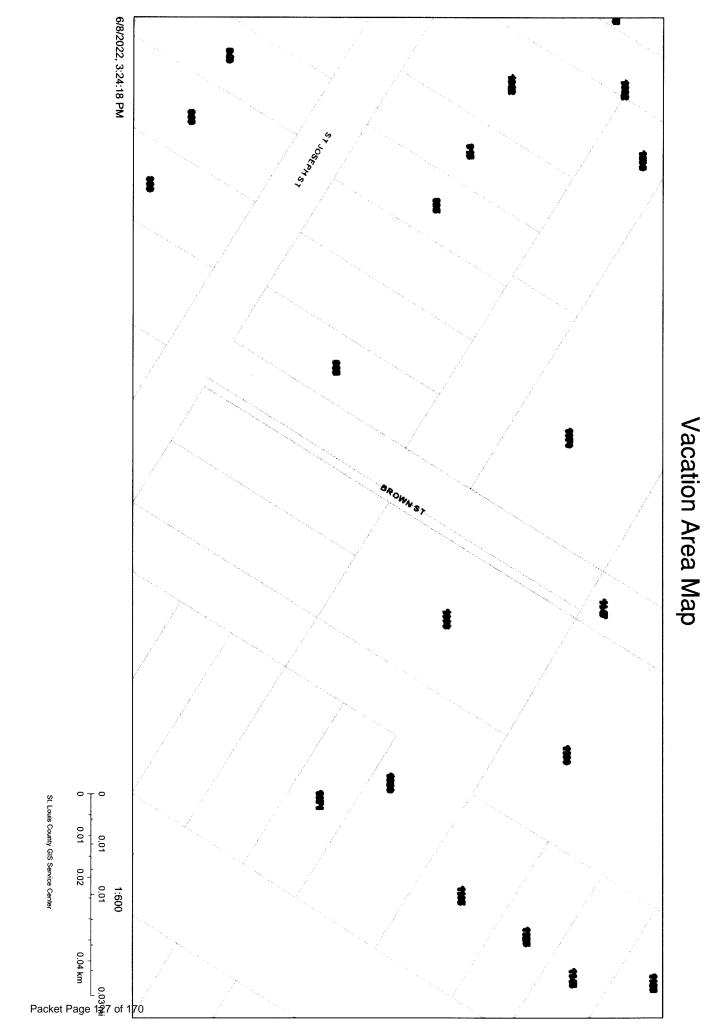

We are formally requesting the vacation of the easement best described as Brown Street running north to south from St. Joseph St. This paper street easement is currently grass, landscaping, and some small trees. The vacation of the property would allow us to develop our property at 985 St Joseph St. We have consulted with Tom Goldkamp and other city officials to understand the best process for this, and will continue to work with Tom, and anyone else in public works to comply with city code.

Thank you for your consideration,

Mr. Joseph Meyer

#### INTRODUCED BY COUNCILMAN GARRETT December 13, 1993

**BILL NO. 6420** 

#### ORDINANCE NO. 5580

#### AN ORDINANCE GRANTING A SPECIAL PERMIT TO DELOR DISTRIBUTING, INC. D/B/A CANNOLI'S SICILIAN CUISINE FOR THE LOCATION AND OPERATION OF A RESTAURANT ON THE PROPERTY HEREINAFTER DESCRIBED AND KNOWN AS 462 NORTH HIGHWAY 67. FLORISSANT, MISSOURI,

WHEREAS, the Florissant Zoning Ordinance authorizes the City Council of the City of Florissant, by Special Permit, after public hearing thereon, to permit the location and operation of a restaurant ; and

WHEREAS, an application has been filed by Delor Distributing, Inc. d/b/a Cannoli's Sicilian Cuisine for the location and operation of a restaurant with sitdown and carry-out services on the property hereinafter described and known as 462 North Highway 67; and

WHEREAS, the Planning and Zoning Commission of the City of Florissant has recommended that the said Special Permit be granted under certain conditions ; and

WHEREAS, due notice of a public hearing on said application to be held on the 22nd day of November, 1993 at 8:00 P.M. by the Council of the City of Florissant was duly published, held and concluded; and

WHEREAS, the Council, following said public hearing, and after due and careful consideration, has concluded that the granting of the Special Permit as hereinafter provided would be in the best interest of the City of Florissant.

NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF FLORISSANT, ST. LOUIS COUNTY, MISSOURI, AS FOLLOWS:

<u>Section I</u>: A Special Permit is hereby granted to Delor Distributing, Inc. d/b/a Cannoli's Sicilian Cuisine for the location and operation of a restaurant with sit-down and carry-out services on the following described property:

#462 North Highway 67 (Florissant Meadows Shopping Center) Florissant, Missouri.

<u>Section 2</u>: The said Special Permit herein authorized shall remain in full force and effect only under the following terms and conditions and subject to all of the ordinances of the City of Florissant:

- (1) There shall be only sit-down and carry-out services offered on the premises.
- (2) That the property be developed in accordance with the drawings attached hereto and made a part hereof as if fully set out herein and marked as Exhibit "A".
- (3) There shall be no external loud speakers located on the premises.
- (4) That placement and enclosure of any trash dumpster for the restaurant herein authorized shall be located directly behind the restaurant or at a location as directed by the Director of Public Works.

Section 3: That when the named permittee discontinues the operation of said

business, the Special Permit herein granted shall no longer be in force and effect.

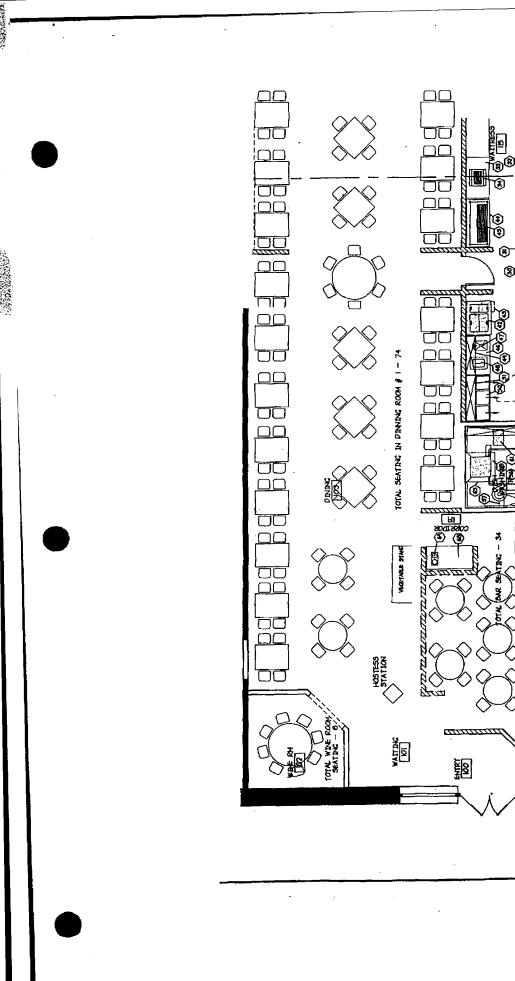

<u>Section 4</u> This ordinance shall become in force and effect immediately upon its passage and approval.

Adopted this <u>13th</u> day of <u>December</u>	_, 1993.
Approved this 14 day of Pacembe	President of the Council City of Florissant
A	mes <u>concen</u> Mayor, City of Florissant

#### APPLICATION FOR SUNDAY LIQUOR LICENSE TO THE CITY CLERK, CITY OF FLORISSANT, SAINT LOUIS COUNTY, MISSOURI

Authorizing the sale of retail liquor by the drink or package in the City of Florissant on **SUNDAY** from 9:00 am to midnight.

Individual	Partnership	Corpora	ition	Limited Liability Col	rp
NAME OF BUSINESS	Plush	Lound	re		
LOCATION 12667	t them	halls Ferry		17 - 556-	- 6068
EXACT TRADE NAME, LI	C, OR CORP	Plush	Hooka	h LLC	

The undersigned (Individual, Partnership, Corporation, LLC), hereby makes application to the City Clerk,

City of Florissant, St. Louis County, Missouri for a "By the Drink/Package Liquor License" authorizing the sale of retail liquor on Sundays from 9:00 am to midnight for the period beginning on \_\_\_\_\_\_

and expiring on June 30, 20\_\_\_\_, on the above described premises and agrees that if the license herein

applied for is granted, and the licensee shall violate any provisions of the State Liquor Control Act or of

the City of Florissant Code and particularly any provision of Chapter 600 of the Florissant City Code

pertaining to alcoholic beverages or permit any other person to do so upon the licensed premises, the

City Council, by a majority vote, may suspend or revoke such license.

 I/WE presently hold Florissant License Number \_\_\_\_\_\_ authorizing the sale of retail liquor by the drink or package in Florissant for premises described in this application.

Honorable Timothy J. Lowery, Mayor

# TRANSFER OF SPECIAL USE PERMIT PROCEDURE

After receiving completed Transfer of Special Use Permit application, the City Clerk places the Transfer request on the next City Council Agenda for acceptance of the application and 1<sup>st</sup> reading of the new bill.

Applicant is encouraged to contact the Councilperson of the ward prior to the City Council Meeting.

At the following meeting the bill is read for a second and third time and voted upon. With a majority of affirmative votes the bill is assigned an Ordinance number.

# The application for a Transfer of a Special Use requires the following for a complete application:

- Completed application form (with the signature from current owner to authorize the transfer of the ordinance in their name)
- Complete acknowledgement form
   (Acknowledging that the new owner has received a copy of the current ordinance and accepts responsibility for the Special Use Permit as it is written)
- 3. Copy of the LLC or Corporation papers.
- 4. Copy of a lease or bill of sale (to show an interest in the property)
- 5. Copy of the Fictitious name certificate (if applicable)

Return completed application and documentation to the City Clerk's office no later than 5 pm on Wednesday prior to a scheduled City Council meeting (2<sup>nd</sup> and 4<sup>th</sup> Mondays of each month)

Questions: Call the City Clerk at 314-839-7630 or 7631 or email kgoodwin@florissantmo.com

# STATE OF MISSOURI

John R. Ashcroft Secretary of State

#### CERTIFICATE OF ORGANIZATION

WHEREAS,

#### Shade Restaurant & Bar LLC LC014383013

filed its Articles of Organization with this office on the 2nd day of June, 2022, and that filing was found to conform to the Missouri Limited Liability Company Act.

NOW, THEREFORE, I, John R. Ashcroft, Secretary of State of the State of Missouri, do by virtue of the authority vested in me by law, do certify and declare that on the 2nd day of June, 2022, the above entity is a Limited Liability Company, organized in this state and entitled to any rights granted to Limited Liability Companies.

IN TESTIMONY WHEREOF, I hereunto set my hand and cause to be affixed the GREAT SEAL of the State of Missouri. Done at the City of Jefferson, this 2nd day of June, 2022.

#### ASSIGNMENT OF LEASE

This Assignment is entered on this \_\_\_\_\_\_ day of June. 2022 by and between <u>Bella Marie Agency</u>. <u>L.L.C., a Missouri Limited Liability Company</u> (referred to herein as "Assignor"), and <u>Shade Restaurant &</u> <u>Bar, L.L.C., a Missouri Limited Liability Company</u> (referred to herein as "Assignee") and <u>LCRF, L.L.C., a</u> <u>Missouri Limited Liability Company</u>, (hereinafter referred to as "Landlord").

#### WHEREAS:

Assignor is the tenant under a certain written lease agreement dated January 17, 2022, for certain premises located at <u>1752</u>, <u>1754 & 1756 New Florissant Road</u>, <u>Florissant</u>, <u>Missouri 63033</u> (the "Leased Premises"), the term of which is currently ending on December 31, 2025, (the "Lease").

#### WHEREAS:

LCRF, L.L.C., a Missouri Limited Liability Company is the owner of the Leased premises and the Landlord of the Leased Premises under the said Lease, and

#### WHEREAS:

Assignor desires to sell and assign all of its right, title and interest in all of the lease described above with the written consent of the Landlord;

#### NOW THEREFORE:

In consideration of the premises, and of the assignments made, and of the mutual covenants and agreements set forth herein, the parties to this Assignment agree as follows:

1. Assignor assigns any and all of the right, title and interest of the Lease of the premises known as Flo-Lin I Shopping Center located at 1752, 1754 & 1756 New Florissant Road, Florissant, Missouri 63033 to Assignee effective on May 15, 2022, and Landlord expressly consents to the Assignment on the terms and conditions set forth herein.

2. In order to induce Landlord to consent to this Assignment, Assignor agrees to remain liable to said Landlord for the obligation to pay all rent through the date of this Assignment and for all other debts or obligations, including CAM, Tax and Insurance as well as 2022 year end reconciliation, through the effective date of this Assignment.

3. Except for those debts or obligations specifically noted in Paragraph 2 above, Assignor is released from all liability for the performance of all duties and obligations under the terms and conditions of the Lease described herein and/or under any oral or written modification to such Lease, which were not performed by Assignor prior to the effective date of this Assignment.

4. Assignee shall have no obligation or liability whatsoever for any debt or obligation which Assignor owes to the Landlord or to any predecessor at the time of this Assignment including, but not limited to, rent or other debts or obligations arising out of the Assignors' use and occupation of the premises prior to the effective date of this Assignment.

5. The laws of the State of Missouri shall govern this Assignment of Lease.

6. Assignor's forwarding address shall be 38 Jost Villa Drive, Florissant, MO 63033

7. Passignee 153 rotice address shall be 38 Jost Villa Drive, Florissant, MO 63033

5 6 7 8 9	ORDINANCE AUTHORIZING A TRANSFER OF SPECIAL USE PERMIT NO. 8376 FROM 5 ACES BBQ TO CA44 LLC D/B/A HWY 67 BBQ FOR THE OPERATION OF A RESTAURANT LOCATED AT 1752-1754 N. NEW FLORISSANT ROAD.
10 11	WHEREAS, the Florissant Zoning Ordinance authorizes the Council of the City of
12	Florissant, by Special Use Permit, after public hearing thereon, to permit the location and
13	operation of a restaurant; and
14	WHEREAS, pursuant to Ordinance No. 8376, 5 Aces BBQ was granted a Special Use
15	Permit for the location and operation of restaurant on the property known as 1752-1754 N. New
16	Florissant Road; and
17	WHEREAS, an application has been filed by CA44 LLC d/b/a Hwy 67 BBQ to transfer
18	the Special Use Permit authorized by Ordinance No. 8376 to its name; and
19	WHEREAS, the City Council of the City of Florissant determined at its meeting on
20	April 9, 2018 that the business operated under Ordinance Nos. 8376 would be operated in a
21	substantially identical fashion as set out herein; and
22	WHEREAS, CC44 LLC has accepted the terms and conditions set out in Ordinance No.
23	8376.
24 25	NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF FLORISSANT, ST. LOUIS COUNTY, MISSOURI, AS FOLLOWS:
26 27	Section 1: The Special Use Permit authorized by Ordinance No. 8376 originally issued 5
28	Aces BBQ is hereby transferred to CC44 LLC d/b/a Hwy 67 BBQ for the location and operation
29	of a restaurant on the property known as 1752-1754 N. New Florissant Road.
30	Section 2: The terms and conditions of said Special Permit authorized by Ordinance No.
31	8376 shall remain in full force and effect.
32	Section 3: The Special Use Permit herein authorized shall terminate if the said business
33	ceases operation for a period of more than ninety (90) days.
34	Section 4: This ordinance shall become in force and effect immediately upon its passage
35	and approval.
