

What Is Prop A?

Proposition A is a 20-year general obligation Bond Issue for Aquatic Recreational Projects. It requires a 4/7th (57.142%) majority to pass. If passed it will generate \$10 million for major new improvements and renovation of Florissant’s aquatic recreation facilities.

What Is The Cost?

The general obligation bond is based on the assessed value of one’s home. For example, for a \$10 million general obligation bond financing, the tax rate would be approximately 12 cents. The cost to an average \$150,000 homeowner would be approximately \$2.85 per month.

What Are The Benefits?

Rebuilding and Improving outdated facilities make the overall pool and aquatic experiences more enjoyable for all. Providing modern facilities and upgraded aquatic recreational facilities enhances the overall desirability of Florissant as a great place to live and raise a family. It also directly contributes to the health and wellness for users of all ages.

QR Codes to view Bangert Park and Koch Aquatic Center:

For those unfamiliar with a QR code, simply open the photo function on your cell phone and hold it in front of the box. A tab will appear at the top of the screen and simply click on it
